Legend: *(in order of occurrence behind species name)*

Area:

- HA: Mt Haggin WMA
- FL: Fleccer Mountain WMA
- Bo: Both

Season of Occurrence:

- Sp: Spring
- S: Summer
- F: Fall
- W: Over winter
- Y: Year around

Breeding:

- B: Breeds
- b: Probably breeds
- t: Transient/migrant
- - *Haggin then Fleccer (t-b)*

Relative Abundance:

- A: Abundant *(seen every trip)*
- C: Common *(seen most trips)*
- U: Uncommon *(often not seen)*
- R: Rare *(not seen every year)*
- - *Haggin then Fleccer (R-U)*

Habitat:

- G: Grasslands
- Ri: Riparian
- D: Deciduous
- Co: Coniferous
- All: All four habitats

Note:

= Not found in 2010-11 surveys, but other databases show species to be in the area.

This list is based on field observations by Gary Swant, GoBirdMontana, in the summer of 2010 through spring of 2011. Additional data secured from the MT Natural Heritage Program, the University of Montana Avian Science Center, and observations by Chadeayne Roush.

Waterfowl
