December 23, 2004

Dear Interested Party:

Information provided in the "2005 Stocking Plan" is put together to provide the public with a plan of where, how many what species, and what size fish will be stocked into public waters. We have organized the information by Region and then by water in alphabetical order. The objective of this publication is to provide the public with up to date information about fish stock throughout the state.

What is New in the Hatchery System

The propagation and stocking of fish has been a vital part of Fish, Wildlife & Parks' (FWP) activities for more than a century. Since the first hatchery was operational there have been many hatcheries, some still in operation and some no long exist. The newest facility is the Fort Peck Multi-Species hatchery, which has the potential to produce every species of fish the FWP stocks throughout the state. The main emphasis will be to produce up to 50,000,000 walleye fry and 2.5 million walleye fingerling. This "State of the Art" hatchery was designed for the future needs of Montana and has the best, most up to date, water treatment systems and fish rearing systems. When operational it will have the capabilities no other hatchery in the country has. The efforts of fisherman and citizens across the state should be proud of their efforts in obtaining the funds and authority to make this tremendous facility a reality.

As many are aware, PCB's a chemical contaminant was found in the raceway paints at Big Springs Hatchery. Since the discovery of PCBs last summer the majority of the hatchery has been shut down and will be for the near future. This will have a dramatic effect on the 2005-stocking plan. The results of having to close the lower raceways is a statewide one-third reduction in our stocking efforts for 2005. The Hatchery Bureau has made every effort to balance the reductions to maintain fisheries through out the state. However, fishermen may see minor changes in the catch rates in some waters. Hopefully we will be at full production in 2005/2006 so the 2006 stocking efforts will be back to 100%.

If you have questions on anything pertaining to fish stocking, hatchery operations, PCBs, or the new Fort Peck Hatchery, feel free to contact our Hatchery Bureau Chief in our Helena office at:

E-mail: gbertellotti@state.mt.us
