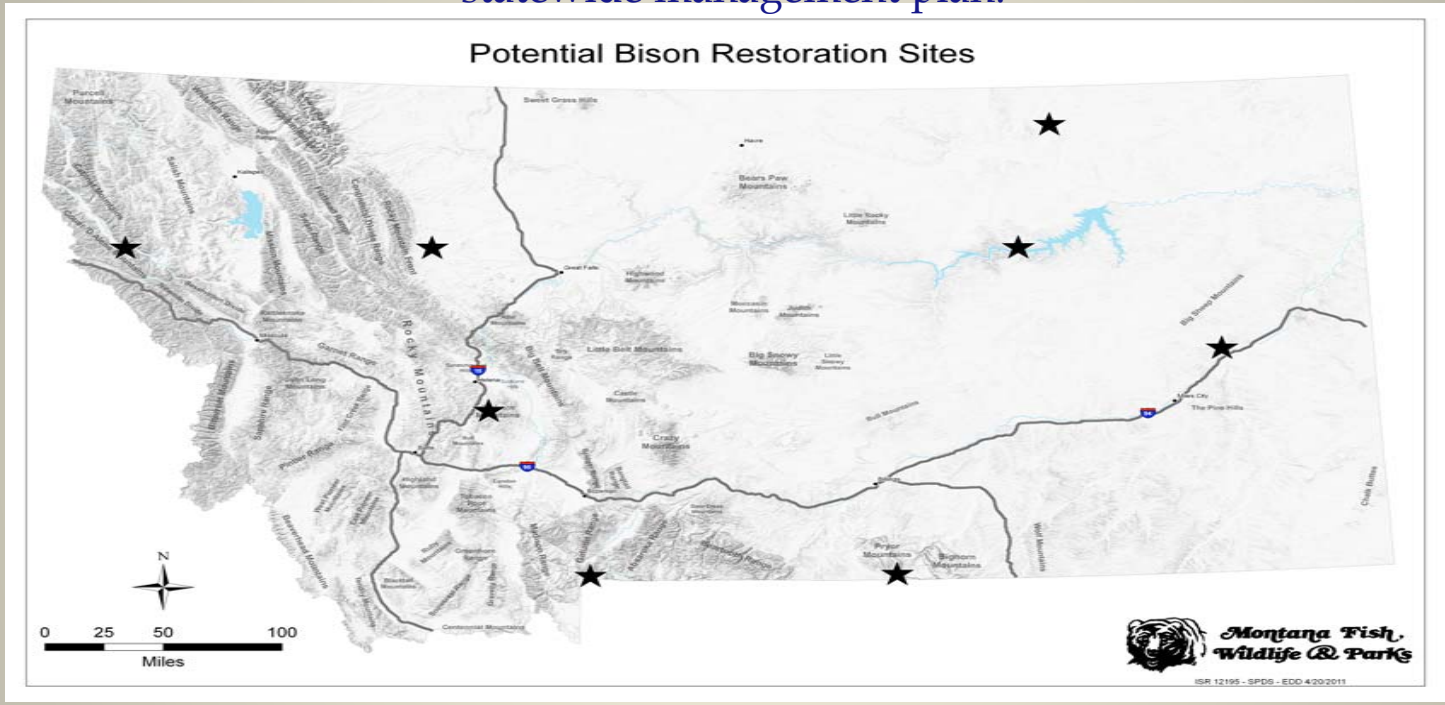
Potential Restoration Locations Previously Identified by Non-FWP Entities

Multiple organizations that are not directly affiliated with FWP have identified potential areas as suitable for bison restoration. FWP will examine these and other areas during the development of a statewide management plan.



- Thompson River
- Areas Along the Rocky Mountain Front
- Elkhorn Mountains Wildlife Management Area
- Bitter Creek Wilderness Study Area
- Areas Bordering North and West of Yellowstone National Park
- Charles M. Russell Wildlife Management Area
- Pryor Mountains National Recreation Area
- Terry Badlands
