Please comment on the Future Fisheries Improvement Projects - Winter 2024 Funding Cycle

About removing Lake Trout from Swan Lake.... Save the money, leave the fish for folks to catch. The Flathead Lake debacle to attempt to remove the Lake Trout goes on at a "feel good" level but my opinion is it's not removing the lake trout. Ask, "Has a Lake Trout Removal Effort ever been successful? We used to have trophy Lake Trout in Flathead. How many "Trophy" lake trout were caught during the Mack Days efforts? What's the goal? Native fish? That ship seems to have sailed. Bull Trout efforts have helped some, but at what expense? How about we accept the species that have been here for the last 100 + years and let's find fish that want to be here (are hardy and reproduce well without manipulation) We need a plentiful and sustainable fishery in Western Montana. The last 10 - 15 years efforts don't seem to be successful in making that goal a reality.

I would like to see fiber gulch receive grant dollars. I know most has been raised and a little more can push it over the top. It is in the permitting stage now. Please help push this over the top. Thanks

Jim Bjornemo

VP Anaconda sportsman's club.

Keep what you have up to date and spend the money wisely rather than raising pricing to the Montana Residence.
Raise the cost to the out of state hunter.

Please comment on the Future Fisheries Improvement Projects - Winter 2024 Funding Cycle

Dear Commission Members,

Please support the Fifer Creek habitat improvement project and creation of Kids Fishing Area. This project has the widespread community support and substantial funding support. Anaconda Deer Lodge County also owns the land and water rights. There will be no impact on downstream water users. Thank you for your consideration in this matter.

Please support the Fifer Gulch project it would help restore fish and other wildlife habitat to an area damaged by early mining. It would also provide fishing opportunities for children in the Anaconda area.

Q2

Please comment on the Future Fisheries Improvement Projects - Winter 2024 Funding Cycle

The Montana Wildlife Federation supports all of the listed Future Fisheries Improvement Projects for the Winter 2024 funding Cycle. These are good programs that improve habitat and connectivity, and MWF has stood up in the Legislature to ensure that the Future Fisheries program is well funded. Thank you for identifying these smaller scale initiatives that will improve fishery habitats across the state.
