Q2

Please comment on Commercial Use Permit Fee Rules

Please reinstate the fee schedule on commercial uses of the FASs and WMAs. These commercial users are putting additional strain on our public access points and these fees can help improve those sites, from better parking to improving boat ramps after major flood events.

Q2

Please comment on Commercial Use Permit Fee Rules

The fee structure does not charge enough for commercial videographers. Basically, those that are filming fishing and hunting shows for TV. These folks make \$\$ from sponsors, commercials, the TV stations, etc. They should be paying \$1000/day per event no matter what size their crew is. This should go for land-based videos too. Public and Private lands should be included in the commercial for-profit filming of fishing & hunting resources.

An alternative may be to issue an annual license. \$250 for residents, \$1000 for non-residents.
