FISH

MONTANA FWP | Fishing Regulations

Letter from the Director

The past couple of years have been critical for fisheries in Montana and the anglers who love them. At Montana Fish, Wildlife & Parks, we are stepping up on all fronts to ensure people who fish the lakes, rivers, or streams around the state have a wonderful experience.

A classic example of how FWP staff are tackling issues collaboratively and with the best science available is on the Jefferson River Basin in southwest Montana. Here we have seen historic declines in trout numbers over the past few years. We are facing that reality with a combination of research in partnership with Montana State University, more resources for monitoring, and adjustments to regulations (pay special attention to the regulations for the Big Hole, Beaverhead and Ruby rivers in this booklet). Our staff know these waters as well as anyone, and we continue to rely on their expertise and research to guide our decision-making.

In addition to our response, we are also engaging anglers in a new way. We know people are concerned when they see dead or diseased fish. So, we want to know when that happens. If you are out on our waterways and see dead or sick fish, you can now report the sightings and upload a photo at sickfish.mt.gov. It's simple and a great way for you to get involved with fisheries management.

This regulations booklet is also a reflection of a lengthy public process our staff has undergone in developing a statewide fisheries management plan. That plan became final last fall and represents our commitment to fisheries management through the best available science and sound research. Whether you're into walleye on Fort Peck, paddlefish in the Yellowstone, or cutthroat trout on the Bitterroot, this plan will have details on how we're managing the fish you like to chase and the waterways you like to fish.

The statewide plan also represents an evolution in transparency for us. The plan outlines our management for each watershed in the state. This is critical for us as an agency and for anglers in the state. We want you to know what we're doing and why. We also want to hear back from you when you think it's not working. This plan will be updated periodically and will continue to be the foundation for fishing regulations going forward.

Lastly, we are switching to a biannual fishing regulations process, similar to how we do hunting regulations. In the past, we did significant updates to fishing regulations every four years. However, doing it every other year allows us to be more responsive to issues that might arise or concerns from anglers.

Please enjoy your time on the water. Take care to always Clean, Drain, and Dry to prevent the spread of aquatic invasive species. And always be safe.

Dustin Temple

Emergency Fishing Regulations/Closures

FWP may announce short-term emergency fishing closures in response to biological or environmental conditions. Sport fishing regulations in this booklet for the designated waters will be suspended, and fishing may be curtailed or disallowed for the duration of the emergency period announced by the department. In recent years, many Montana streams have experienced drought conditions. Low stream flows can force trout to congregate in pools, making them more susceptible to anglers. Warm water temperatures can cause considerable stress to trout and can be fatal to fish handled by anglers. Check the FWP website, your local newspaper, or call your regional FWP office to find out about emergency regulations/closures.

Regulations Adopted by the F&W Commission

By order of the Fish and Wildlife Commission (F&W Commission), the seasons. limits, and regulations listed here shall govern the 2024 fishing seasons (a fishing season runs from March 1 through the following February). These regulations were adopted by the F&W Commission on Oct. 19, 2023, and will be valid March 1, 2024, through the end of Feb. 2025. The F&W Commission may formally adopt changes to these fishing regulations, including emergency regulations/closures or corrections. Any changes to these regulations will appear on the FWP website fwp. mt.gov. Emergency regulations/closures are posted at access sites. Anglers must check the website to make sure they are in compliance with fishing regulations.

Discriminition Prohibited-This program receives federal financial assistance from the U.S. Fish & Wildlife Service. Under Title VI of the 1964 Civil Rights Act, Section 504 of the Rehabilitation Act of 1973, Title II of the Americans with Disabilities Act of 1990, the Age Discrimination Act of 1975, and Title IX of the Education Amendments of 1972, the U.S. Department of the Interior prohibits discrimination on the basis of race, color, national origin, age, sex, or disability. If you believe that you have been discriminated against in any program, activity, or facility, or if you need more information, please write to: Office of Diversity, Inclusion and Civil Rights, U.S. Department of the Interior, 1849 C Street, NW Washington, DC 20250.

Waterway Map Index

Lake Koocanusa and the		Rivers	84	
Kootenai River	38	Yellowstone River	72	

How To Use These Regulations

Follow these easy steps:

 Determine the fishing district that you will be in and read the district's standard regulations. These are the regulations and limits that apply to a majority of waters in the district.

WESTERN FISHING DISTRICT - page 23 CENTRAL FISHING DISTRICT - page 49 EASTERN FISHING DISTRICT - page 73

Check if the specific water you will be fishing is listed in the District Exceptions to Standard Regulations (waters are listed alphabetically). If the water you plan to fish is identified, the exceptions take the place of the standard regulations for those items listed (i.e. season, daily limits, etc.). If not listed, the District Standard Regulations apply.

- 2) If you don't find the water you are looking for listed in the district exceptions, use the standard regulations for the district you are fishing in. If you don't find a species you are looking for in the exceptions for your water, use the standard regulations for the district.
- New or changed 2024 regulations are displayed in bold italics.
 Or: Check the FWP website at: fwp.mt.gov/fish/regulations/

2024 GENERAL FISHING SEASON					
	Rivers and Streams				
Western District Open third Saturday in May through Nov. 30, unless otherwise specified in Exceptions to Standard Regulations.					
Central District	Open all year unless otherwise specified in Exceptions to Standard Regulations.	Open all year.			
Eastern District Open all year unless otherwise specific in Exceptions to Standard Regulations					
Fishing is allowed at all hours during open fishing seasons unless					

Fishing is allowed at all hours during open fishing seasons unless otherwise specified in District Exceptions to Standard Regulations.

If you don't find the water you are looking for listed in the district exceptions, use the standard regulations for the district you are fishing in.

Definitions

ANGLING/FISHING: Angling or fishing means to capture or attempt to capture fish, or the act of a person possessing any instrument, article or substance for the purpose of taking fish in any location that a fish might inhabit.

ARTIFICIAL LURE: Any man-made lure (including flies) that imitates natural bait. Artificial lures may have a scent infused or applied. Artificial lures do not include fish eggs, any natural or artificial food such as corn and marshmallows, any products that are derivatives of natural foods, any chemically treated or processed natural bait such as salted minnows, nor any artificial dough, paste or edible baits.

ATTENDED LINE: A line with/without a pole held in hand or under immediate control. When used through the ice, the angler need not be in immediate control but must be in the vicinity and in visual contact with the line.

CALENDAR DAY: A 24-hour period from midnight to midnight.

DAILY LIMIT: The number of fish that may be legally taken during a calendar day. A fish when landed and not immediately released becomes part of the bag limit of the person originally hooking the fish even if the fish is donated to another person. If

you receive fish from another angler, those fish also become part of your daily limit. **DRAINAGE:** All of the waters comprising a watershed, including tributary rivers, streams, sloughs, ponds and lakes that contribute to the water supply of the watershed.

DRESSED FISH: A fish which has been cleaned by removing the entrails. Dressed fish also may be filleted and/or have their head, gills and scales removed.

ENDANGERED SPECIES: Species in imminent danger of extinction throughout their range and listed by state or federal regulation.

FISHING ACCESS SITE (FAS): An area adjacent to a stream or lake which has been acquired by FWP to allow anglers access to a water body. Fishing access sites are funded in part by Fishing License fees.

FISHING FROM BOATS/VESSELS: Fishing while on any boat or vessel. When a water is designated as closed to fishing from boats/vessels, anglers may not fish from a boat or vessel, but may use a boat or vessel to access wade fishing opportunities. An angler must be completely out of the boat or vessel while wade fishing.

FLOAT FISHING: Any fishing from a boat or vessel, or wade fishing when fishing access is gained by boat or vessel. When a water is designated as closed to float fishing, an angler may not fish from a boat, and may not wade fish in the river or stream, or from the bank or shoreline of the river or stream, when access is gained by boat or vessel.

FLOAT OUTFITTING: The operation of any boat or vessel for the commercial purpose of float fishing by a fishing outfitter or fishing guide.

GAFF: A hook attached directly to a pole (metal or wooden shaft) or other device. Use of gaffs is permitted only to help land a fish that was lawfully hooked.

GAME FISH: All species of the family Salmonidae (trout, salmon, arctic grayling, whitefish, cisco and chars); all species of the genus Sander (sauger and walleye); all species of the genus Esox (northern pike and tiger muskie); all species of the genus Micropterus (bass); all species of the genus Polyodon (paddlefish); all species of the family Acipenseridae (sturgeon); the genus Lota (burbot or ling); the species Perca flavescens (yellow perch); all species of the genus Pomoxis (crappie); and the species Ictalurus punctatus (channel catfish).

Bull trout are defined as any trout with white leading margins on the lower fins and no markings on the dorsal fin. (Note: it is unlawful to intentionally fish for bull trout in any waters unless specifically authorized in the Western Fishing District Regulations.)

Cutthroat trout are defined as any trout with a red or orange stripe under its jaw. See the inside cover for an identification (ID) key (page 89).

Sauger are defined as any Sander (sauger/walleye) with multiple small, distinct black spots on the spiny (first) dorsal fin ray membranes.

HOOK: A hook is a single, double, or treble point attached to a single shank. A lure with multiple hooks is still considered a single hook.

HOOP NET: A cylindrical or conical net distended by a series of hoops or frames, covered by web netting. The net has one or more internal funnel-shaped throats whose tapered ends are directed inward from the mouth.

LEGALLY TAKEN: Any fish caught using legal methods and not immediately released alive.

LENGTH: Measure the greatest length from the tip of the nose to the tip of the tail. Place the fish on a flat surface and squeeze the lobes of the tail fin together so as to achieve the greatest length. Do not measure over the curve of the body.

LIVE BAIT: Live bait are animals such as meal worms, red worms, night crawlers, leeches, maggots, crayfish, reptiles, amphibians, and insects, which may be used as live bait on all waters not restricted to artificial flies and lures. Live bait includes fish only as specified in Live Bait sections for the Central and Eastern Fishing Districts. No live fish can be used as live bait in the Western Fishing District. Sculpins may not be used as bait live or dead in the Western Fishing District.

MAINSTEM: In a drainage, the mainstem is the primary stream or river into which most tributaries flow.

MOTORBOAT: A vessel, including a personal watercraft or pontoon, propelled by any machinery/motor/engine of any description, whether or not the machinery/motor/engine is the principal source of propulsion. The term includes boats temporarily equipped with detachable motors/engines.

NON-GAME FISH: Any wild fish not otherwise legally classified by statute or regulation. **NOODLING:** A technique for catching fish by hand. It is unlawful to catch fish by hand in any district.

PERMANENT RESIDENCE: The physical abode or structure you maintain as your principal, legal residence. A person may have only one permanent residence.

POSSESSION LIMIT: The number of fish that may be possessed at any time in any form: fresh, stored in freezers or lockers, salted, smoked, dried, canned, or preserved.

RESERVOIR: A body of water artificially impounded behind a man-made dam that extends upstream to the mouth of its inlet stream(s) or river. Reservoirs do not include waters incidentally impounded on a stream or river by a structure such as a check dam for irrigation, a headgate to divert water for irrigation, or similar structures. Under normal operations, reservoir pool elevation, surface acreage and the mouths of the inlet stream(s) are expected to vary throughout the year. An imaginary line connecting the reservoir shoreline across the mouth of the stream marks the boundary between reservoir and stream/river, and the boundary will move as reservoir levels change. Streams are defined by a sloped streambed that results in a defined current flow between two discernible stream banks. Stream regulations apply upstream from the mouth on the reservoir and often are managed under seasons, limits and special regulations that differ from the reservoir regulations.

SALMONIDAE: Any species of trout, char, salmon, arctic grayling, cisco, or whitefish. Wild salmonids possess an adipose fin (small fleshy fin on the back near the tail); hatchery-reared fish sometimes have had this fin intentionally removed.

SEINE: A net, usually suspended between two poles, which is pulled through the water to capture fish for bait. Seines used for this purpose must not exceed 12 feet in length and 4 feet in width.

SETLINE: A line or lines with or without a pole set to catch fish without the angler being present or within immediate control. The angler's name, phone number, or an individual identifying number issued by the department must be attached. Setlines are not allowed in the Western Fishing District.

SNAGGING: A technique of angling in which a hook or hooks are cast into the water and manipulated to embed the hook or hooks into the body of the fish. You have snagged a fish if: (a) you are fishing in a manner that the fish does not voluntarily take the hook in its mouth, or (b) if you accidentally hook the fish in a part of the body other than the mouth.

SPEAR: Any sharp-pointed instrument, with or without barbs, used to capture and/or kill fish by penetrating the body. Usually a spear consists of a shaft with a sharp head or point. Spears may be hand-propelled or propelled with a spring or rubber band.

SPECIES OF CONCERN: Native Montana species with limited habitats and/or limited numbers in the state. Such species are at risk of becoming threatened.

STREAM MOUTH: The downstream point defined as a straight line running from the most downstream extremity on one stream bank to the most downstream extremity on the other stream bank or a point defined and marked by FWP (also see Reservoir definition).

THREATENED SPECIES: Species that may become endangered within the foreseeable future without conservation measures.

TRIBUTARY: Any watercourse that flows into a body of water, including tributaries to a tributary.

VESSEL: Every type of watercraft or boat capable of being used as a means of transportation on water except devices that are propelled entirely by kicking fins and the floater sits in the water, such as inner tubes (motor vehicle type), float tubes (belly boats), air mattresses and sailboards when used without mechanical propulsion by an individual. Contact your local warden for more information.

DAM CLOSURES AND USE RESTRICTIONS

In the interest of public health and safety, certain areas above and below most dams are closed to the public. These restrictions include areas where no public access is allowed below the ordinary high-water mark. The restricted areas are identified and delineated by signs and/or boat restraining systems.

The following dams are closed to all boating, sailing, floating, swimming, fishing, or other recreational activity as marked by boat restraining systems or as posted to restrict access. Other dams not listed here may also be posted for restricted access. For more information call FWP at 406-444-2449, or contact the Army Corp of Engineers (ACOE) 406-293-7751, x255, AVISTA 1-800-227-9187, Bureau of Reclamation (BOR) 406-387-5241, CSKT 406-883-2888, NorthWestern Energy (NWE) 888-467-2669 or PacificCorp Energy 503-813-6666.

AIS Waterbody Monitoring

FWP annually monitors waterbodies statewide to detect invasive aquatic plants and invertebrates. The table below summarizes all waterbodies where AIS have been detected. When boating, fishing, or recreating on any waterbodies in Montana, always **CLEAN. DRAIN. DRY.** all watercraft, trailers, and gear to stop the spread of AIS.

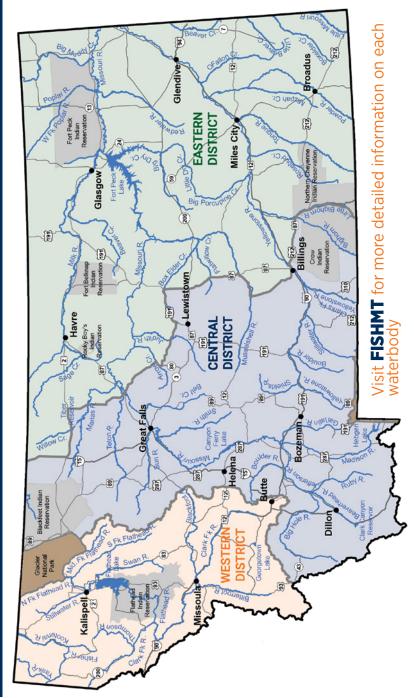

Waters with aquatic invasive species present and are listed in exceptions to the standard fishing regulations are identified with an AIS stop sign symbol.

Montana Waterways Map

Montana Fishing Access Sites

With over 350 fishing access sites to choose from across the state, anglers enjoy good access to the state's streams and rivers, lakes and reservoirs. You may download a field guide to fishing access sites located on Montana's streams, rivers, and lakes, or you may use the interactive FWP Fishing Access Site Search at myfwp.mt.gov/fishMT/explore to find a fishing access site.

The field guide describes the fishing access sites FASes located on Montana's streams, rivers and lakes that vary in size from less than one acre to several hundred acres. Montana's FAS program provides public access to high quality waters for angling, boating, rafting, and other recreation opportunities. In addition, FASes are often popular areas for hunting, wildlife viewing, hiking, bird watching, picnicking, etc. The funding to purchase, develop, and maintain these important sites comes from the sale of conservation licenses, fishing licenses, state motorboat and vehicle registrations, camping, commercial use, and federal sport fish restoration funds.

Fees

A valid conservation license is required of every person aged 12 years and older using a fishing access site for any reason. Additional fees may be charged for camping where overnight camping is allowed, and for commercial and group uses of the FAS.

Commercial Use

A permit is required to conduct commercial activities at fishing access sites. Please contact the Regional FWP administrative office or visit the FWP website for more information.

Camping

Many of the FASes are managed as day use only, but camping is allowed at 97 locations. An overnight camping fee is charged at many of the sites and are available on a first-come, first-served basis.

FASes are primitive or semi-primitive sites. They do not have electricity, running water, or dump stations. Not all sites are designed for access by larger recreational vehicles. It may be necessary to physically inspect the facility before pulling in if the parking area is not visible from the access road.

Additional camping opportunities with higher levels of development are available at Montana's state parks and at other locations throughout the state. Please refer to the state parks brochure for a list of state parks with campgrounds.

Protect the waters you love to fish!

Stop the Transport of Aquatic Invasive Species

When transporting watercraft WITHIN Montana:

- All watercraft are required to stop at all open watercraft inspection stations. Failure to stop could result in a fine of up to \$500.
- All watercraft crossing the Continental Divide into the Columbia River Basin or into the Flathead River Basin must be inspected before launching.
- Boats with ballasts or bladders, such as wakeboard or wake-surfing boats, crossing the Continental Divide into the Columbia River Basin must obtain a decontamination before launching.

When transporting watercraft INTO Montana:

- All watercraft entering Montana are required to be inspected before launching, including residents returning to Montana.
- Boats with ballasts or bladders, such as wakeboard or wake-surfing boats, that intend to launch on Montana waters must obtain a decontamination before launching.
- Nonresident boats (motorized and non-motorized) launching on Montana waters must purchase the Vessel AIS Prevention Pass. Motorized fee = \$30. Non-motorized fee = \$10. Pass is valid thru Dec. 31, 2024. Learn more and purchase at CleanDrainDrvMT.com.

It is illegal to:

- Transport AIS into or within Montana.
- Transport live fish and bait fish into Montana.
- Transport surface water.
- Move live fish, aquatic plants or invertebrates from one waterbody to another without FWP authorization.
- Release unwanted bait fish into water.

What Do I Need to Fish in Montana?

Age	Conservation License	AIS Prevention Pass 16 & Older	License Fee	Total Cost			
0-11	No license	No license required. Must observe all limits and regulations.					
Resident 12 - 15	\$4.00	No Fee	\$5.00 for 2 consecutive calendar days	\$9.00			
12 - 13			\$10.50 for season	\$14.50			
Resident 16 - 17,	\$4.00	\$2.00	\$5.00 for 2 consecutive calendar days	\$11.00			
62 and older	,	,	\$10.50 for season	\$16.50			
Resident Disabled 18-61	\$8.00	\$2.00	\$10.50 for season	\$20.50			
Resident 18-61	\$8.00	\$2.00	\$5.00 for 2 consecutive calendar days	\$15.00			
			\$21.00 for season	\$31.00			
	\$10.00	No Fee	\$14.00 for 1 calendar day	\$24.00			
Nonresident 12-15			\$56.00 for 5 consecutive calendar days	\$66.00			
			\$100.00 for season	\$110.00			
Nonresident 16 and older	\$10.00	\$7.50	\$14.00 for 1 calendar day	\$31.50			
			\$56.00 for 5 consecutive calendar days	\$73.50			
			\$100.00 for season	\$117.50			
Nonresident Motorized Vessel Prevention Pass		\$30 per vessel good through Dec. 31 of each year					
Nonresident Non-Motorized Vessel Prevention Pass		\$10 per vessel good through Dec. 31 of each year					

Resident Sportsman and Nonresident Combination Licenses include a Season Fishing License.

A valid Fishing License (see license requirements table above) is required for all types of fishing on state waters. To fish in Montana, most anglers need a Conservation License and a Fishing License, and also an AIS Prevention Pass, see table above. You must have your Fishing License in your possession while fishing. A license on your smart phone is acceptable.

A Conservation License is needed before you can buy any fishing or hunting license. Conservation License applicants are required to provide the last four digits of their social security number in addition to the information usually requested. A valid driver's license or a valid photo ID is required to purchase a license.

A Fishing License allows a person to fish for and possess any fish or aquatic invertebrate authorized by the state's fishing regulations. It is nontransferable and nonrefundable. The license enables one to fish from March 1 through the end of February of the following year.

The AIS Prevention Pass is required for individuals 16 and over who fish in Montana.

Resident Licenses: To qualify for a resident license, a person must meet the criteria set out in MCA 87-2-102 and 202. To be a legal resident eligible to purchase a resident Fishing License, you must have physically been living in Montana for at least 180 consecutive days (six months) immediately before purchasing any resident license; you must file Montana state income tax returns as a resident, if you are required to file; you must have registered your vehicles in Montana; if you are registered to vote, you must be registered in Montana; and you may not possess or apply for any resident hunting, fishing or trapping privileges in another state or country. At the time of purchase, a person must present a valid Montana driver's license, a valid Montana driver's examiner's identification card, or a tribal identification card. If unsure of your residency status, contact a regional FWP office.

Paddlefish: All anglers must purchase a paddlefish tag to fish for paddlefish. To purchase a tag, all anglers must have a valid Conservation License, an AIS Prevention Pass and a Fishing License. Limit of one paddlefish tag (one fish) per person: **Resident - \$6.50 each Nonresident - \$15 each**

Paddlefish harvest only tags will be available via lottery draw (\$5 drawing fee) for the Upper Missouri River paddlefish season (White Tag) only. Anglers need to apply individually or as a party (up to five people) before 5p.m. March 22, 2024. See page 77 for specifics on the Upper Missouri paddlefish drawing.

Bull Trout: Hungry Horse Reservoir, Lake Koocanusa and part of the South Fork Flathead River are open for a regulated and experimental bull trout angling season. When fishing for bull trout each angler must have in possession a valid bull trout Catch Card for the specific water he/she is fishing. Anglers may select only one of the following areas: A) Lake Koocanusa, or B) Hungry Horse Reservoir and South Fork Flathead River. Swan Lake is open to angling for bull trout without a special permit but no harvest is allowed. All other waters are closed to intentional angling for bull trout year around.

Catch Cards are free of charge and are available at the FWP Region 1 office in Kalispell and at the U.S. Forest Service Spotted Bear Ranger Station. Applications for a catch card are available at the FWP Region 1 office or online at fwp. mt.gov/fish/license/. Completed applications must be presented at the regional headquarters or mailed to FWP bull trout Permit, 490 North Meridian, Kalispell MT 59901.

Free Fishing Mother's Day and Father's Day Weekends May 11-12 and June 15-16, 2024.

By Montana law, each year on Mother's Day and Father's Day weekends any person (resident or nonresident) may fish for any fish within this state without obtaining a Fishing License as long as they abide by the seasons, restrictions, and bag limits listed in these Fishing Regulations. The two exceptions to this are paddlefish and bull trout fishing, both of which require the purchase of a Conservation, Fishing, and AIS Prevention Licenses. Fishing for paddlefish also requires a paddlefish tag. A catch card is required to fish for bull trout.

Montana Resident With Disability: Montana FWP seeks to ensure that its programs, services and activities are accessible to persons with disabilities. Montana FWP provides many representative recreational opportunities. To learn more or to request modifications or accommodations relative to a disability, contact FWP at 406-444-2449.

- Resident Person With a Disability must purchase a Conservation License \$8, an AIS Prevention Pass \$2 and a Fishing License \$10.50. To qualify a person must be permanently and substantially disabled. Applications are available on the FWP website however, they can only be certified at a regional FWP office or by mail.
- Lifetime Fishing License for the Blind \$10 plus an annual \$2 AIS Prevention Pass.
 Visit the FWP website for an application.

Veterans Administration Patients: Permits are available for patients residing at VA hospitals and residents of state institutions, except the state penitentiary. These free permits are available on-site at the VA hospital or state institution. Contact Enforcement at 406-444-2452.

Legion of Valor: A Conservation License allows both residents and nonresidents, regardless of age, to fish. Legion of Valor membership card required to qualify. Available only at FWP offices.

Care Facility: The manager or director of an eligible facility licensed in Montana may apply for permission to take supervised residents fishing during activities approved by the facility. Licensed facilities include long-term care, personal care, home for persons with developmental disabilities and home for persons with severe disabilities. Contact Enforcement 406-444-2452.

Education Exemptions: Free Fishing License exemptions are available for qualified educational events and fishing clinics. For information on these free educational exemptions, call 406-444-9943.

Purple Heart: Residents who have been awarded a Purple Heart, regardless of age, may fish and hunt upland game birds with a Conservation License issued by the Department.

- Nonresidents who have been awarded a Purple Heart, regardless of age, may fish and hunt upland game birds with a Conservation License issued by the Department during expeditions arranged by a nonprofit organization that uses fishing and hunting as part of rehabilitation.
- Verification of Purple Heart and DD 214 Form required to qualify. Residents only available at FWP offices. Nonresidents only available at FWP Headquarters in Helena.

Other Statewide Permit Requirements

State School Trust Lands: Your Conservation License provides anglers, hunters, and trappers access to legally accessible State School Trust Lands for fishing and hunting. Other recreational activities such as hiking and bird watching still require a conservation license. Additional information regarding the rules, regulations, and restrictions governing these activities is available or contact the DNRC at 406-444-2074.

- Overnight use must not exceed the following limits: two consecutive days on leased land, 16 consecutive days within designated campgrounds or on unleased land.
- Motorized travel is only allowed on public roads or on designated roads.
- No open fires are allowed except in designated campground fire pits.
 Contained mechanical heat sources are allowed.

Aquatic Invertebrates - Crayfish/Mussels: A valid Fishing License is required to harvest crayfish for personal use (see "License/Permit Requirements" for specific license requirements). Crayfish may be taken in traps no larger than 24x12x12 inches. Freshwater mussel harvest or possession is prohibited in the Western and Central Fishing Districts. Mussels may be harvested for personal use in the Eastern Fishing District only. No Fishing License is required to harvest mussels.

Commercial Collection of Aquatic Invertebrates and Mussels: Persons wishing to collect aquatic invertebrates (such as leeches and aquatic insects) for sale or commercial distribution should contact their regional FWP office for information. In accordance with the Administrative Rules of Montana, Section 12.2.501, it is unlawful to take or possess freshwater mussels or their shells for sale or commercial distribution.

Commercial Fishing Licenses

Bait Fish Seining: Commercial Harvest, \$10 Fee

- Contact regional FWP offices for a Bait Fish Seining License and a list of waters open to commercial seining: \$10 fee per year.
- A Bait Fish Seining License is required:
 - For persons 15 years of age or older to seine for or trap and transport bait fish for commercial purposes in Montana;
 - For any person who seines or traps for or has in his/her possession more than 24 dozen non-game bait fish.
- Non-game bait fish (fathead minnow, flathead chub, western silvery minnow, plains minnow, emerald shiner, longnose dace, lake chub, creek chub, longnose sucker, and white sucker) may be harvested commercially and transported in accordance with Administrative Rules of Montana (ARM) Section 12.7.201-12.7.206. See pages 87-88 for live bait fish identification. Live bait fish or leeches may not be imported into Montana for commercial or other purposes unless authorized by FWP. Bait fish may not be exported without FWP authorization. Call 406-452-6181 or go online at fwp.mt.gov for more information.

Commercial Whitefish Fishing: A permit is required to sell whitefish.

- Hook and Line Permits: Whitefish may be taken by hook and line for sale in the following waters-Flathead Lake north of the Flathead Reservation boundary, Flathead River north of Flathead Lake, Fisher River, Kootenai River, and Whitefish Lake.
- Net/Seine Permits: Whitefish may be taken from the Kootenai River and tributaries (within one mile of the Kootenai River). Application required; fee is \$200 plus a \$1,000 bond per year.

Fishing Contests: A permit from FWP is required for most fishing contests. Contact your local FWP office for information and an application or download an application from the FWP website.

Hoop Net Fishing Permit: A permit is required to use hoop nets. Permits are only available in the Eastern Fishing District. Contact FWP offices in Billings, Glasgow or Miles City for information.

Import Permits for Fish: A permit is required to import live fish into Montana. Contact the FWP Fish Health Lab in Great Falls at 406-452-6181 or download an application from the FWP website.

Indian Reservations and Tribal Lands: Certain waters on Indian reservations and tribal lands may have special rules and permits. Specific information should be obtained from Reservation headquarters.

- The State of Montana and Confederated Salish & Kootenai Tribes have entered into a cooperative agreement on the Flathead Reservation. A tribal permit is required to fish on waters within the exterior boundary of the reservation. Call tribal headquarters at 406-675-2700 for information.
- The State of Montana and the Fort Peck Tribes have entered into a cooperative agreement on the Fort Peck Reservation. A tribal permit is required to fish on waters within the exterior boundary of the reservation. Call tribal headquarters at 406-768-5305 for information.
- A State of Montana Fishing License is required to fish on the Bighorn River inside the boundaries of the Crow Reservation. A tribal permit is not required. National Parks: Certain waters within National Parks have special rules. Specific information may be obtained from the park headquarters. For Glacier National Park, call 406-888-7800 and for Yellowstone National Park, call 307-344-7381.

Off-Highway Vehicles (OHVs): Residents - OHVs (ATV, UTV, dirtbike) must be registered and display a current off-highway decal to be used for off-road recreation on public lands (trails, frozen lakes, reservoirs) and a two year \$20 Resident Trail Pass for use on designated roads and trails. To be used on roads (county, state highways, etc.), an OHV must have a license plate and street-legal modifications. Register your OHV with the county Treasurer. **Nonresidents -** OHVs registered in another state must purchase a nonresident permit to operate (anywhere) in Montana. Permits are good for one calendar year, cost \$35 and can be purchased from local vendors (fwp.mt.gov/activities/off-highway-vehicles) or online at ols.fwp.mt.gov. Contact Montana State Parks OHV Program at 406-444-3750 with questions.

Private Fish Ponds - License Requirements, \$10 application fee: A person who owns or lawfully controls a private fish or ornamental pond may obtain a license from FWP to stock the pond with fish. Only lawfully purchased fish may be planted. Contact your local FWP office for more information and an application or download the application from the FWP website. No Fishing License is required to fish on licensed, privately stocked fish ponds. Fishing License requirements apply to all other ponds and/or waters on private land.

Koi and Goldfish Ponds: must be registered with FWP. Registration forms are available online at myfwp.mt.gov/fwpPub/koiPond or from all FWP offices. There is no fee for registering a pond.

Unattended Fishing Devices: Any unattended fishing device (crayfish traps, minnow traps, fish traps, setlines, etc.) must have the angler's name and phone number or an individual identifying number issued by the department attached to it.

Laws and Rules

Beaver Ponds: Beaver ponds on streams are governed by the same regulations that govern the streams.

Boat and Motor Restrictions: A complete, updated, copy of Montana Boating Laws can be obtained from any FWP office or FWP license providers. All passengers under the age of 12 must wear a personal floatation device (PFD) at all times when the boat is in motion if the boat is less than 26 feet long. A wearable, U.S. Coast Guard approved PFD must be available for each occupant of any boat.

Check Stations: Anglers and hunters are required to stop as directed at all designated check stations on the way to and from fishing and hunting areas, even if they have no fish or game to be checked.

Closed Waters: Waters operated as fish hatcheries and rearing ponds by FWP and the U.S. Fish & Wildlife Service shall be closed to fishing at all times. Waters in which FWP operates fish traps and other structures are closed to fishing as posted. Certain water-supply lakes, streams, and hazardous areas are also closed as posted.

Crossbows: Unlawful.

Disposal of Dead Fish and Fish Entrails: When you are in a boat on the water and fishing, it is acceptable to dispose of fish entrails in deep water in the lake, reservoir or river. When you are near or on the shore or bank, it is recommended that you bag all fish remains and dispose of the bag in an appropriate garbage receptacle. Help keep the shoreline clean for others. It is unlawful to discard game fish; however, dead non-game fish may be treated like fish entrails for disposal purposes (puncture the bladder first so the fish will sink).

Family Fishing Waters: Numerous waters across the state provide excellent fishing opportunities for young anglers. A few waters have been set aside exclusively for the use of young anglers. Waters posted as Family Fishing Waters are open to fishing during the entire year to persons 14 years of age and younger only with the exception of Indian Road Pond near Townsend (see District Exceptions). One rod allowed per child. There are 70 Family Fishing Waters in Montana. All Family Fishing Waters are listed under the Fish tab on the FWP website (see Additional Angling Resources). Fishing From Boats/Vessels, Float Fishing and Float Outfitting: Are regulated on some rivers and streams (see District Exceptions for regulated waters). These regulations apply as follows:

- When a water is closed to Fishing From Boats/Vessels, an angler may not fish
 while on any boat or vessel. However, an angler may use a boat or vessel to
 access wade fishing opportunities. The angler must be completely out of the
 boat or vessel while wade fishing.
- When a water is closed to Float Fishing, an angler may not fish from a boat or vessel, and may not wade fish in the river or stream, or from the bank or shoreline of the river or stream, when fishing access is gained by boat or vessel.
- When a water is closed to Float Outfitting, the operation of any boat or vessel for the commercial purpose of float fishing by a fishing outfitter or fishing guide is prohibited.

Fishing Methods: Fish may be taken only by hook and line or other approved methods. Regulations for the taking of fish are listed in the standard regulations for each fishing district (see pages 23, 49 & 74).

Handling and Transporting Legally Taken Fish

While a person is fishing, or while on the water, or on the ice:

- All fish in possession must be visibly identifiable to species.
- All fish in possession must be whole with head, skin, fins, and tail attached.
 Gills and entrails may be removed (see Disposal of Dead Fish and Fish Entrails on page 20).
- This doesn't prohibit the consumption of fish on the ice or water. However, the fish consumed are part of your daily limit.

Once off the water or ice, fish may be dressed and filleted for transport to your permanent residence, unless size limits apply, under the following conditions:

All fish can be counted and identified. Two fillets will be counted as one fish.
 If the catch is frozen prior to transport, each fish or fillet must be packaged
 so it can be counted.

• Salmonids (trout, salmon, arctic grayling, char and whitefish): the entire skin must be attached to the fillet for identification.

Transport of any live fish or crayfish is unlawful in the Western Fishing District. Ice Fishing

Size of Hole

- In waters not open to spearing, the maximum size hole that may be used for ice fishing is 144 square inches or 12 inches in diameter.
- There is no size limit for a hole used for fishing with a spear.

Shelters: It is unlawful to use any ice fishing shelter not conforming to the following rules:

Waste and Rubbish Disposal: Owners and occupants of shelters are required to keep their shelters (and the area immediately around them) free from rubbish and trash. Anglers must remove waste materials before they leave for the day. Removal: Daily removal of shelters is required on some waterbodies. See district exceptions.

Removal After the Season: The owner of an ice fishing shelter shall remove it from the ice before it becomes irretrievable at the end of the season, or within five days from receipt of notification from FWP to remove the shelter.

Irrigation Canals and Ditches: Man-made irrigation canals and ditches are open to fishing year round unless stated otherwise in exceptions to standard regulations. The same daily and possession limits apply to them as for rivers/streams. Anglers need to be aware that the Montana Stream Access Law does not apply to canals and ditches. Under Montana's trespass law, permission to access these waters is implied if the land is not posted, but that implied permission may be revoked at any time. It is best to obtain the explicit permission of the landowner. Where ditches cross land belonging to others, rights of the ditch owner versus those of the landowner vary. Therefore, always obey any sign clearly marking the ditch as closed to public access or fishing.

Methods of Taking Fish

- Spears and bows are counted as lines for purposes of determining line limits.
- When multiple lines are allowed on a body of water, the number of lines shall not exceed the combination of attended lines, setlines, or spears. For example, while spearing for northern pike on Tongue River Reservoir in the winter (where the limit is six lines through the ice), an angler may only have five setlines in use.
- All unattended fishing devices (crayfish traps, minnow traps, fish traps, setlines, etc.) must have the angler's name and phone number or name and an individual identifying number issued by the department attached.

Nets and Traps: Landing nets may be used for landing hooked fish. See Bait Regulations for use of nets to harvest bait fish.

Penalties

Most fish and game violations are misdemeanors that are punishable by a fine not to exceed \$1,000 and imprisonment for not longer than six months. The court may also order the forfeiture of any current hunting, fishing, and trapping licenses and the privilege to hunt, fish and trap, or use state lands for recreational purposes for a period set by the court.

Taking an over limit of fish will result in a fine plus restitution to the state for each fish over the limit. Restitution for bull trout may be up to \$500 per fish and for river arctic grayling, white sturgeon, and paddlefish restitution is \$300 per fish.

Setlines

- Number of lines is the same as for hook and line limits. Setlines may be used in all waters unless prohibited in the District Exceptions to Standard Regulations.
- Setlines (unattended lines) must be checked by the owner at least once every 24 hours.
- The angler's name and phone number or name and an individual identifying number issued by the department must be attached to each setline.
- Setlines shall not be attached to jugs or other floating devices.
- Setlines are not allowed in the Western Fishing District.

Sloughs: Sloughs with surface water connecting to a river at any time during the year fall under the river regulations for that river, unless listed under the exceptions. Sloughs with no surface water connecting to a river at any time during the year fall under standard lake limits unless listed under the exceptions.

Stream Access Law: Under the Montana Stream Access Law, the public may use rivers and streams for recreational purposes up to the ordinary high-water marks. Although the law gives recreationists the right to use rivers and streams for water-related recreation, it does not give them the right to enter private lands bordering those streams or to cross private lands to gain access to streams without landowner permission.

Trespass Law: Montana's trespass law states that a member of the public has the privilege to enter private land only:

- With the explicit permission of the landowner or his/her agent, or
- When the landowner has failed to post a no-trespassing notice or mark legal accesses with 50 square inches of orange.

Use of Attractor: A bead fixed on a line or leader 2 inches or less from the eye of a bare hook is considered an artificial lure. Fishing with a bead **that serves as an attractor** more than 2 inches from the eye of a bare hook or artificial fly is considered snagging and is unlawful.

It is Unlawful and a Misdemeanor:

- To violate any regulations listed in this booklet.
- To introduce any fish or viable fish eggs into any waters without FWP permission.
- To refuse to show one's Fishing License upon demand.
- To refuse to show one's fish upon demand.
- To loan or transfer your Fishing License or tags to any person.
- To sell game fish except as prescribed by F&W Commission regulations.
- To leave or dump any dead animal, fish, garbage or litter in or on any state, federal or private property where public recreation is permitted.
- To stun or kill fish by using any carbide, lime, giant powder, dynamite, or other explosive compounds, or any corrosive or narcotic poison. To possess these substances within 100 feet of any stream where fish are found is unlawful.
- To hire or retain an unlicensed outfitter or guide.

Unlawful Introductions

- Fines of \$2,000 up to \$10,000 and imprisonment for up to one year.
- Liability for all costs to eliminate or mitigate the effects of the violation.
- Loss of hunting, fishing and trapping privileges for at least five years.

Waste of Fish or Game: To purposely waste any part of a game fish suitable for food by transporting, hanging, or storing the carcass or flesh in a manner that renders it unfit for human consumption; or, to abandon or dispose of, in the field or water, the carcass or flesh of any game fish suitable for food; or, to use the carcass or flesh of any game fish as bait except as authorized in the bait regulations.

General Information For Anglers

Landowner Permission: FWP recommends that recreationists obtain landowner permission to cross private land to access a stream. Complete rules are available at any FWP office.

Catch-and-Release Angling: Waters designated catch-and-release for one or more species of fish require that those fish be released alive promptly, with little or no delay. Before you start fishing in these waters, consider the following in order to give the fish you release the best possible chance to survive: 1) Artificial lures are preferred over bait to reduce deep hooking and catch-and-release mortality; 2) Single hooks are preferred over treble or multiple hooks because they are easier and quicker to remove; 3) Barbless hooks are recommended over barbed hooks because they are easier to remove and reduce release time; 4) Heavier gear is preferred over lighter gear because it makes it easier to land fish; and 5) Rubber or neoprene nets are preferable because they are less likely than nylon nets to catch hooks which increases release time.

River Etiquette

• Be aware that boat access areas can be busy places; you may wish to fish in a location that is less congested.

- Do not encroach on another angler's space. Use the "visual rule of crowding" and attempt to keep out of sight of other anglers, if at all possible.
- Try not to monopolize a good fishing spot on the river. Fish for awhile, then
- Boats should always yield to wade anglers, however, there are instances when the wading angler should yield to floaters, such as when there is no other channel for the floaters to navigate.
- When possible, avoid using the streambed as a pathway. This type of foot traffic can cause damage to the fragile aquatic habitat. Anglers should use the shoreline to travel from one point to the other, if doing so does not violate trespass and stream access laws.

Releasing Fish

To ensure a released fish has the best chance for survival:

- Play the fish as rapidly as possible. Do not play it to total exhaustion.
- Keep the fish in water as much as possible when handling and removing the hook.
- Remove the hook gently. Do not squeeze the fish or put your fingers in its gills. There are release devices available from most sporting/fishing stores to assist you, and the use of barbless hooks makes releasing fish easier.
- Set the hook quickly to avoid deep hooking the fish. If the fish is deeply hooked and must be released by regulation, cut the line inside the mouth opening. Do not yank the hook out, as some fish will survive with hooks in them. Anglers should strongly consider keeping fish deeply-hooked in the throat or gills if allowed by regulations on that waterbody.
- Release the fish only after it has gained its equilibrium. If necessary, gently hold the fish upright in the current facing upstream and move it slowly back and forth.
- Release the fish in guiet water close to the area where it was hooked.

Lake/Reservoir fishing from boats:

• Fish caught from deep water may be unable to vent their air bladder and may "bloat." Puncturing the air bladder or "fizzing" is not recommended because it may cause infections. A simple release tool will facilitate releasing the fish in deep water and recompressing it quickly. All you need is a 50-foot cord, a weight, and a hook. Dull the hook, flatten the barb and attach the hook inline just above the weight with knots at the hook eye and bend. The hook should be pointing down toward the weight. Place the hook over the lower jaw of the fish and let the weight drop, pulling the fish down rapidly. A tug on the cord will release the fish.

Federal Wildlife Refuges: Certain waters on Federal Wildlife Refuges may have special rules. Specific information may be obtained from the headquarters of the federal refuge involved.

Measuring Fish: Measure the greatest length from the tip of the nose to the tip of the tail. Place the fish on a flat surface and squeeze the lobes of the tail fin together so as to achieve the greatest length. Do not measure over the curve of the body.

Tagged Fish: It is legal to harvest a radio tagged fish, however, the radio tag must be returned to FWP. If you catch a tagged fish, please report the following information to any Fish, Wildlife & Parks office or online at fwp.mt.gov/fish/report-your-catch

- 1. The tag's number and color:
- 2. The date the fish was caught:
- 3. The species of the fish;
- 4. The fish's length and weight (close as possible);
- 5. Location of the catch (the body of water and distance from nearest
- 6. Whether the fish was kept or released; and
- 7. The name, address, and email address of the angler.

Sport Fish Consumption Guidelines

The Montana Department of Public Health and Human Services (DPHHS) has issued advisories for the consumption of fish from certain Montana waters. Fish from some Montana waters contain levels of chemicals that may be especially harmful to young children, nursing mothers, and childbearing women or persons frequently consuming fish. Information, advice, and additional details about fish consumption is available from the DPHHS, call 406-444-2837. This information is also available in a brochure titled "Montana Sport Fish Consumption Guidelines" which can be obtained at any FWP office and many license providers, or on the FWP website at: fwp.mt.gov/fish

Waters with a fish consumption advisory and an exception to the standard fishing regulations are identified with a fish icon to help you identify places to pay special attention to when harvesting fish.

General Guidelines to Reduce Your Health Risk

- **Keep smaller fish for eating.** They typically taste better and have had less time to accumulate contaminants than older, bigger fish.
- Eat smaller meals when you eat big fish and eat them less often.
- Eat fish that are less likely to be contaminated. Contaminants such as mercury and PCBs build up in large predatory fish such as walleye and lake trout. Their prey, such as yellow perch and rainbow trout, have less contaminants.
- Clean and cook your fish properly. Trim fish to remove fatty portions. Cook fish in a way that drains juices away from the meat.

The following waterbodies contain fish species with consumption advisories. More detailed information is available on the FWP website: fwp.mt.gov/fish

Ackley Lake Alder Gulch Bair Reservoir Basin Creek Belt Creek Big Spring Creek Bighorn Lake and Afterbay Reservoir Blacktail Creek Boulder Creek Boulder River Bowman Lake (Glacier NP) Browns Gulch Bynum Reservoir Cabinet Gorge Reservoir Canyon Ferry Reservoir Carpenter Creek Castlerock Lake Cataract Creek Chrome Lake Clark Canyon Reservoir Clark Fork River Clear Lake Cliff Lake

Western Fishing District

The Western Fishing District includes all waters in Montana west of the Continental Divide.

Columbia River Basin – Inspection Prior to Launch: All watercraft crossing the Continental Divide into the Columbia River Basin are required to be inspected prior to launch.

Western District Exceptions to the Standard Regulations

Flathead Indian Reservation: A tribal permit is required to fish on waters within the boundary of the Reservation. Call tribal headquarters at 406-675-2700 for information.

Transporting Live Fish: An import permit is required to bring live fish into Montana (see page 17). It is unlawful to possess or transport live fish away from the body of water in which the fish were taken except for transportation of fish for valid (approved) commercial purposes or as authorized by FWP.

Methods of Taking Fish

Hook and Line Limits

Open Water

Rivers and Streams

•1 line with 2 hooks per line, with or without a rod. The rod or line must be attended and in the angler's immediate control.

Lakes and Reservoirs

• 2 lines with 2 hooks per line, with or without a rod. Each line must be attended and in the angler's immediate control.

Ice Fishing

Lakes and Reservoirs

• 2 lines with 2 hooks per line on all lakes and reservoirs open to fishing. When a line is used through the ice, the angler need not be in immediate control but must be in the vicinity and in visual contact with the line.

Shelters:

<u>Identification</u>: Attended shelters at Brown's Lake and Georgetown Lake must also be identified.

<u>Daily Removal</u>: Daily removal of shelters is required on: Browns Lake (near Ovando), Echo Lake (near Anaconda) and Georgetown Lake.

Bow and Arrow: All waters are closed to bow-and-arrow taking of game and non-game fish, except as noted under District Exceptions.

Setlines: Setlines (unattended lines) are not allowed in the Western Fishing District.

Snagging: All waters are closed to snagging of game and non-game fish, except as otherwise noted under District Exceptions.

Spearing: All waters are closed to spearing of game and non-game fish except **open for spearing northern pike through the ice or** as otherwise noted under District Exceptions.

Bait Regulations

- No fish species may be used as live bait in the Western Fishing District. Possession of live bait fish or use of live bait fish is prohibited in the Western Fishing District.
- It is unlawful to release live bait of any kind into Montana waters; do not empty any live bait containers at your fishing site.
- Only non-game fish native to the Western Fishing District (large scale Visit fwp.mt.gov/fish 23

sucker, longnose sucker, northern pikeminnow, peamouth chub, redside shiner, longnose dace) may be captured and used as dead bait and may be taken for use as dead bait in the following manner:

- with hook and line; or
- with seines no larger than 12 feet x 4 feet; or
- with minnow traps (the dimensions shall not exceed 24 inches x 12 inches x 12 inches); or
- with cast nets (maximum 6-foot radius) and dip nets (no larger than 3 feet x 3 feet).
- See Commercial Fishing License requirements (page 16) for information on commercial harvest permits.
- All unattended fishing devices (crayfish traps, minnow traps, fish traps, etc.) must have the angler's name and phone number or name and an individual identifying number issued by the department.

Dead Bait

- No trout, salmon, whitefish, or sculpins may be used whole or in parts/ pieces as dead bait.
- The eggs of char, cisco, arctic grayling, salmon or trout may be used as bait.
- Only non-game fish native to the Western Fishing District (large scale sucker, longnose sucker, northern pikeminnow, peamouth chub, redside shiner, longnose dace) may be captured and used as dead bait. All other non-game fish caught or purchased must be preserved by freezing, salting or brining.
- Parts/pieces of bass or yellow perch may be used as bait if edible portions are not wasted.
- No amphibians or reptiles may be captured and used as dead bait.
- Dead crayfish (whole, parts, or pieces) and other invertebrates may be used as bait on all waters not restricted to artificial lures only.

Live Bait

- No fish species may be used as live bait in the Western Fishing District.
 Possession of live bait fish or use of live bait fish is prohibited in the Western Fishing District.
- No amphibians, reptiles, or crayfish may be used as live bait in the Western Fishing District.
- Live animals such as meal worms, red worms, night crawlers, leeches, maggots, and insects may be used as bait on all waters not restricted to artificial lures only.
- Leeches may only be imported into Montana from FWP-approved leech dealers. Anglers who import leeches must have in their possession a bill-of-sale (a receipt) from the approved out-of-state leech dealer when fishing with leeches in Montana. A list of approved out-of-state leech dealers may be obtained from FWP by calling 406-452-6181.

Western District Standard Daily and Possession Limits

Each angler may take all of the limits listed in the chart, unless otherwise noted in the Western District Exceptions. For species not listed, there are no limits on the number of fish that may be taken or possessed. Check for exceptions to the standard regulations in the following pages.

Anglers who move from one fishing water to another may possess the limit of fish allowed only for the water on which they are currently fishing.

	Species	Daily and Possession Limits		
	Brook Trout	20 daily and in possession.		
т	Bull Trout	All waters are closed to angling for bull trout and all fish must be released promptly, with little or no delay unless otherwise authorized in the Western District Exceptions. See bull trout on page 15. Note: Federal rules prohibit the attempted take of bull trout unless specifically authorized by state or tribal regulation.		
R O U T	Combined Trout includes brown trout, rainbow trout, golden trout, and arctic grayling	Lakes/Reservoirs: 5 daily and 10 in possession, only 1 over 22 inches daily and in possession. Rivers/Streams: 5 daily and in possession, only 1 over 14 inches.		
	Cutthroat Trout (see page 89 for ID key)	Lakes/Reservoirs: 3 daily and in possession, no size limit. Rivers/Streams: 3 daily and in possession, none over 12 inches.		
	Lake Trout	20 daily and 40 in possession.		
Largemouth Bass		5 daily and in possession, only 1 greater than 12 inches. Third Saturday in May through June 30: 1 daily and in possession, must be over 22 inches.		
Sm	allmouth Bass	15 daily and in possession, no size limit all year.		
Bu	rbot (Ling)	2 daily and in possession.		
Cra	appie	No limit.		
Ko	kanee Salmon	20 daily and 40 in possession.		
Northern Pike		15 daily and in possession. All waters open for spearing through the ice or as otherwise noted in District Exceptions.		
Sturgeon		0 - All waters are closed to angling for sturgeon. Captured sturgeon must be released immediately.		
Whitefish		20 daily and 40 in possession.		
Walleye		All walleye caught must be killed immediately, kept and the entire fish <i>presented to</i> FWP. Anglers who catch walleye in the Western Fishing District are required to report the catch to FWP within 24 hours (406-752-5501). Anglers will be asked to provide location, date, and time of capture and may be asked to provide their full name, ALS number, and phone number. Anglers are required to <i>present</i> the whole Walleye to a FWP office within 10 days of capture (frozen is allowed) during regular business hours. <i>Edible portions of the fish are returned to the angler upon request.</i> Does not include Clark Fork Reservoirs downstream of Thompson Falls		
		Dam, see Exceptions for the Clark Fork River (page 31).		

Western District Exceptions To Standard Regulations

Check the following list of waters for the body of water you intend to fish in the Western District. If the body of water is not found in the listing of Exceptions, all of the Western District standard seasons, daily/possession limits, and standard regulations apply. Standard regulations apply for species not listed in the Exceptions.

Waterbody/Section Exceptions to Standard Regulations

ALICE CREEK (tributary to Blackfoot River) -----

- · Catch-and-release for cutthroat trout.
- Combined trout: 3 daily and in possession, only 1 rainbow trout over 14 inches, any size brown trout.

ANACONDA SETTLING POND SYSTEM -----

• See Warm Springs Wildlife Management Area.

ASHLEY LAKE -----

Entire lake

• Salmon: 35 daily and 70 in possession.

Inlet tributaries

Closed entire year.

BEAR CREEK (tributary to Middle Fork Flathead River) -----

 Angling is closed within 150-yard radius of the stream mouth June 1 through Sept. 30.

BEAVER CREEK (tributary to Blackfoot River) -----

- · Catch-and-release for cutthroat trout.
- Combined trout: 3 daily and in possession, only 1 rainbow trout over 14 inches, any size brown trout.

BELMONT CREEK (tributary to Blackfoot River) -----

- Catch-and-release for cutthroat trout.
- Combined trout: 3 daily and in possession, only 1 rainbow trout over 14 inches, any size brown trout.
- Artificial lures only within 100-yard radius of mouth.

BIG CREEK AND TRIBUTARIES (tributary to North Fork Flathead River) --

Closed entire year.

BITTERROOT LAKE (see Little Bitterroot Lake) -----BITTERROOT RIVER (note: river flows south to north) (Als)------

- Artificial lures, maggots and/or aquatic insects only. All other live/dead bait prohibited.

West Fork Bitterroot River downstream from Painted Rocks Dam. During General Season (third Saturday in May through Nov. 30).

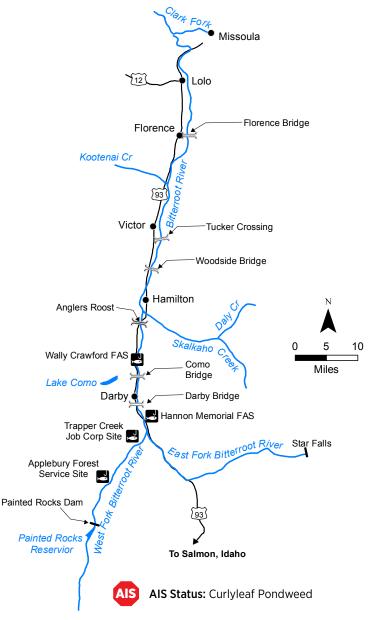

- Catch-and-release for cutthroat trout and rainbow trout.
- Brown trout: 3 daily and in possession.

East Fork Bitterroot River downstream from Star Falls. During General Season (third Saturday in May through Nov. 30).

- Catch-and-release for cutthroat trout and rainbow trout.
- Brown trout: 3 daily and in possession.

the Standard Daily & Possession Limits on p 25 If you don't find the water you are looking for, use

Bitterroot River

Note: The Bitterroot River flows from south to north; downstream is to the north.

Bitterroot River from confluence of East and West Forks to the north boundary of the Woodside Bridge FAS. During General Season (third Saturday in May through Nov. 30).

- · Catch-and-release for cutthroat trout.
- Combined trout: 3 rainbow or brown trout daily and in possession, only 1 over 14 inches.

North Boundary of Woodside Bridge FAS to Florence Bridge. During General Season (third Saturday in May through Nov. 30).

- · Catch-and-release for all trout.
- Artificial lures only.
- · Live/dead bait prohibited.

Florence Bridge to mouth of Bitterroot River. During General Season (third Saturday in May through Nov. 30).

- Catch-and-release for cutthroat trout.
- Combined trout: 3 rainbow or brown trout daily and in possession, only 1 over 14 inches.

Florence Bridge to mouth of Bitterroot River (Entire Year)

• Smallmouth Bass: All Smallmouth Bass caught must be killed immediately, kept and the entire fish turned into FWP. Anglers who catch Smallmouth Bass in the lower Bitterroot River are required to report the catch to FWP within 24 hours (406-542-5500). Anglers will be asked to provide location, date, and time of capture and may be asked to provide their full name, ALS number, and phone number. Anglers are required to turn in the whole Smallmouth Bass to a FWP office within 10 days of capture (frozen is allowed) during regular business hours

Ditches, canals and sloughs between US 93 and east side highway, and between Hamilton and the Florence Bridge

• Regulations are the same as the adjacent river section.

Recreation Rules (see fwp.mt.gov/recreation/permits/floating)

West Fork Bitterroot River and upper Bitterroot River

No commercial floating or fishing June 1 to Sept. 15 from:

- Painted Rocks Dam to Applebury Forest Service Site on Fridays.
- Applebury Forest Service Site to Trapper Creek Job Corps site on Saturdays.
- Trapper Creek Job Corps Site on to Hannon Memorial FAS on Sundays.
- Hannon Memorial FAS to Wally Crawford FAS on Mondays.

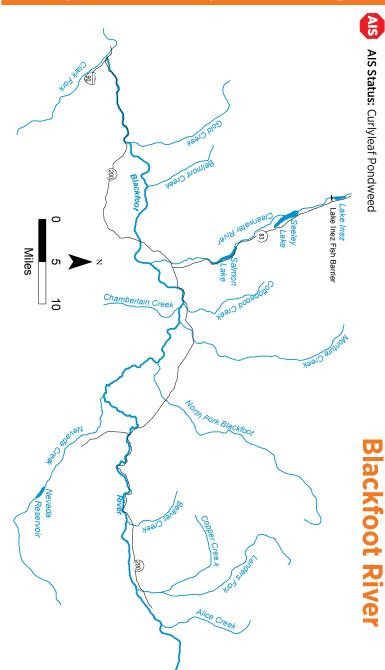

No floating of any kind July 1 to Sept. 15 from:

Painted Rocks Dam to Applebury Forest Service Site on Fridays.

BLACKFOOT RIVER AND TRIBUTARIES (AIS) -

Mainstem and all tributaries except the Clearwater River. During the General Season (third Saturday in May through Nov. 30)

- · Catch-and-release for cutthroat trout.
- Combined trout: 3 daily and in possession, only 1 rainbow trout over 14 inches long, any size brown trout. (See Clearwater River Drainage for exception.)
- Artificial lures only within 100-yard radius of the mouths of Belmont Creek, Copper Creek, Gold Creek, Monture Creek and North Fork Blackfoot River.

If you don't find the water you are looking for, use the Standard Daily & Possession Limits on p 25.

Standard Daily & Possession Limits on p 25.

Waterbody/Section

Exceptions to Standard Regulations

Mainstem only during the Extended Season (Dec. 1 to the third Saturday in May)

- Extended season for mountain whitefish and catch-and-release for trout open Dec. 1 to third Saturday in May. Tributaries are closed to fishing during the extended season.
- Artificial lures and/or maggots only.
- All other live/dead bait prohibited.

Mainstem from Landers Fork mouth downstream to the confluence with the Clark Fork River

 Catch-and-release for brook trout. (This regulation is a result of bull trout being misidentified and harvested as brook trout. Brook trout are very rare in this section of river whereas bull trout are common.)

BLANCHARD LAKE (near Whitefish) (AIS) ------

• Largemouth Bass: 1 daily and in possession, must be over 22 inches.

BOOTJACK LAKE (near Whitefish) -----

- Combined trout: 1 daily and in possession, 22 inch minimum.
- Artificial lures only.

BUFFALOHEAD POND -

 Catch-and-release for trout, except anglers 14 years of age or younger may take 5 trout daily, 10 in possession.

BULL LAKE (near Trov)-----

Northern pike: no limit.

CABINET GORGE RESERVOIR (AIS) ------• (See Clark Fork River Mouth of Thompson River to Idaho Border)

CEDAR CREEK (tributary to Clark Fork River) ------

Artificial lures only, including within a 100-vard radius of the mouth.

CHAMBERLAIN CREEK (tributary to Blackfoot River) ------

· Catch-and-release for cutthroat trout.

 Combined trout: 3 daily and in possession, only 1 rainbow trout over 14 inches, any size brown trout.

CIBID LAKE ----

• Combined trout: 4 under 12 inches and only 1 over 22 inches daily and in possession.

CLARK FORK RIVER

Upstream from Perkins Lane Bridge, near Warm Springs

- Open entire year.
- Catch-and-release only.
- Artificial lures only.
- Closed to fishing from boats/vessels.

Perkins Lane Bridge, near Warm Springs, to mouth of the Flathead River

During the General Season (third Saturday in May through Nov. 30):

- Catch-and-release for cutthroat trout.
- Northern pike: no limit.
- Combined trout: 3 daily and in possession, only 1 over 14 inches long.
- Artificial lures only within a 100-yard radius of the mouths of Rattlesnake Creek, Petty Creek, Fish Creek, Čedar Creek, Dry Creek, Trout Creek and St. Regis River.

During the Extended Season (Dec. 1 to the third Saturday in May):

- Extended season for northern pike and whitefish and catch-and-release for trout open Dec. 1 to third Saturday in May.
 • Artificial lures and/or maggets only.
- All other live/dead bait prohibited.

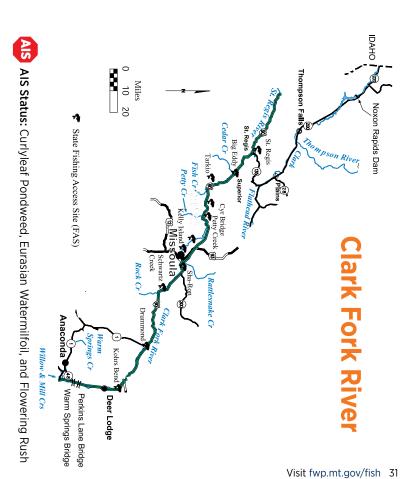

If you don't find the water you are looking for, use the Standard Daily & Possession Limits on p 25.

- Open April 1 through Oct. 30.
- Combined trout, including cutthroat trout: 1 fish daily and in possession.

SKALKAHO CREEK (tributary to Bitterroot River) -----

• Catch-and-release for cutthroat trout, includes Daly Creek.

SKYLINE POND (in Butte) -----

• Open to fishing for anglers 14 years of age or younger. One rod per child. 1 trout daily and in possession.

SMITH LAKE (near Kalispell) (AIS) -----

- Yellow perch: no limit, only 10 daily over 10 inches. No possession limit.
- Northern pike: no limit.

If you don't find the water you are looking for, use

If you don't find the water you are looking for, use

Standard Daily & Possession Limits on p 25.

SOUTH FORK FLATHEAD RIVER ---

South Fork Flathead River and tributaries, including headwaters to confluence with Flathead River (does not include Hungry Horse Reservoir)

 Single-pointed hooks only. No treble or double hooks. Anglers may remove treble or double hooks from the lure and replace them with a single hook, or the shanks may be cut off the other hook points to leave a single hook. Lures with multiple hook attachments may still be used but any treble hook must be replaced by a single hook.

South Fork Flathead River upstream from Hungry Horse Reservoir (from Crossover Boat Ramp south and upstream to the confluence of Youngs and Danaher creeks)

• Bull trout: catch-and-release from the third Saturday in May through July 31. A Hungry Horse/South Fork Flathead bull trout Catch Card must be in possession when fishing for bull trout. See bull trout under obtain a license for application information. All bull trout must be released promptly, with little or no delay. It is unlawful to possess a live bull trout for any reason. Angling for bull trout is not allowed in South Fork Flathead River tributaries or Big Salmon Lake.

Meadow Creek Bridge to Spotted Bear foot bridge and tributaries

- Catch-and-release for cutthroat trout.
- Artificial lures only.

Hungry Horse Dam downstream to mouth and tributaries

- Catch-and-release for cutthroat trout.
- Rainbow trout: 5 daily and in possession.
- Extended season open Dec. 1 to third Saturday in May with artificial lures and/or maggots only.

SQUEEZER CREEK (tributary to Swan River) -

Closed entire vear.

ST REGIS COMMUNITY PARK POND ----

- Open to fishing for anglers 14 years of age or younger; one rod per child.
- Combined trout, including cutthroat trout: 1 fish daily and in possession.

- · Catch-and-release for cutthroat trout.
- Combined trout: 3 daily and in possession, only 1 rainbow trout over 14 inches, any size brown trout.
- Artificial lures only within 100-yard radius of the mouth.

STILLWATER RIVER AND TRIBUTARIES (Flathead River drainage) -

 Open entire year from mouth of Sunday Creek to confluence with Flathead River.

STORM LAKE CREEK (tributary to Silver Lake near Anaconda) ---

 Closed to fishing July 1 through Sept. 30 from the Silver Lake diversion structure located near the stream mouth down to where the stream enters Silver Lake.

STUART MILL CREEK (tributary to Georgetown Lake) --

- Open July 1 through Nov. 30.
- Catch-and-release for brook trout.
- Combined trout: 5 daily and in possession.

SWAN RIVER -

- No intentional fishing for bull trout.
- Catch-and-release for cutthroat trout.
- Closed to angling June 1 through Sept. 30 within a 300-yard radius of the Woodward Creek and Lion Creek stream mouths, unless posted at a greater distance.

Piper Creek Bridge downstream to Swan Lake

Artificial lures only.

Swan Lake outlet downstream to the Highway 35 Bridge

Open entire vear.

TALLY LAKE ---

Lake trout: 1 daily and in possession, must be over 42 inches.

THOMPSON FALLS RESERVOIR (AIS) -----

• (See Clark Fork River Mouth of Thompson River to Idaho Border)

THOMPSON PARK POND (AIS) -----

 Catch-and-release for trout, except anglers 14 years of age or younger may take 1 trout daily and in possession; one rod per angler.

THOMPSON RIVER --

Entire river

- Open to fishing entire year.
- Catch-and-release for cutthroat trout and rainbow trout.
- Brown trout: 3 daily and in possession, any size.
- Artificial lures only, except anglers 14 years of age or younger may use bait.

TOBACCO RIVER ----

- Snagging: open for kokanee salmon Sept. 15 through Nov. 30.
- Kokanee salmon: 20 daily and 40 in possession.

TRAIL CREEK AND TRIBUTARIES (Yakinikak, N. Fork Flathead River drainage)

Closed entire year downstream from mouth of Thoma Creek.

TROUT CREEK (tributary to Clark Fork River) -----

• Artifical lures only within 100-yard radius of the mouth.

TROY POND -----

 Catch-and-release for trout, except anglers 14 years of age or younger may take 1 trout daily and in possession.

UPPER THOMPSON LAKE -----

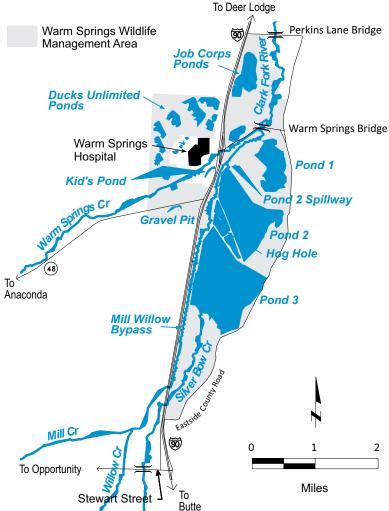

Kokanee salmon: 10 daily and 20 in possession.

UPSATA LAKE (AIS)-----

- · Catch-and-release for bass.
- Northern pike: no limit.
- Spearing: open for northern pike.

you don't find the water you are looking for, use Standard Daily & Possession Limits on p

Warm Springs WMA

Myers Dam to Warm Springs Wildlife Management Area (WMA)

- Open from the third Saturday in May through Nov. 30 except for the section from Myers Dam downstream 50 yards which is closed to fishing July 1 through Sept. 30.
- Extended season: catch-and-release for trout Dec. 1 to third Saturday in May with artificial lures only.

Warm Springs Wildlife Management Area (WMA)

 Open entire vear on Warm Springs Wildlife Management Area (WMA). (See Warm Springs WMA for additional regulations.)

WARM SPRINGS WILDLIFE MANAGEMENT AREA (WMA)

All waters

- All ponds and canals open Aug. 15 through Sept. 30 including Job Corps Ponds and Ducks Unlimited Ponds.
- Catch-and-release only. (See Kid's Pond and Gravel Pit Pond for exceptions.)
- Artificial lures only. (See Kid's Pond and Gravel Pit Pond for exceptions.)
- Motorized boats/vessels prohibited.

Job Corps Ponds (Deer Lodge County)

- Open Aug. 15 through Sept. 30.
- Catch-and-release only.
- Artificial lures only.
- Motorized boats/vessels prohibited.

Kids Pond at WSWMA Headquarters

- Open entire year.
- Combined trout: 2 daily and in possession.
- Bait may be used.
- Open to fishing by anglers 14 years of age or younger only. One rod per child.

Gravel Pit Pond adjacent to Highway 48

- Open second Friday in June at 5 p.m. through Nov. 30.
- Combined trout: 2 daily and in possession.
- Bait may be used.

Hog Hole

Open May 25 through Sept. 30. No trespassing on islands.

Pond 3

Open May 25 through Nov. 30 to fishing from non-motorized vessels.

Mill-Willow Bypass, Warm Springs Creek and Clark Fork River

- Open entire year.
- Closed to fishing from boats/vessels.

If you don't find the water you are looking for, use the Standard Daily & Possession Limits on p 25.

If you don't find the water you are looking for, use the Standard Daily & Possession Limits on p 25.

Exceptions to Standard Regulations

WEST FORK BITTERROOT RIVER DOWNSTREAM OF PAINTED ROCKS DAM

Fishing Regulations

- Catch-and-release for cutthroat trout and rainbow trout.
- Brown trout: 3 daily and in possession.
- Extended season for northern pike and whitefish and catch-andrelease for trout from Dec. 1 to third Saturday in May with aquatic insects, maggots and/or artificial lures only.

Recreation Rules (see fwp.mt.gov/recreation/permits/floating/ and signs on site for more information)

West Fork Bitterroot River and Upper Bitterroot River (see map page 27)

No commercial floating or fishing June 1 to Sept. 15 from:

- Painted Rocks Dam to Applebury Forest Service Site on Fridays.
- Applebury Forest Service Site to Trapper Creek Job Corps Site on Saturdays.
- Trapper Creek Job Corps Site on to Hannon Memorial FAS on Sundays.
- Hannon Memorial FAS to Wally Crawford FAS on Mondays.

No floating of any kind July 1 to Sept. 15 from:

Painted Rocks Dam to Applebury Forest Service Site on Fridays.

WEST FORK CLEARWATER RIVER AND TRIBUTARIES --

Entire drainage

· Artificial lures only.

West Fork Clearwater River upstream of confluence with Marshall Creek

· Closed entire year.

WEST FORK THOMPSON RIVER AND TRIBUTARIES -----

- Combined trout: 3 daily and in possession, none over 10 inches.
- Artificial lures only.

WHALE CREEK AND TRIBUTARIES (North Fork Flathead River drainage) -

• Closed entire year downstream from Whale Creek Falls.

WHITEFISH LAKE

Lake trout: 20 daily and in possession, only 1 over 36 inches. All fish 30 to 36 inches must be released.

WHITEFISH RIVER -

 Open entire year from Whitefish Lake to confluence with Stillwater River.

WILLOW CREEK (near Warm Springs) (AIS) ------

From Stewart Street Bridge to the Warm Springs WMA

- Catch-and-release only.
- Artificial lures only.

WOODWARD CREEK --

Closed entire year.

Central Fishing District

The Central Fishing District includes all waters in Montana east of the Continental Divide, (including the Belly and St Mary's River drainages) and west of the following described boundary: Interstate 15 from the Montana-Canada border south to its junction with Hwy 2 at Shelby, then east on Hwy 2 to Chester, then south on Hwy 223 to State Route 80 at Fort Benton, then southeasterly along State Route 80 to its junction with State Route 81, then easterly on State Route 81 to its junction with U.S. Hwy 191, then northeasterly along U.S. Hwy 191 to its junction with State Route 19, then south on State Route 19 to its junction with U.S. Hwy 87 at Grassrange, then south on U.S. Hwy 87 to its junction with U.S. Hwy 12 at Roundup, then west on U.S. Hwy 12 to its junction with Interstate 90 at Billings, then easterly and southerly on Interstate 90 to the first crossing of the Little Bighorn River, then southerly along the west bank of the Little Bighorn River to the Montana-Wyoming border.

Note: Roadways that are used as boundaries between the Central and Eastern Fishing Districts are interpreted to be in the Central Fishing District.

Central District Exceptions to the Standard Regulations

Transporting Live Fish: An import permit is required to bring live fish of any kind into Montana (see page 17). It is unlawful to possess or transport any live fish away from the body of water in which the fish were taken with the following exceptions:

- Possession and transport of live fish for authorized commercial purposes (e.g. Commercial Bait Seining Permit, Commercial Fish Ponds, Commercial Fishing, permitted Fishing Contests);
- 2) Use of live bait subject to restrictions for the taking, possession, transport and use of live bait (see "Bait Regulations" on page 50);
- 3) It is unlawful to possess or transport live fish, other than live non-game bait fish, on roadways that form the boundary between the Eastern and Central fishing districts.

Methods of Taking Fish

Hook and Line Limits

Open Water

Rivers and Streams

•1 line with 2 hooks per line, with or without a rod. The rod or line must be attended and in the angler's immediate control.

Lakes and Reservoirs

 2 lines with 2 hooks per line. All lines must be attended and in the angler's immediate control.

Ice Fishina

Lakes and Reservoirs

• 2 lines with 2 hooks per line through the ice on lakes, reservoirs, or ponds open to fishing. When a line is used through the ice, the angler need not be in immediate control, but must be in the vicinity and in visual contact with the line.

Shelters:

<u>Daily Removal</u>: Daily removal of shelters is required on Fitzpatrick Lake, Deadmans Basin and Helena Valley Regulating Reservoir.

Bow and Arrow: Waters open to angling are open to taking non-game fish with bow and arrow unless otherwise noted in the exceptions to the standard regulations

Snagging: Snagging of fish is allowed only on waters specified in District Exceptions.

Submerged Spearing: In all waters open to fishing, non-game fish may be taken with rubber or **pneumatic**-propelled spears by persons swimming or submerged. Game fish species may be taken with rubber or **pneumatic**-propelled spears by persons swimming or submerged but only from designated waters.

ICE Spearing: Spearing may be used through the ice for designated species in designated waters.

Bait Regulations

- Live fish may not be used as bait in the Central Fishing District unless the waterbody is listed under the "Live Bait" section below.
- Game fish, including yellow perch, may not be used as bait except as authorized below under "Dead Bait". See "Game Fish" in definitions (page 5) for complete list of game species.
- It is unlawful to release live bait of any kind into Montana waters; do not empty any live bait containers at your fishing site.
- Collection methods: Non-game fish may be taken for use as live bait in the following manner:
 - with hook and line; or
 - with seines no larger than 12 feet x 4 feet; or
 - with minnow traps (the dimensions shall not exceed 24 inches x 12 inches x 12 inches); or
 - with cast nets (maximum 6-foot radius) and dip nets (no larger than 3 feet x 3 feet).
- See "Dead Bait" and "Live Bait" sections below for details on possession and use of non-game bait fish.
- Collection Locations: Non-game fish for use as live bait may be taken from waters where live fish may be used as bait (see water list under "Live Bait"). Non-game fish may be collected from water open to angling in the Central District but must be killed upon collection and may not be used as live bait.
- On waters in the Central Fishing District that do not allow the use of live bait fish, possession of live bait fish is prohibited, except for commercial bait seiners when using a commercial bait seining permit while collecting fish on approved commercial bait seining waters.
- On waters within the Central Fishing District that do not allow the use of live bait and are not restricted to artificial flies and lures, sculpins may be collected and used as dead bait. Collection screens or nets may not exceed four (4) feet in length on any side. Sculpins must be killed immediately upon collection and may not be used as live bait. [Note: sculpins may not be used for bait in the Western Fishing District.]
- All unattended fishing devices (crayfish traps, minnow traps, fish traps, setlines, etc.) must have the angler's name and phone number or name and individual identifying number issued by the department attached.
- Areas within the Central Fishing District that have been identified as contaminated with Eurasian watermilfoil have additional bait restrictions as described below.

Dead Bait

- Non-game fish (see "Collection methods" above) that are freshly killed or have been preserved by freezing, salting or pickling may be used as bait on all waters not restricted to artificial lures only. Heads and entrails of non-game fish may also be used as bait.
- Whole game fish may not be used as bait. Parts/pieces of bass, burbot (ling), channel catfish, crappie, northern pike, paddlefish, sauger, shovelnose sturgeon, walleye, or yellow perch may be used as bait if edible portions are not wasted.
- The eggs of Salmonids (char, cisco, arctic grayling, salmon or trout) may be used as bait. Other parts/pieces of Salmonids may not be used as bait.
- Live fish may not be used as bait in the Central Fishing District unless the waterbody is listed under the "Live Bait" section below.
- Live bait fish may not be imported into Montana, except by permit for use in Bighorn Lake and Afterbay Reservoir.
- Bait fish collected in the Bighorn River drainage of Wyoming may be

imported under a permit issued by FWP for use only in Bighorn Lake. For a permit, contact the FWP Fisheries Division at 2300 Lake Elmo Drive. Billings, MT 59105 or call (406) 247-2940.

 Live animals such as meal worms, red worms, night crawlers, leeches. maggots, crayfish, reptiles, amphibians and insects may be used as bait on all waters not restricted to artificial lures only. Transport of invasive species is unlawful.

• Leeches may only be imported into Montana from FWP-approved leech dealers. Anglers who import leeches must have in their possession a billof-sale (a receipt) from the approved out-of-state leech dealer when fishing with leeches in Montana. A list of approved out-of-state leech

dealers may be obtained from FWP by calling 406-452-6181.

- Non-game fish species that may be collected and possessed and used as live bait in the Central Fishing District include only the following: fathead minnow, flathead chub, western silvery minnow, plains minnow, emerald shiner, longnose dace, lake chub, creek chub, longnose sucker, and white sucker. All other non-game fish species (not listed above) must be released immediately at the collection site or killed prior to transporting away from the collection site (see "Dead Bait" page 50). See pages 87-88 for live bait fish identification. Be proactive, bait fish that cannot be positively identified should not be used as live bait.
- The non-game fish species listed above may be used as live fish bait only in the following waters:

Bighorn Lake and Afterbay Reservoir

- Bighorn River—Afterbay Dam to the cable 600 feet downstream, and downstream from the Bighorn FAS
- Clarks Fork Yellowstone River and tributaries, except the Rock Creek drainage—downstream from the bridge at Bridger
- Marias River and tributaries downstream from I-15

Missouri River downstream from Morony Dam

- Muddy Creek Drainage near Vaughn, including all streams and drainage canals
- Teton River and tributaries downstream from I-15

Tiber Reservoir (Lake Elwell), Toole and Liberty counties

Yellowstone River and all streams and ditches in the drainage downstream from the mouth of the Clarks Fork (except the section of the Bighorn River between the cable 600 feet downstream from Afterbay Dam and the Bighorn FAS).

Bait restrictions in Eurasian watermilfoil contaminated areas

Eurasian watermilfoil is an invasive aquatic plant that has become established in some Montana waters. This plant is easily spread from one body of water to another primarily by people transporting plant fragments. Anglers shall inspect all bait buckets, live wells, anchors and gear to ensure that NO PLANT FRAGMENTS are present when leaving a body of water. It takes only a small fragment of Eurasian watermilfoil to start a new plant and infest a body of water.

Areas within the Central Fishing District that have been identified as contaminated with Eurasian watermilfoil are:

- Jefferson River
- Lower Madison River north of I-90
- Missouri River from the confluence of the three forks to the headwaters of Canyon Ferry Reservoir
- Nilan Reservoir
- Toston Reservoir (small Missouri River impoundment above Toston Dam) Additional bait restrictions within the contaminated areas are:
 - The collection of bait animals, including commercial seining is not permitted.
 - Transport of live aquatic bait animals to and from these contaminated areas is allowed only in clean water (e.g. transport minnows and leeches in well water).

Central District Standard Daily and Possession Limits

Each angler may take all of the limits listed in the chart, unless otherwise noted in the Central District Exceptions. For species not listed, there are no limits on the number of fish that may be taken or possessed.

Anglers who move from one fishing water to another may possess the limit of fish allowed only for the water on which they are currently fishing.

Species		Daily and Possession Limits
T R O U T	Brook Trout	20 daily and in possession.
	Combined Trout includes brown trout, rainbow trout, golden trout, cutthroat trout, and arctic grayling	Lakes/Reservoirs: 5 daily and 10 in possession, includes cutthroat trout.
		Rivers/Streams: 5 daily and in possession, only 1 over 18 inches, only 1 can be a cutthroat trout. All arctic grayling must be released immediately.
	Lake Trout	3 daily and in possession.
Bass		5 daily and in possession.
Burbot (Ling)		5 daily and in possession.
Channel Catfish		10 daily and in possession.
Crappie		15 daily and 30 in possession.
Northern Pike		10 daily and in possession.
Pallid Sturgeon		None - this is an endangered species and all fish must be released immediately. All waters are closed to fishing for pallid sturgeon.
Salmon (Kokanee & Chinook)		10 daily and in possession.
Sauger/Walleye		5 daily, only 2 may be sauger. Possession limit is 10, only 4 may be sauger.
Shovelnose Sturgeon		5 daily and in possession, none over 40 inches.
Tiger Muskie		1 daily and in possession, must be over 40 inches.
Whitefish		20 daily and 40 in possession.

If you see this icon, turn to page 22 for information on Sport Fish Consumption Guidelines.

Central District Exceptions To Standard Regulations

Check the following list of waters for the body of water you intend to fish in the Central District. If the body of water is not found in the listing of Exceptions, all of the Central District standard seasons, daily/possession limits, and standard regulations apply. Standard regulations apply for species not listed in the Exceptions.

Waterbody/Section **Exceptions to Standard Regulations**

ABSAROKA-BEARTOOTH WILDERNESS LAKES -

Combined trout: 10 daily and in possession.

ANTELOPE BUTTE LAKE aka Ostle Reservoir (Teton County) -

Open May 15 at 12:00 noon through Nov. 30.

ARMSTRONG SPRING CREEK -

- Catch-and-release only.
- Artificial lures only.

AROD LAKES aka Eyraud Lakes

- Hook and Line/Setlines: 6 lines with 2 hooks per line through the ice only.
- Spearing: open for northern pike and non-game fish through the ice only.

AXOLOTL LAKES

Catch-and-release for arctic grayling.

BADGER CREEK DRAINAGE (near Heart Butte)

Downstream from confluence of North Badger and South Badger creeks within National Forest

• Combined trout: 3 daily and in possession, none over 12 inches.

BEAVER CREEK (tributary to Canyon Ferry Reservoir)

Mouth to US Highway 12

Open June 15 through Sept. 30.

BEAVER CREEK (tributary to Missouri River below Hauser Dam) -

Open June 15 through Sept. 30.

BEAVERHEAD RIVER (AIS) -

Entire river

- Rainbow trout: Catch-and-release only.
- Brown trout: 5 fish daily and in possession. All fish must be less than 18"; except for Clark Canyon Dam to High Bridge FAS and Barretts Diversion to the mouth, see special regulations below.

Clark Canvon Dam to Pipe Organ Bridge

Open third Saturday in May through Sept. 30.

Clark Canvon Dam to High Bridge FAS

- Catch-and-release for brown trout.
- Artificial lures and single-pointed hooks only. Anglers may remove treble or double hooks from the lure and replace them with a single hook, or the shanks may be cut off the other hook points to leave a single hook. Lures with multiple hook attachments may still be used but any treble hook must be replaced by a single hook.

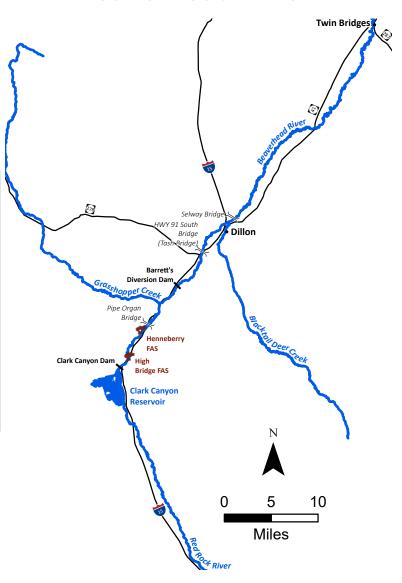

High Bridge FAS to Henneberry FAS

• Closed to float fishing by nonresidents and float outfitting on each Saturday from the third Saturday in May through Labor Day.

Henneberry FAS to Pipe Organ Bridge

 Closed to float fishing by nonresidents and float outfitting on each Sunday from the third Sunday in May through Labor Day.

Beaverhead River

AIS AIS Status: New Zealand Mudsnail and Curlyleaf Pondweed

Exceptions to Standard Regulations

Barretts Diversion to the Mouth

- Open April 1 through Sept. 30.
- Brown trout: Catch-and-release only.

Highway 91 South Bridge (Tash Bridge) to Selway Bridge

 Closed to float outfitting from the third Saturday in May through Labor Dav.

BIG HOLF RIVER -

Fishing Regulations

Entire river

Catch-and-release for arctic grayling.

Headwaters to Dickie Bridge

Combined trout: 5 daily and in possession, no size restriction.

Dickie Bridge to Brownes Bridge FAS

- Open April 1 through Sept. 30.
- Catch-and-release only.
- Artificial lures only.

Brownes Bridge FAS to the Mouth

- Open April 1 through Sept. 30.
- Catch-and-release only.

Recreation Rules

Entire river

 All float users are limited to a total of 2 launches at or near each official access site each day. See Big Hole River map for official access sites

Headwaters to Mudd Creek FAS

 Closed to float outfitting from the third Saturday in May through Labor Day.

Mudd Creek FAS to Fishtrap FAS

 Closed to float outfitting on each Tuesday from the third Saturday in May through Labor Day.

Fishtrap FAS to East Bank BLM FAS

 Closed to float outfitting on each Thursday from the third Saturday in May through Labor Day.

East Bank BLM FAS to Jerry Creek FAS

 Closed to float outfitting on each Wednesday from the third Saturday in May through Labor Day.

Jerry Creek BLM FAS to Divide FAS

 Closed to float fishing by nonresidents and float outfitting on each Saturday from the third Saturday in May through Labor Day.

Divide Bridge to Melrose Bridge (Salmon Fly FAS)

 Closed to float fishing by nonresidents and float outfitting on each Sunday from the third Saturday in May through Labor Day.

Melrose Bridge (Salmon Fly FAS) to Glen FAS (bridges)

 Closed to float outfitting on each Monday from the third Saturday in May through Labor Day.

Glen FAS (bridge) to Tony Schoonen FAS (Notch Bottom)

 Closed to float outfitting on each Friday from the third Saturday in May through Labor Day.

BIG SHEEP CREEK (Beaverhead River drainage) (AIS)-

• Combined trout: all may be cutthroat trout.

BIGHORN LAKE

- Bass: 10 daily and 20 in possession.
- Shovelnose sturgeon: 2 daily and in possession.
- Sauger/walleye: 6 daily (only 3 may be sauger) and 12 in possession (only 3 may be sauger).
- Channel catfish: 6 daily and in possession.
- Burbot (ling): 3 daily and in possession.
- Hook and Line: 2 lines with 2 hooks per line on open water and 6 lines with 1 hook per line through the ice.
- Anglers obtaining live bait fish in Montana may use them only in the Montana portion of the lake.

BIGHORN RIVER (AIS) -

Entire river

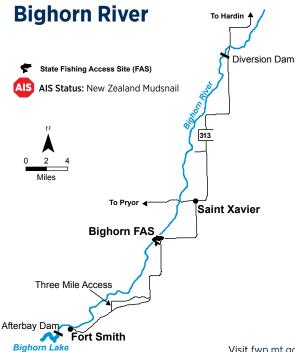

• A State of Montana Fishing License is required for all anglers to fish on the Bighorn River within the boundaries of the Crow Reservation. A tribal permit is not required.

Afterbay Dam to cable 600 feet downstream and downstream from **Bighorn FAS**

 May use live non-game bait fish (as identified in Standard District Regulations).

Cable 600 feet below Afterbay Dam to Bighorn FAS

Artificial lures only.

Visit fwp.mt.gov/fish 57

Waterbody/Section Exceptions to Standard Regulations

BLACKTAIL DEER CREEK (Beaverhead River drainage) -

• Combined trout: all may be cutthroat trout.

BLACKTAIL MEADOWS POND (Dillon) -----

 Open to fishing for anglers 14 years of age or younger only. One rod per child.

BOULDER RIVER (tributary to Jefferson River, near Cardwell) ----

Mouth upstream to the bridge on Boulder Cut-Off Road (mile 14.4)

• Open Jan. 1 through Sept. 30.

BYNUM RESERVOIR

• Hook and Line/Setlines: 6 lines with 2 hooks per line through the ice.

CANYON FERRY RESERVOIR AIS -

- Catch-and-release for brown trout, except anglers 14 years of age or younger may take 1 brown trout daily and in possession any size.
- Walleye: 10 daily, only 1 over 15 inches. Possession limit is twice the daily limit.
- Yellow perch: 10 daily and in possession.
- Northern pike: no limit.
- Spearing: open for northern pike through the ice.
- Hook and Line/Setlines: 6 lines with 2 hooks per line through the ice only.

Magpie Bay

• Closed (as posted) March 1 through June 14.

CHESSMAN RESERVOIR (Tenmile Creek drainage, near Helena) -

• Closed to fishing (City of Helena water supply).

CLARK CANYON RESERVOIR CANYON RESERVOIR

- Burbot (Ling): 3 over 23 inches daily and in possession.
- Combined trout: 3 daily and in possession.

CLARK CANYON RESERVOIR UN-NAMED SPRING (S. END OF THE RESERVOIR)---

• Open third Saturday in May through Nov. 30.

CLARKS FORK YELLOWSTONE RIVER AND TRIBUTARIES -----

Mainstem downstream from the bridge at Bridger

Hook and Line: 2 lines with 2 hooks per line all year.

CONFEDERATE GULCH (tributary to Canyon Ferry Reservoir) -----

Mouth to Highway 284

• Open June 15 through Sept. 30.

COTTONWOOD CREEK (10 miles SW of Martinsdale) -

 Combined trout: limit includes 2 cutthroat trout daily and in possession.

CRYSTAL LAKE (Fergus County) -

- March 1 through Aug. 31 Central District Standard Daily and Possession limits.
- Sept. 1 through Feb. 28 Trout: no limit.

CULVER POND (Red Rock Lakes National Wildlife Refuge) -

- Closed to angling from Nov. 30 to April 15.
- Artificial lures only.

Exceptions to Standard Regulations

CUT BANK CREEK -

Waterbody/Section

 Open entire year downstream of the Blackfeet Indian Reservation boundary in T33N, R6W, S2.

DEADMANS BASIN RESERVOIR (AIS) -

- Combined trout: 10 daily and in possession.
- Snagging: open for kokanee salmon Oct. 1 through Dec. 31, 35 daily and 70 in possession.

DEARBORN RIVER -

Open third Saturday in May through Nov. 30.

Upstream from Highway 434 Bridge in T18N R6W, Section 29

Combined trout: 3 daily and in possession, only 1 over 12 inches.

DEEP CREEK (tributary to Missouri River, near Townsend) -

Mouth to North Fork of Deep Creek

Open June 15 through Nov. 30.

DICKENS LAKE (Sun River Wildlife Management Area)

Open May 15 at 12:00 noon through Nov. 30.

DIVERSION LAKE (Sun River drainage) -

- Catch-and-release for arctic grayling.
- Combined trout: 5 daily and in possession.

DRY CREEK (tributary to Missouri River, near Townsend)

Mouth to Flynn Lane

Open June 15 through Sept. 30.

DUCK CREEK (tributary to Hebgen Reservoir) -

Open third Saturday in May through Nov. 30.

EAST FORK HYALITE CREEK -

Above Hyalite Reservoir including East Fork Hyalite Creek and West Fork Hyalite Creek

- Open July 15 through Nov. 30.
- Combined trout: all may be cutthroat trout.

Below Hyalite Reservoir

Combined trout: all may be cutthroat trout.

EAST FORK RESERVOIR (near Lewistown) -

- Hook and Line/Setlines: 6 lines with 2 hooks per line through the ice.
- Spearing: open for non-game fish and northern pike through the ice and by persons swimming or submerged.

EAST GALLATIN RIVER (AIS)-

Northern pike: no limit.

ELK LAKE (Beaverhead County) -

- The Narrows Creek spawning channel is closed to angling.
- Catch-and-release for lake trout and arctic grayling.

Exceptions to Standard Regulations

ELK SPRINGS CREEK (Red Rock Lakes National Wildlife Refuge)-

- Open entire year except May 1 through June 14.
- · Artificial lures only.

ELKS CLUB POND (Lewistown) --

 Open to fishing for anglers 14 years of age or younger only. One rod per child.

ENNIS RESERVOIR aka Ennis Lake (AIS)

• Catch-and-release for arctic grayling.

EYRAUD LAKES aka Arod Lakes -

- Hook and Line/Setlines: 6 lines with 2 hooks per line through ice only.
- Spearing: open for northern pike and non-game fish through the ice only.

FAIRGROUNDS POND (Helena) ---

• Open to fishing for anglers 14 years of age or younger only.

FERGUSON LAKE (Big Hole drainage) ---

• Combined trout: 2 daily and in possession.

GALLATIN RIVER (AIS)-

Entire river

• Northern pike: no limit.

Yellowstone National Park to East Gallatin River

Closed to fishing from boats/vessels.

Porcupine Creek Road to West Fork Gallatin River

• Open third Saturday in May through Nov. 30.

GHENY POND (near Twin Bridges) ---

 Open to fishing for anglers 14 years of age or younger only. One rod per child.

GIANT SPRINGS (near Great Falls) -

• Closed entire year where enclosed by concrete walks and masonry work.

IBSON RESERVOIR

Gibson Dam upstream to the point where the North and South forks of the Sun River meet, regardless of reservoir level

 Combined trout: 5 daily and in possession. Catch-and-release for arctic grayling.

GOOSE LAKE (Madison County) ----

• Open June 15 through Nov. 30.

GRAYLING CREEK (tributary to Hebgen Reservoir) -

• Open third Saturday in May through Nov. 30.

HARRISON LAKE AND TRIBUTARIES

Willow Creek arm, as posted

Open third Saturday in May through the end of February.

Tributaries to reservoir - North Willow, South Willow and Norwegian Creeks - from the Highway 287 bridges to reservoir

Open June 15 through Nov. 30.

Including Canvon Ferry Dam tailwater and Lake Helena

- Combined trout and kokanee salmon: 5 trout and kokanee salmon. daily and in combination and 10 trout and kokanee salmon in possession in any combination.
- Walleye: 10 daily, only 1 over 15 inches. Possession limit is twice the daily limit.
- Yellow perch: 10 daily and in possession July 1 through March 31; 1 daily and in possession, 14 inch minimum, April 1 through June 30.
- Northern pike: no limit.
- Catch-and-release for brown trout, except anglers 14 years of age or vounger may take 1 brown trout daily and in possession, any size.
- Hook and Line/Setlines: 6 lines with 2 hooks per line through the ice only.

HAYMAKER CREEK --

• Cutthroat trout: 2 daily and in possession.

HELENA VALLEY REGULATING RESERVOIR (AIS) -

Including irrigation canal in the area from the discharge outlet to 400 yards downstream

- Manually operated watercraft and watercraft powered by electric motors only.
- During ice cover: no fires, all-terrain vehicles, off highway vehicles, snowmobiles, or any other vehicles allowed on the ice. Powered ice augers are permitted.
- Snagging: open for kokanee salmon Sept. 1 through Oct. 31: 35 daily and 70 in possession.

HELLROARING CREEK (Yellowstone River drainage) -

Cutthroat trout: 3 daily and in possession, only one over 14 inches.

HELLS CANYON CREEK (Jefferson River drainage) -

- Open June 15 through Sept. 30.
- Catch-and-release for rainbow trout.

HIDDEN LAKE aka Our Lake (Teton County) -

Combined trout: 3 daily and in possession.

HIDDEN LAKE AND TRIBUTARIES (Madison County) -

• Open June 15 through Nov. 30.

HOLTER RESERVOIR AIS-

Up to American Bar Gulch (approximately 4.6 miles downstream from Hauser Dam)

- Catch-and-release for brown trout, except anglers 14 years of age or younger may take 1 brown trout daily and in possession, any size.
- Walleye: 5 daily, only 1 over 25 inches. Possession limit is twice the daily limit.
- Combined trout and kokanee salmon: 5 rainbow trout and kokanee salmon daily in any combination and 10 rainbow trout and kokanee salmon in possession in any combination.
- Yellow perch: 25 daily and 50 in possession.
- Northern pike: no limit.
- Hook and Line/Setlines: 6 lines with 2 hooks per line through the ice only.

Exceptions to Standard Regulations

HYALITE CREEK AND TRIBUTARIES -

Above Hyalite Reservoir including East Fork Hyalite Creek and West Fork Hyalite Creek

- Open July 15 through Nov. 30.
- Combined trout: all may be cutthroat trout.

Below Hyalite Reservoir

• Combined trout: all may be cutthroat trout.

HYALITE RESERVOIR CITY --

• Catch-and-release for arctic grayling.

INDIAN ROAD POND (Townsend)

• Open to fishing for anglers 14 years of age or younger, holders of a "Resident Person with a Disability Conservation License" and holders of a "Permit to Hunt From a Vehicle" with the proper prerequisite Fishing License. One rod per angler.

JEFFERSON RIVER

Entire river

- Northern pike: no limit.
- Combined trout: 3 daily and in possession, only 1 over 18 inches and only 1 may be a rainbow trout.

Hells Canyon Creek and Willow Springs Creek

 Seasonal spawning closure at tributary mouths: Closed to fishing 100 yards upstream and downstream from the creek mouths from April 1 through April 30 and from Sept. 30 through Nov. 30.

LAKE ELWELL aka Tiber Reservoir

- Cisco and whitefish: all fish must be released immediately or killed and counted as part of your limit. It is unlawful to possess live cisco or whitefish for any reason.
- Hook and Line/Setlines: 6 lines with 2 hooks per line through the ice only.
- Spearing: open for non-game fish, northern pike, walleye, and burbot (ling) through the ice and by persons swimming or submerged.

LAKE FRANCES AIS-

- Closed entire year around the water supply outlet as posted.
- Hook and Line/Setlines: 6 lines with 2 hooks per line through the ice only.
- Spearing: open for non-game fish, northern pike, walleye, and burbot (ling) through the ice.

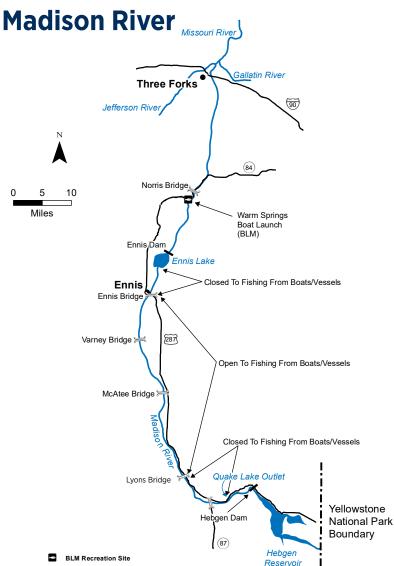

LAKE HELENA

- Catch-and-release for brown trout, except anglers 14 years of age or younger may take 1 brown trout daily and in possession, any size.
- Yellow perch: 10 daily and in possession July 1 through March 31; 1 daily and in possession, 14 inch minimum, April 1 through June 30.
- Walleye: 10 daily, only 1 over 15 inches. Possession limit is twice the daily limit.
- Combined trout and kokanee salmon: 5 trout and kokanee salmon daily and in any combination and 10 trout and kokanee salmon in possession in any combination.
- Northern pike: no limit.
- Hook and Line/Setlines: 6 lines with 2 hooks per line through the ice only.

LAKE SUTHERLIN

Including inlet areas on state land

 Snagging: open for kokanee salmon Oct. 1 through Dec. 31, 35 daily and 70 in possession.

Exceptions to Standard Regulations

LITTLE PRICKLY PEAR CREEK AND TRIBUTARIES (tributary to Missouri River) --

Mouth to Big Sheep Creek

• Open third Saturday in May through Labor Day.

LYMAN CREEK (near Bozeman) -

From the City water supply intake to a point 1,000 feet upstream

• Closed entire year as posted.

MADISON RIVER AIS ---

Yellowstone National Park boundary to Hebgen Reservoir

 Catch-and-release for rainbow trout, except anglers 14 years of age or younger may take 1 rainbow trout daily and in possession, any size.

Quake Lake outlet to Lyons Bridge

- Catch-and-release for trout, except anglers 14 years of age or younger may take 1 trout daily and in possession, any size.
- Artificial lures only.
- Closed to fishing from boats/vessels.

Lyons Bridge to Varney Bridge

- Catch-and-release for trout, except anglers 14 years of age or younger may take 1 trout daily and in possession, any size.
- Artificial lures only.

Varney Bridge to Ennis Bridge

- Catch-and-release for rainbow trout, except anglers 14 years of age or younger may take 1 rainbow trout daily and in possession, any size.
- Artificial lures only with barbless, single-pointed hooks. No treble or double hooks. Anglers may remove treble or double hooks from the lure and replace them with a single hook, or the shanks may be cut off the other hook points to leave a single hook. Lures with multiple hook attachments may still be used but any treble hook must be replaced by a single hook.

Ennis Bridge to Ennis Lake

- Catch-and-release for rainbow trout, except anglers 14 years of age or younger may take 1 rainbow trout daily and in possession, any size.
- Artificial lures only with barbless, single-pointed hooks. No treble or double hooks. Anglers may remove treble or double hooks from the lure and replace them with a single hook, or the shanks may be cut off the other hook points to leave a single hook. Lures with multiple hook attachments may still be used but any treble hook must be replaced by a single hook.
- Closed to fishing from boats/vessels.

Ennis Dam to the mouth

• Northern pike: no limit.

MAGPIE CREEK (tributary to Canyon Ferry Reservoir) -

• Open June 15 through Sept. 30.

MARIAS RIVER (AIS)

- Combined trout: 5 daily and in possession, only 1 over 18 inches.
- Mountain whitefish: 35 daily and in possession.
- Hook and Line/Setlines: 2 lines with up to 2 hooks per line all year.

MIDVALE CREEK (Blackfeet Reservation) ----

 Closed entire year from intake of Glacier Park Hotel Company water supply to the park boundary.

Confluence of Madison and Jefferson Rivers to Holter Dam

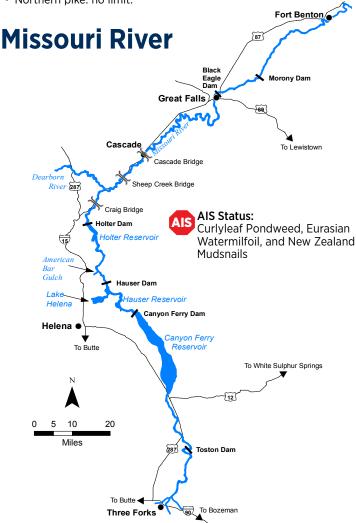

Northern pike: no limit.

Toston Dam Reservoir (Toston Dam to approximately 1 mile upstream)

Northern pike: no limit. Spearing allowed through the ice only.

Toston Dam to Canyon Ferry Reservoir

- Localized spawning areas closed as posted from March 1 through June 15.
- Catch-and-release for brown trout, except anglers 14 years of age or younger may take 1 brown trout daily and in possession, any size.
- Walleye: 10 daily, only 1 over 15 inches. Possession limit is twice the daily limit.
- · Northern pike: no limit.

Exceptions to Standard Regulations

Canyon Ferry Reservoir

- · Catch-and-release for brown trout, except anglers 14 years of age or younger may take 1 brown trout daily and in possession, any size.
- Yellow perch: 10 daily and in possession.
- Walleye: 10 daily, only 1 over 15 inches. Possession limit is twice the daily limit.
- Northern pike: no limit. Spearing allowed through the ice only.
- Hook and Line/Setlines: 6 lines with 2 hooks per line through the ice only.

Canyon Ferry Dam to Hauser Dam (includes Hauser Reservoir, Lake **Helena and Canyon Ferry Tailwaters)**

- Catch-and-release for brown trout, except anglers 14 years of age or younger may take 1 brown trout daily and in possession, any size.
- Combined trout and kokanee salmon: 5 trout and kokanee salmon daily and in combination and 10 trout and kokanee salmon in possession in any combination.
- Yellow perch: 10 daily and in possession, July 1 through March 31; 1 daily and in possession, 14 inch minimum, April 1 through June 30.
- Walleye: 10 daily, only 1 over 15 inches. Possession limit is twice the daily limit.
- Northern pike: no limit.
- Hook and Line/Setlines: 6 lines with 2 hooks per line through the ice only.

Hauser Dam to Holter Reservoir (Hauser Dam downstream to American Bar Gulch approximately 4.6 miles)

- Combined trout: standard river/stream limits apply, except catchand-release for brown trout.
- Walleye: 5 daily, only 1 over 25 inches. Possession limit is twice the daily limit.
- Northern pike: no limit.

Holter Reservoir (American Bar Gulch downstream to Holter Dam)

- Catch-and-release for brown trout, except anglers 14 years of age or younger may take 1 brown trout daily and in possession, any size.
- Walleye: 5 daily, only 1 over 25 inches. Possession limit is twice the daily limit.
- Combined trout and kokanee salmon: 5 rainbow trout and kokanee salmon daily in any combination and 10 rainbow trout and kokanee salmon in possession in any combination.
- Yellow perch: 25 daily and 50 in possession.
- Northern pike: no limit.
- Hook and Line/Setlines: 6 lines with 2 hooks per line through the ice only.

Holter Dam to Cascade Bridge

- Combined trout: 3 daily and in possession, only 1 over 18 inches, and only 1 may be a brown trout.
- Walleye: 20 daily and 40 in possession.
- Northern pike: no limit.

Cascade Bridge to Black Eagle Dam

- Walleve: 10 daily and 20 in possession.
- Northern pike: no limit.

Morony Dam to Fort Benton

- Smallmouth bass: 10 daily and in possession.
- Hook and Line/Setlines: 6 lines with 6 hooks per line all year.

Exceptions to Standard Regulations

RATTLESNAKE CREEK AND TRIBUTARIES (near Dillon, Beaverhead County) -

- Closed entire year from city water supply intake to a point 1,000 feet upstream as posted.
- Combined trout: all may be cutthroat trout.

RED ROCK CREEK (Beaverhead River drainage)

- Open entire year except May 1 through June 14.
- · Artificial lures only.

RED ROCK RIVER (AIS) -

Lima Dam to Clark Canyon Reservoir and all Un-named Spring Tributaries

- Open third Saturday in May through Nov. 30.
- Combined trout: 3 daily and in possession, only 1 over 18 inches.

ROCK CREEK AND TRIBUTARIES

(tributary to Clarks Fork of the Yellowstone River) -----

 West Fork Rock Creek is closed to fishing from the Red Lodge water intake to 1,000 feet upstream.

ROCK CREEK RESERVOIRS (Robb-Ledford Game Range) -

• Catch-and-release for cutthroat trout.

RUBY RIVER (AIS)-

Upstream from Ruby Reservoir

• Combined trout: all may be cutthroat trout.

Downstream from Ruby Dam

- Catch-and-release for rainbow trout.
- Closed entire year just below Ruby Dam (that portion of the Ruby River from its confluence with the Ruby Dam outlet channel upstream to the dam, including the outlet channel).

Ruby Dam to Alder Bridge (Ruby Island FAS)

- Catch-and-release for brown trout.
- Open April 1 through Sept. 30.

Alder Bridge (Ruby Island FAS) to the Mouth

• Brown trout: 1 daily and in possession, must be less than 18".

RUBY RIVER RESERVOIR-----

Tributaries (Garden, Peterson, Barton Gulch, and Davey creeks).

- Open third Saturday in May through Nov. 30.
- SAGE CREEK (Pryor Mountains) -----

Combined trout: all may be cutthroat trout. SAWTOOTH LAKE (Beaverhead River drainage) -----

• Combined trout: 1 golden trout daily and in possession.

SCOTT RESERVOIR -

• Closed to fishing (City of Helena water supply).

SHEEP CREEK (tributary to Missouri River south of Cascade) (AIS)

Open third Saturday in May through Labor Day.

SHIELDS RIVER (AIS) -

Entire River

• Smallmouth bass: All smallmouth bass caught must be killed immediately, kept and the entire fish *presented to* FWP. Anglers who catch smallmouth bass in the Shields River are required to report the catch to FWP within 24 hours (406-577-7900). Anglers will be asked to provide location, date, and time of capture and may be asked to provide their full name, ALS number, and phone number. Anglers are required to *present* the whole smallmouth bass to a FWP office within 10 days of capture (frozen is allowed) during regular business hours. *Edible portions of the fish are returned to the angler upon request.*

SILVER CREEK aka D2 Ditch (tributary to Prickly Pear Creek)

Downstream from the I-15 bridge near Helena

Open third Saturday in May through Labor Day.

SLOUGH CREEK (Yellowstone River drainage) ---

Cutthroat trout: 3 daily and in possession, only 1 over 14 inches.

SMITH RIVER (AIS) -

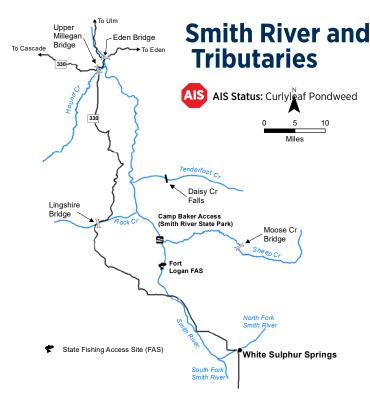

NOTE: Floating on the Smith River between Camp Baker and Eden Bridge is strictly limited. Mandatory registration, floater's fee and other regulations apply. A drawing for launch dates is held in February with remaining launches filled on a first-come basis. Contact the Great Falls FWP office at 406-454-5840 for more information.

Sheep Creek from bridge upstream of Moose Creek to the mouth, Rock Creek from bridge at Lingshire Road to the mouth, Tenderfoot Creek from falls just upstream of Daisy Creek to the mouth, and Hound Creek from Upper Millegan Road bridge to the mouth.

Open third Saturday in May to Nov. 30.

Camp Baker Bridge to Eden Bridge

- Combined trout: 3 under 13 inches daily and in possession and only 1 over 22 inches daily and in possession.
- Artificial lures only, except anglers 14 years of age or younger may use bait.

Exceptions to Standard Regulations

SODA BUTTE CREEK (Yellowstone River drainage) --

• Cutthroat trout: 3 daily and in possession, only 1 over 14 inches.

SOUTH FORK MADISON RIVER (tributary to Hebgen Reservoir) ---

Open third Saturday in May through Nov. 30.

SOUTH FORK SUN RIVER AND TRIBUTARIES -

Upstream from the point where the North and South Forks of the Sun River meet, regardless of reservoir level

Combined trout: 3 daily and in possession only 1 over 12 inches.

SOUTH FORK TETON RIVER (near Choteau) --

Catch-and-release for cutthroat trout.

SOUTH FORK TWO MEDICINE RIVER DRAINAGE -

Within National Forest

• Combined trout: 3 daily and in possession, none over 12 inches.

SOUTH WILLOW CREEK (near Harrison) -

Highway 287 Bridge to Harrison Reservoir

Open June 15 through Nov. 30.

SPLIT ROCK LAKE --

- Hook and Line/Setlines: 6 lines with 2 hooks per line through the ice only.
- Spearing: open for northern pike through the ice only.

SPRING MEADOW LAKE

- · Combined trout: 5 daily and in possession.
- Bass: 3 daily and in possession, none over 10 inches.
- No spear fishing or bow fishing allowed.

SUNNY SLOPE CANAL -

Downstream from Pishkun Reservoir

- Catch-and-release for arctic grayling.
- Combined trout: 5 daily and in possession.

SWAZEE LAKE (Sun River Wildlife Management Area) -

• Open May 15 at 12:00 noon through Nov. 30.

TIBER RESERVOIR aka Lake Elwell

- Cisco and whitefish: all fish must be released immediately or killed and counted as part of your limit. It is unlawful to possess live cisco or whitefish for any reason.
- Hook and Line/Setlines: 6 lines with 2 hooks per line through the ice only.
- Spearing: open for non-game fish, northern pike, walleye, and burbot (ling) through the ice and by persons swimming or submerged.

TROUT CREEK (Tributary to Missouri River)

Open third Saturday in May through Nov. 30.

TUNNEL LAKE (Teton County) --

Combined trout: includes 1 arctic grayling.

TWIN LAKES (Big Hole River drainage) -

- Catch-and-release for lake trout.
- Combined trout: 3 daily and in possession.

Entire River Catch-and-release for Arctic gravling. Combined trout: 2 daily and in possession.

Yellowstone National Park Boundary to Pine Creek Bridge

Catch-and-release for cutthroat trout.

Yellowstone National Park Boundary to Springdale Bridge FAS

• Smallmouth bass: All smallmouth bass caught must be killed immediately, kept and the entire fish presented to FWP. Anglers who catch smallmouth bass in the Yellowstone River above Springdale Bridge FAS are required to report the catch to FWP within 24 hours (406)577-7900. Anglers will be asked to provide location, date and time of capture and may be asked to provide their full name, ALS number, and phone number. Anglers are required to present the whole smallmouth bass to a FWP office within 10 days of capture (frozen is allowed) during regular business hours. Edible portions of the fish are returned to angler upon request.

Springdale Bridge FAS to the North Dakota border

• Smallmouth bass: 10 daily and in possession.

From HWY 212 Bridge Downstream to the I-90 Bridge

• Hook and Line: 2 lines with 2 hooks per line all year.

Eastern Fishing District

The Eastern Fishing District includes all waters lying east of the Central Fishing District. For the boundary description, see Central Fishing District, page 49.

Note: Roadways that are used as boundaries between the Central and Eastern Fishing Districts are interpreted to be in the Central Fishing District. See description of the Central and Eastern Fishing District boundary on page 49.

Eastern District Exceptions Standard Regulations

Fort Peck Reservation - Tribal Boundary Water Regulations: Non-tribal members licensed through the State of Montana and/or Fort Peck Tribes that are fishing in waters that form the exterior boundaries of the Reservation -- Big Muddy Creek, Missouri River and/or Milk River -- are permitted to harvest the following limits:

Burbot (Ling) 5 daily and in possession Channel Catfish 10 daily and 20 in possession Northern Pike 10 daily and in possession Paddlefish 1 per season and in possession Sauger/Walleye 5 daily and 10 in possession

Pallid Sturgeon O (all waters are closed to fishing for pallid sturgeon)

Shovelnose Sturgeon 5 daily and in possession

These harvest limits cannot be exceeded, even if the angler possesses both tribal and state licenses, and fishes on and/or off the reservation on the same day. Non-tribal members licensed through the State of Montana and/or the Fort Peck Tribes, that are fishing in exterior boundary waters — Big Muddy Creek. Missouri River and/or Milk River — are limited to a maximum of 6 lines with 6 hooks per line. Unattended lines are required to be identified with the angler's name and/or an individual identifying number issued by the department. Setlines shall not be attached to jugs or floating devices.

Transporting Live Fish

An import permit is required to bring live fish of any kind into Montana (see page 17). It is unlawful to possess or transport any live fish away from the body of water in which the fish were taken with the following exceptions:

- 1) Possession and transport of live fish for authorized commercial purposes (e.g. Bait Seining Permit, Commercial Fish Ponds, Commercial Fishing, permitted Fishing Contests).
- 2) Use of live bait subject to restrictions for the taking, possession, transport and use of live baitfish (see "Bait Regulations" on page 75);
- 3) Within the boundaries of the Eastern Fishing District. It is unlawful to possess or transport live fish, other than live non-game bait fish, on roadways that form the boundary between the Eastern and Central fishing districts; or
- 4) Possession and transport of live non-game bait fish to and from areas contaminated with Eurasian watermilfoil (Fort Peck Reservoir, Fort Peck Peck R Dredge Cut Ponds, and the Missouri River from Fort Peck Dam to the mouth of the Milk River) is allowed ONLY in clean water (e.g. transport bait fish in well water).

Eastern District Exceptions to the Standard Regulations

Methods of Taking Fish

Hook and Line Limits

Open Water

Rivers and Streams

• 6 lines with 6 hooks per line. The line(s) must be attended and in the angler's immediate control unless they are used as setlines. See regulations for Setlines on page 19.

Lakes and Reservoirs

•2 lines with 2 hooks per line or as noted under Exceptions to Standard Regulations. All lines must be attended and in the angler's immediate control unless they are used as setlines. See regulations for Setlines page 19.

Ice Fishing

Lakes, Reservoirs, Rivers and Streams

• 6 lines with 2 hooks per line through the ice. When a line is used through the ice, the angler need not be in immediate control but must be in the vicinity and in visual contact with the line unless they are used as setlines. See regulations for Setlines.

Shelters:

Removal After the Season: The owner of an ice fishing shelter shall remove it from the ice before it becomes irretrievable at the end of the season or within five days from receipt of notification from FWP to remove the shelter. Shelters may remain on the ice after March 1 but must be removed daily if not occupied overnight. Exceptions may apply to specific waterbodies, see Exceptions below.

Exceptions: Arapooish Pond, Beaver Creek Reservoir, Bearpaw Lake, Bailey Reservoir, Fresno Reservoir, Dry Fork Reservoir, Faber Reservoir and Lake Elmo. These waterbodies will require removal of an ice fishing shelter from the ice before it becomes irretrievable at the end of the season, or by March 1. Shelters may remain on the ice after March 1 but must be removed daily if not occupied overnight.

Bow and Arrow: Unless otherwise noted in the exceptions to the standard regulations, all waters open to angling are open to taking non-game fish by bow and arrow. Paddlefish can be harvested by bow and arrow anglers with a valid paddlefish tag and during an open paddlefish harvest day (see General and Standard paddlefish Regulations).

Hoop Nets

- The use of hoop nets is permitted in certain areas of the Eastern Fishing District.
- The use of hoop nets is limited to licensed resident anglers.
- A permit is required. Permit applications and rules are available at FWP offices in Billings, Miles City and Glasgow.
- Closed statewide March 1 through May 15.

Snagging Allowed for: 1) chinook salmon on Fort Peck Reservoir only from Oct. 1 through Nov. 30; 2) paddlefish by anglers with a valid paddlefish tag/license during an open paddlefish season (see General and Standard paddlefish Regulations); and 3) non-game fish on all open waters in the Eastern District except on the Missouri River downstream from Fort Benton to the North Dakota border, the Yellowstone River downstream from the mouth of the Bighorn River, and Powder River downstream of Highway 10 bridge.

Spearing: In all waters open to fishing, non-game fish, northern pike, burbot (ling), walleye and whitefish may be taken with rubber or spring-propelled spears by persons swimming or submerged. spears or gigs may be used through the ice for non-game fish, northern pike, walleye, sauger and burbot (ling).

Bait Regulations

- Game fish, including yellow perch, may <u>not</u> be used as bait except as authorized below under Dead Bait. See "Game Fish" in definitions (page 5) for complete list of game species.
- It is unlawful to release live bait of any kind into Montana waters; do not empty any live bait containers at your fishing site.
- Collection Methods: Non-game fish may be taken for use as live bait in the following manner:
 - with hook and line; or
 - with seines no larger than 12 feet x 4 feet; or
 - with minnow traps (the dimensions shall not exceed 24 inches x 12 inches x 12 inches); or
 - with cast nets (maximum 6-foot radius) and dip nets (no larger than 3 feet x 3 feet).
- See "Dead Bait" and "Live Bait" sections below for details on possession and use of non-game bait fish.
- •Non-game fish may be taken from:
 - waters where live fish may be used as bait (see water list on page 76);
 - all rivers and streams;
 - all irrigation ditches, canals and associated infrastructure; or
 - public and private ponds with fathead minnows.
- Landowner permission is required to capture live bait from privately owned ponds or irrigation systems for personal use. A Commercial Fishing License (page 16) and a Commercial Pond License is required to sell bait from a privately owned pond.
- All unattended fishing devices (crayfish traps, minnow traps, fish traps, setlines, etc.) must have the angler's name and phone number or name and an individual identifying number issued by the department attached.
- Areas within the Eastern Fishing District that have been identified as contaminated with Eurasian watermilfoil have additional bait restrictions as described below.

Dead Bait

- Non-game fish (see "Collection Methods" above) that are freshly killed or have been preserved by freezing, salting or pickling may be used as bait on all waters not restricted to artificial lures only. Heads and entrails of non-game fish may also be used as bait.
- Whole game fish may not be used as bait.
- Parts/pieces of bass, burbot (ling), channel catfish, crappie, northern pike, paddlefish, sauger, shovelnose sturgeon, walleye, or yellow perch may be used as bait if edible portions are not wasted.
- The eggs of Salmonids (char, cisco, arctic grayling, salmon or trout) may be used as bait. Other parts/pieces of Salmonids may not be used as bait unless noted under waterbody exception.

Live Bait

- Live bait fish may not be imported into Montana.
- Live animals such as meal worms, red worms, night crawlers, leeches, maggots, crayfish, reptiles, amphibians and insects may be used as bait on all waters not restricted to artificial lures only. Transport of invasive species is unlawful.
- Leeches may only be imported into Montana from FWP-approved leech dealers. Anglers who import leeches must have in their possession a bill-of-sale (a receipt) from the approved out-of-state leech dealer when fishing with leeches in Montana. A list of approved out-of-state leech dealers may be obtained from FWP by calling 406-452-6181.

- Non-game fish species that may be collected, possessed, and used as live bait in the Eastern Fishing District include only the following: fathead minnow, flathead chub, western silvery minnow, plains minnow, emerald shiner, longnose dace, lake chub, creek chub, longnose sucker, and white sucker. All other non-game fish species (not listed above) must be released immediately at the collection site or killed prior to transporting away from the collection site (see "Dead Bait" on page 75). See pages 87-88 for live bait fish identification. Be proactive, bait fish that cannot be positively identified should not be used as live bait.
- The non-game fish species listed above may be used as live bait only in the following waters:

Lakes, Reservoirs, Ponds and Impoundments (listed by County):

Big Horn Co. – Tongue River Reservoir (see exceptions to standard regulations)

Blaine Co. - Cow Creek Reservoir, Dry Fork Reservoir, Anita Reservoir, Reser Reservoir

Carter Co. –Doug Gardner #2 Reservoir, Talcott Pond Custer Co. – Spotted Eagle Pond, Haughan Pond

Daniels Co. - Whitetail Reservoir

Dawson Co. - Hollecker Pond, Johnson Reservoir, Lindsey Reservoir

Fallon Co. - Baker Lake, South Sandstone Reservoir

Garfield Co. - Fort Peck Reservoir, Whiteside Reservoir

Hill Co. - Beaver Creek Reservoir, Bailey Reservoir

McCone Co. - Flat Lake, Fort Peck Reservoir, Hedstrom Reservoir

Petroleum Co. – Fort Peck Reservoir, Petrolia Reservoir Prairie Co. – Grants Reservoir, Homestead Reservoir

Phillips Co. – Bison Bone Reservoir, Big McNeil Slough, Cole Ponds, Ester Reservoir, Fort Peck Reservoir, Frenchman Reservoir, Little Warm Reservoir,

McChesney Reservoir, Nelson Reservoir, Wildhorse Reservoir

Richland Co. – Buxbaum West Reservoir, Gartside Reservoir, Kuester Reservoir

Roosevelt Co. – Bainville Railroad Ponds

Rosebud Co. – Castle Rock Lake, Lee Pond
Shoridan Co. – Roy Eldor Posoryoir, Engstrom Posoryoir Modic

Sheridan Co. – Box Elder Reservoir, Engstrom Reservoir, Medicine Lake Nat. Wildlife

Refuge, Raymond Reservoir

Valley Co. – Fort Peck Dredge Cut Trout Pond, Fort Peck Reservoir, Grub Reservoir, Gut Shot Reservoir, Shoot Reservoir, Triple Crossing Reservoir, Valley Reservoir, VR2 Reservoir, Wards Res., and all BLM reservoirs in the Willow Creek Drainage Wibaux Co. – Wibaux Pond

Rivers and Streams: All streams and rivers in the Eastern Fishing District except:

Milk River and its tributaries upstream from Fresno Dam. Beaver Creek upstream from Beaver Creek Reservoir.

Bait Restrictions in Eurasian Watermilfoil Contaminated Areas

Eurasian watermilfoil is an invasive aquatic plant species that has become established in some Montana waters. This water weed is easily spread from one body of water to another primarily by plant fragments. Areas within the Eastern Fishing District that have been identified as contaminated with Eurasian watermilfoil are:

- Fort Peck Reservoir
- Fort Peck Dredge Cut Ponds
- Missouri River from Fort Peck Dam to the mouth of the Milk River.

The additional bait restrictions within the contaminated areas are:

- Commercial collection of bait animals is not permitted.
- Transport of live aquatic bait animals to and from these contaminated areas is allowed only in clean water (e.g. transport minnows and leeches in well water).

Anglers shall inspect all bait buckets and live wells to ensure that <u>NO PLANT FRAGMENTS</u> are present when leaving a body of water. It takes only a small fragment of Eurasian watermilfoil (less than 2 inches) to start a new plant and infest a body of water.

Paddlefish Season Summary by River and River Section

River	River Section	Color	Season Dates	Harvest Days	C&R Days
Missouri River	Ft Peck Dam to Ft Benton	white	May 1 - Jun 15	all	all
	Ft Peck Dredge Cuts - no snagging	blue	July 1 - Aug 31	all - bow & arrow harvest only	none
	Ft Peck Dam to ND Line	yellow	May 15 - Jun 30	Tue,Wed,Fri,Sat	none
Yellowstone River	Big Horn R to Intake Dam	yellow	May 15 - Jun 30	Tue,Wed,Fri,Sat	none
	Intake FAS	yellow	May 15 - Jun 30	Tue,Wed,Fri,Sat	Sun, Mon, Thur
	Downstream of Intake FAS to ND Line	yellow	May 15 - Jun 30	Tue,Wed,Fri,Sat	none

FAS = Fishing Access Site

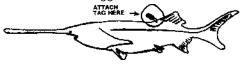

C&R = Catch-and-Release

General Paddlefish Regulations for ALL Areas

- Each angler must cast for, hook and reel in his or her own paddlefish. It is unlawful for another person to do so. It is unlawful to loan tags or use another angler's tag.
- It is unlawful to snag paddlefish via boat trolling; casting from an anchored or drifting boat is lawful.
- Any fish other than paddlefish caught while paddlefishing must be immediately released alive.
- Bow and Arrow: lawful on harvest days in sections of river open to harvest or in a bow fishing only area; unlawful for catch-and-release.
- Hook size is limited to 8/0 and smaller for all paddlefish snagging.
- Gaffs, no longer than 4.5 feet in length, may be used to land a paddlefish that will be harvested. Gaffs may not be used to land a paddlefish that will be released.
- Any angler tag locked shut prior to attachment to a paddlefish shall be void and is not replaceable. Any altered or modified tag shall be void. **Voided or lost tags are not replaceable.**
- Paddlefish must be tagged immediately upon harvest.

Tagging a Paddlefish

- Cut a small hole in the base of the dorsal fin.
- Insert the metal loop portion of the plastic self-locking tag through this hole and seal tag.
- The metal loop must penetrate the fish so as to make the plastic selflocking tag non-removable when tag is sealed.
- The plastic self-locking tag must be completely sealed so it cannot be reopened. Any fish not tagged in accordance with these instructions shall be considered to be untagged.

- When a paddlefish is captured and tagged, the fish must be removed from the river by the end of the day (9:00 p.m. MST).
- Anglers are required to report the harvest of any paddlefish within 48 hours of harvest.
- Reporting options include on-site at fisheries check station or roving crews, phone hotline (1-877-FWP-WILD or 406-444-0356), or online at myfwp.mt.gov.
- Anglers reporting a harvested paddlefish will provide the following information: Angler tag number, jaw tag number (if present), length (eyetail fork), sex, date of harvest and harvest location. Additional information that may be collected on-site includes weight and age structure (jaw section).
- Anglers not reporting a harvested paddlefish will not be eligible to purchase a paddlefish tag the following year.
- It is unlawful to possess an untagged paddlefish or part of one. If anglers fillet a paddlefish, they must keep the part of the fish back and dorsal fin (back fin) where the tag is attached and sealed to the fish.
- Angler tag must remain with processed fish until consumed.
- It is unlawful for an individual to sell any portion of a paddlefish including eggs (processed or unprocessed) as prescribed by the Fish & Wildlife Commission.

Standard Paddlefish Regulations

Daily and Possession Limits and Tags: One paddlefish per season per angler. Anglers may select only one of the following three areas, and may only fish in the area selected:

1) Missouri River upstream from Fort Peck Dam to Fort Benton (White Tag) Upper Missouri paddlefish Drawing: paddlefish harvest tags will be available via lottery draw for the Upper Missouri River paddlefish season (White Tag). Anglers need to apply individually or as a party (up to five people). Applications can be submitted either on-line at fwp.mt.gov or at an FWP office. You may purchase one bonus point per year; either at the time of application or between July 1 and Sept. 30 of the current year. If you do choose to purchase a bonus point at the time of application, you may not purchase one from July - September.

- Applications must be received by FWP no later than 5:00 p.m. March 22, 2024.
- Unsuccessful applicants can still catch-and-release paddlefish with their Conservation, Fishing and Paddlefish Licenses.
- Paddlefish Snagging: open May 1 to June 15 from 6:00 a.m. to 9:00 p.m. (MST) daily.
- Catch-and-release snagging: open May 1 to June 15 from 6:00 a.m. to 9:00 p.m. Proof of purchase of a white (or Upper Missouri River) paddlefish License is required for catch-and-release fishing.
- All paddlefish caught while catch-and-release fishing must be released immediately, may not be gaffed, and must remain at least partially submerged in water at all times (to avoid injury to the fish).

2) Fort Peck Dredge Cuts (west of Park Grove Bridge and Nelson Dredge) (Blue Tag)

- Bow and Arrow: open July 1 through Aug. 31 for paddlefish. One paddlefish
 per angler. An unused blue paddlefish tag is required to fish for paddlefish.
- Snagging: no snagging allowed, this is an archery only season.

- 3) Yellowstone River from Bighorn River confluence to Intake Dam (not including Intake Fishing Access Site), downstream of Intake Fishing Access Site to North Dakota state line, Powder River downstream of Highway 10 bridge, and Missouri River downstream of Fort Peck Dam (Yellow Tag)
 - Fishery is managed under a harvest target so annual harvest will not exceed 1,000 paddlefish. FWP will announce a 24-hour closure of the harvest season through a public news release. Closure can be immediate at Intake FAS (Intake Dam to ½ mile downstream) to prevent exceeding the estimated harvest target. Other yellow tag areas will close as noted in the 24-hour notice. For current information on harvest status call the Miles City FWP office at 406-234-0900.
 - Following announcement of the harvest closure, catch-and-release snagging will be allowed, at Intake Fishing Access Site only, for 10 consecutive calendar days or through June 30, whichever comes first.
 - Paddlefish Harvest Days: open Tuesdays, Wednesdays, Fridays, and Saturdays from May 15 through June 30 from 6:00 a.m. to 9:00 p.m. (MST) daily, unless closed earlier by FWP.
 - Paddlefishing Closed: Sundays, Mondays and Thursdays (see exception under Intake Fishing Access Site below).
 - It is unlawful to release a paddlefish on a harvest day during the paddlefish season.
 - An unused yellow paddlefish tag is required to fish for paddlefish. The tag must be properly placed on the first paddlefish caught and landed.

Intake Fishing Access Site (Intake Dam to ½ mile downstream)

- Paddlefish Catch-and-Release Days: open Sundays, Mondays and Thursdays from May 15 through June 30 from 6:00 a.m. to 9:00 p.m. (MST) daily, unless closed earlier by FWP.
 - -All paddlefish caught on catch-and-release days must be released immediately, may not be gaffed, and must remain at least partially submerged in water at all times (to avoid injury to the fish).
 - -Evidence of purchasing a current year yellow paddlefish tag must be in possession to catch-and-release snag for paddlefish.
 - -Bow and arrow fishing unlawful on catch-and-release days.
- Paddlefish Harvest Days: open Tuesdays, Wednesdays, Fridays, and Saturdays from May 15 through June 30 from 6:00 a.m. to 9:00 p.m. (MST) daily, unless closed to harvest earlier by FWP.
 - -It is unlawful to release a paddlefish on a harvest day during the paddlefish season.
 - -An unused yellow paddlefish tag is required to fish for paddlefish. The tag must be properly placed on the first paddlefish caught and landed.
 - -Closed to fishing, snagging, or landing paddlefish from boats/vessels during the open paddlefish season (i.e. May 15 through June 30 or earlier as posted on site).

Paddlefish snagging is prohibited within entire length (2.0 miles) of the Intake Bypass Channel (closure defined as sections of the bypass channel with streambanks on both sides).

Eastern District Standard Daily and Possession Limits

Each angler may take all of the limits listed in the chart, unless otherwise noted in the Eastern District Exceptions. For species not listed, there are no limits on the number of fish that may be taken or possessed.

Anglers who move from one fishing water to another may possess the limit of fish allowed only for the water on which they are currently fishing.

Species		Daily and Possession Limits		
	Brook Trout	10 daily and in possession.		
T R O U T	Combined Trout includes brown trout, rainbow trout, golden trout, and arctic grayling	Lakes/Reservoirs: 5 daily and 10 in possession, includes cutthroat trout. Rivers/Streams: 5 daily and in possession.		
	Cutthroat Trout	Lakes/Reservoirs: included in the "Combined trout" daily and possession limit.		
	Cutthroat frout	Rivers/Streams: all cutthroat trout must be released immediately.		
	Lake Trout	3 daily and 6 in possession.		
Bass		5 daily and in possession.		
Burbot (Ling)		5 daily and in possession.		
Channel Catfish		10 daily and 20 in possession.		
Crappie		15 daily and 30 in possession.		
Northern Pike		10 daily and in possession.		
Paddlefish		1 per season and in possession. Tag required.		
Pallid Sturgeon		None - this is an endangered species and all fish must be released promptly, with little or no delay. All waters are closed to fishing for pallid sturgeon.		
Salmon (Kokanee & Chinook)		5 daily and 10 in possession.		
Sauger/Walleye		5 daily and 10 in possession.		
Shovelnose Sturgeon		5 daily and in possession, none over 40 inches.		
Tiger Muskie		1 daily and in possession, must be over 40 inches		
Whitefish		20 daily and 40 in possession.		

Eastern District Exceptions To Standard Regulations

Check the following list of waters for the body of water you intend to fish in the Eastern District. If the body of water is not found in the listing of Exceptions, all of the Eastern District standard seasons, daily/possession limits, and statewide regulations apply. Standard regulations apply for species not listed in the exceptions.

Waterbody/Section

Exceptions to Standard Regulations

BIGHORN RIVER (east of Billings) (AIS)

Entire river

• Sauger/walleye: 5 daily, only 2 may be sauger. Possession limit is 10, only 4 may be sauger.

BOXELDER RESERVOIR aka Bolster Dam (Sheridan County) (AIS)

Yellow perch: 25 daily and 50 in possession.

FORT PECK DREDGE CUTS (west of Park Grove Bridge and Nelson Dredge) (AIS)

- Bow and Arrow: open July 1 through Aug. 31 for paddlefish. 1 per season and in possession. An unused blue paddlefish tag is required to fish for paddlefish.
- Combined trout: 2 trout daily and in possession.
- Hook and Line/Setlines: 2 lines with 2 hooks per line on open water. and 6 lines with 6 hooks per line through the ice.
- Snagging: no snagging allowed.

FORT PECK RESERVOIR CAN (AIS)-

Fort Peck Dam to Beauchamp Creek and CMR Trail 837

- Dead cisco can be used as bait. Can only be collected from the Missouri River downstream of Fort Peck Dam (in Montana) or in Fort Peck Reservoir.
- Sauger/walleye: 5 daily, only 2 may be sauger. Possession limit is 10, only 4 may be sauger.
- Spearing: chinook salmon and lake trout may be taken by spear or gig through the ice Dec. 1 through March 31.
- Snagging: allowed only for chinook salmon from Oct. 1 through Nov. 30. Bow and Arrow: allowed for chinook salmon from Oct. 1 through Oct. 15.

HOME RUN POND (Glasgow) -

• One rod only per angler.

JUDITH RIVER (from Hwv 81 downstream to mouth) --

 Sauger/walleye: 5 daily, only 2 may be sauger. Possession limit is 10, only 4 may be sauger.

LAKE ELMO (AIS) --

Bow and arrow fishing prohibited.

MARIAS RIVER-

- Sauger/walleye: 5 daily only 2 may be a sauger. Possession limit is 10. only 4 may be sauger.
- Combined trout: 5 daily and in possession, only 1 over 18 inches.

MEDICINE LAKE NATIONAL WILDLIFE REFUGE (Sheridan County)

- Refuge open to fishing year-round.
- Consult refuge specific regulations available at the office. informational kiosks, or online: fws.gov/refuge/Medicine Lake/visit/ rules and regulations

Missouri River Upstream from Fort Peck Dam

Entire river

 Snagging: it is unlawful to snag for fish other than paddlefish on the Missouri River downstream from Fort Benton; any fish other than paddlefish must be immediately released alive.

Upstream from Fort Peck Dam to Fort Benton

 Sauger/walleye: 5 daily, only 2 may be a sauger. Possession limit is 10, only 4 may be sauger.

Fort Peck Dam to the mouth of the Milk River

- Combined trout: 2 trout daily and in possession.
- Hook and Line/Setlines: 2 lines with 2 hooks per line on open water and 6 lines with 6 hooks per line through the ice.

Downstream from Fort Peck Dam near Duck Island as posted

• Closed from March 1 through July 31 to fishing and wading as posted.

₽ Z . Circle To Scobey Fort Peck Dam (2) Wolf Point 9 (42) Glasgow 40 AIS Status: Eurasian Watermilfoil (Fort Peck) and Curlyleaf Pondweed Reservoir 20 ort Peci ort Peck Dredge Cut **Milk Rive** red Robinson Bridge Recreation Area Malta Boat Ramp) James Kipp (g) (8) -ewistowr (F) (2) Big Sandy Havre AIS To Great Falls Fort Benton

Eastern District

MUSSELSHELL RIVER -

Downstream from where North and South forks meet to confluence with Fort Peck

- Sauger/walleye: 5 daily, only 2 may be sauger. Possession limit is 10, only 4 may be sauger.
- Channel catfish: 10 daily and in possession.

POWDER RIVER (AIS)

Downstream from Highway 10 Bridge

• Snagging: unlawful to snag for fish other than paddlefish; any fish other than paddlefish must be immediately released alive.

ROSS RESERVOIR (Blaine County) -

• Open third Saturday in May through Nov. 30.

SPOTTED EAGLE POND (Miles City) ---

5 daily and in possession, any combination of species.

TONGUE RIVER (AIS) -

Tongue River Reservoir to Wyoming State Border

- Fish species allowed for use as live bait are: fathead minnow, flathead chub, longnose dace, lake chub, creek chub, white sucker, and longnose sucker.
- Sauger/walleye: 5 daily only 1 may be sauger and 10 in possession only 2 may be sauger.

Twelve Mile Dam Fishing Access Site (T&Y Dam)

• Hook and Line/Setlines: 2 lines with 2 hooks per line all year.

TONGUE RIVER RESERVOIR

- Fish species allowed for use as live bait are: fathead minnow, flathead chub, longnose dace, lake chub, creek chub, white sucker, and longnose sucker.
- Sauger/walleye: 5 daily only 1 may be a sauger and 10 in possession only 2 may be sauger.
- Hook and Line/Setlines: 6 lines with 6 hooks per line through the ice.

WARM SPRINGS CREEK (Fergus County) ---

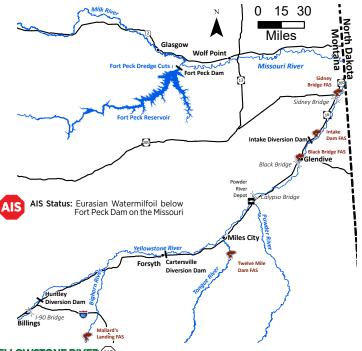

• Combined trout: 5 daily and in possession, only 1 over 18 inches.

WIND CREEK (Blaine County) -

• Closed entire year from Clear Creek road crossing to Ross Reservoir Dam.

stern District

Yellowstone & Lower Missouri Rivers

YELLOWSTONE RIVER (AIS)

Springdale Bridge FAS to the North Dakota Border

Smallmouth bass: 10 daily and in possession.

I-90 Bridge at Billings to the mouth of the Bighorn River

- Combined trout: 5 daily and in possession, only 1 over 18 inches, all may be cutthroat trout.
- Sauger/walleye: 5 daily only 2 may be sauger and 10 in possession only 4 may be sauger.

Mouth of the Bighorn River to Cartersville Diversion Dam at Forsyth

 Sauger/walleve: 5 daily only 2 may be sauger and 10 in possession. only 4 may be sauger.

Downstream from the mouth of the Bighorn River, not including Intake **Fishing Access Site**

• Snagging: unlawful to snag for fish other than paddlefish; any fish other than paddlefish must be immediately released alive.

Intake Fishing Access Site

Hook and Line/Setlines: 2 lines with 2 hooks per line all year.

Intake Bypass Channel

 Paddlefish snagging is prohibited within entire length (2.0 miles) of the Intake Bypass Channel (closure defined as sections of the bypass channel with streambanks on both sides).

Montana Fish Records

Visit fwp.mt.gov/fish/report-your-catch/fish-records for a complete list of Montana fish records - or call 406-444-2449.

If you think you have legally caught a fish in Montana that may be a state record: • To prevent loss of weight, don't clean or freeze the fish. Keep the fish cool

- preferably on ice. Take a picture of the fish.
- Get the fish weighed as soon as possible on a certified scale (found in grocery or hardware stores, etc.) and witnessed by an observer. Get an affidavit from the store if no FWP fisheries biologist is present. Measure the length.
- Contact the nearest FWP fisheries office or fisheries biologist to have the fish positively identified and to determine if it is a state record.

Bait Fish Species Identification

There are 10 species of fish that may be used for bait in the Central and Eastern Fishing Districts. The following images are for help in identification (for more details see the "Live Bait Fish Identification" brochure available online or at Regional offices). See the regulations concerning bait use in each Fishing District (pages 24, 50 and 75).

CREEK CHUB

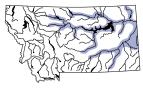

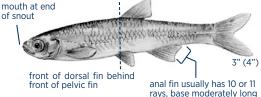

HABITAT: Typically creeks. Less common in rivers and shallows of lakes.

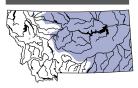

EMERALD SHINER

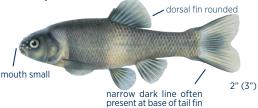

ATHEAD **M**INNOW

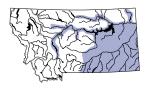

HABITAT: Clean cold streams and lakes; sometimes moderately warm waters and turbid waters.

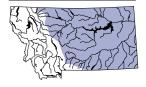

FLATHEAD CHUB

HABITAT: Mostly turbid rivers and streams.

AKE CHUB

HABITAT: Mostly small streams at lower elevations; to a lesser extent, larger streams and lakes.

LONGNOSE DACE

HABITAT: Riffle areas of streams and rivers; to a lesser extent, lakes.

LONGNOSE SUCKER

HABITAT: Clean cold streams and lakes; sometimes moderately warm waters and turbid waters.

scales small, crowded toward front of body:

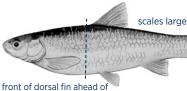

95-120 in lateral line

4" (6")

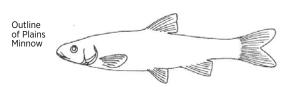

WESTERN SILVERY MINNOW

HABITAT: Slower portions of medium-sized to larger streams. Sometimes found in creeks and impoundments.

The western silvery minnow and the plains minnow are very similar. The western silvery minnow is more streamlined

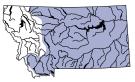

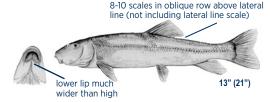

(see outlines) and has larger scales than the plains minnow. Scale counts from lateral line to lateral line under the belly of the fish might be 11 to 17 on the western silvery minnow, and 15 to 22 on the plains minnow. Distinguishing these species when live is understood to be very difficult.

front of pelvic fins

WHITE SUCKER

HABITAT: All kinds of lakes and streams but avoids rapid current-very adaptable.

FISH IDENTIFICATION KEY If you don't know, let it go!

CUTTHROAT TROUT are frequently mistaken for Rainbow Trout (see pictures below):

1. Turn the fish over and look under the jaw, Does it have a red or orange stripe? If ves—the fish is a Cutthroat Trout. Carefully release all Cutthroat Trout that cannot be legally harvested (see page 21, releasing fish).

BULL TROUT are frequently mistaken for Brook Trout. Lake Trout or Brown Trout (see below):

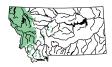

- 1. Look for white edges on the front of the lower fins. If yes—it may be a Bull Trout.
- 2. Check the shape of the tail. Bull Trout have only a slightly forked tail compared to the lake trout's deeply forked tail.
- 3. Is the dorsal (top) fin a clear olive color with no black spots or dark wavy lines? If yes—the fish is a Bull Trout. Carefully release Bull Trout (see page 21, releasing fish).

MONTANA LAW REQUIRES:

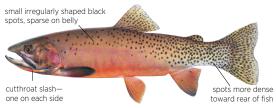

- All Bull Trout must be released promptly, with little or no delay, in Montana unless authorized. See Western District regulations.
- Cutthroat Trout must be released promptly, with little or no delay, in many Montana waters. Check the district standard regulations and exceptions to know where you can harvest Cutthroat Trout.

Average Size: 18"-26"

Average Size: 7"-10"

Help protect native species

If you don't know, let it go!

Key to identification:

PALLID STURGEON are frequently mistaken for Shovelnose Sturgeon (see pictures below)

- 1. Look to see if the outer barbels are more than twice the length of the inner barbels. Are the barbels attached closer to the mouth than to the tip of the snout? If yes—the fish is a Pallid Sturgeon. Carefully release all Pallid Sturgeon (see page 15).
- Sturgeon are difficult to distinguish. The Shovelnose Sturgeon is smaller and more common. Montana FWP recommends that all sturgeon be released if you are unsure of the species.

SAUGER are frequently mistaken for Walleye (see pictures below):

1. Look for multiple small, distinct black spots on the spiny dorsal fin *(first fin on top)*. If yes—it is a Sauger.

MONTANA LAW REQUIRES:

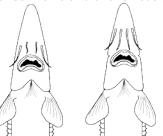

- All Pallid Sturgeon must be released immediately and all sturgeon longer than 40 inches must be released immediately.
- Only two Saugers may be kept on the Missouri River upstream from Fort Peck Reservoir, on Fort Peck Reservoir, and on the Yellowstone River upstream from Forsyth at the Cartersville Diversion Dam.

Know the difference between Pallid and Shovelnose Sturgeon:

Pallid Sturgeon

Outer barbels 2 times the length of the inner barbels. (Be alert for broken barbels).

Barbels attached close to mouth, about 1/3 the distance between mouth and tip of snout.

Shovelnose Sturgeon

Outer barbels barely longer than inner barbels.

Barbels attached about 1/2 the distance between mouth and tip of snout.

white spot at base of tail

The Pallid Sturgeon is a fish of concern in Montana and it is listed as an Endangered Species by the U.S. Fish and Wildlife Service. Pallids are a bottom-dwelling fish of the Missouri and Yellowstone Rivers, preferring strong currents flowing over a sandy or gravely river bottom. Learn to distinguish the Pallid from the Shovelnose Sturgeon, a smaller and more common species. Because the sturgeon are hard to identify, Montana FWP recommends that all sturgeon be released if you're unsure of the species.

Know the difference between Sauger and Walleye:

Nonresident watercraft must have inspection and Vessel AIS Prevention Pass.

Pass is not transferable between vessels & expires Dec. 31.

\$10 non-motorized vessels | \$30 motorized vessels Buy pass online at fwp.mt.gov

Protect the waters you love to fish! When leaving the water always:

CLEAN mud and plants off boat, trailer and fishing gear.

DRAIN <u>all</u> water. Drop motor. Pull drain plug.

DRY waders, fishing gear and watercraft.

DISPOSE unwanted bait in the trash, not in the water.

Learn more at CleanDrainDryMT.com. Ph: 406-444-2440

2024 FWP Kids' Fish Art Contest

WINNER:

Maverick Hajek, Age 6 Paddlefish

Polyodon spathula

Paddlefish may be one of the most unique-looking fishes native to Montana...and one of the largest, topping 100-lbs and 5-ft. and living 50+ years. These fish are characterized by their large rostrum (long snout) that helps them sense their prey (zooplankton) and helps them navigate big, muddy rivers.

Kokanee

Oncorhvnchus nerka

Kokanee are best known for their bright red spawning coloration (September-October); a stark contrast from their silvery-blue appearance the rest of year. Kokanee are a landlocked lifeform of Sockeye Salmon and are zooplankton filter-feeders that have been introduced to many lakes and reservoirs. Kokanee live ~4 years and can reach lengths of 20-in. before returning to natal streams to spawn over cleared gravel beds called "redds".

It's a rite of passage. A quintessential Montana experience. For both kids and adults, fishing creates memories that will last a lifetime.

FREE FISHING! May 11-12 & June 15-16, 2024

On Mother's and Father's
Day weekends anyone
can fish without a fishing
license. All other
restrictions in these
Fishing Regulations still
apply. See page 15 for
more details.

A basic guide to take kids fishing.
