DECISION RECORD
INTRODUCTION OF NEW FISH SPECIES

Name: **Pelican Point Pond #1**
County: Cascade
Legal Description: T20N R1W S 30
Water Code: 17-9393

Fish Species Proposed for Introduction: Eastern brook trout

Description of Public Notification/Review Process:

A draft environmental assessment was posted on the department's website from March 18 through March 31.

Summary of Public Comments:

No public comments were received through April 18, 2011.

Recommendation:

Based on the department's proposal which outlined the benefits and risks of stocking brook trout in Pelican Point Pond # 1 and the fact that no public comments were received, it is my recommendation that the proposed action be implemented as described in the draft EA. Therefore, the draft EA becomes the Final EA. Brook trout will be stocked in Pelican Point Pond #1 to improve angling quality.

George Liknes
Regional Fisheries Manager
