

FISH & WILDLIFE COMMISSION AGENDA ITEM COVER SHEET

Meeting Date: February 15, 2018

Agenda Item: Future Fisheries Improvement Projects, Winter 2018 Funding Cycle

Division: Fisheries

Action Needed: Final

Time Needed on Agenda for this Presentation: 5 Min

Background

The Future Fisheries Improvement Program continues to provide funds for projects that restore fishery habitats in streams, rivers and lakes for the benefit of wild fisheries. Applications are reviewed twice each year by the 14-member Citizen Review Panel appointed by the Governor. Recommendations are forwarded to the Fish & Wildlife Commission every six months for consideration and approval. For the Winter 2018 funding cycle, the Citizen Review Panel recommends funding 16 of 17 submitted proposals at a program cost of \$398,332.68. Matching funds or in-kind contributions from outside sources total \$1,903,454.89, for a 4.7-to-1 match.

Public Involvement Process and Results

The public is informed about program funding opportunities via news releases, a public meeting, and information posted on FWP's website. The Citizen Review Panel conducted a public meeting and reviewed applications, discussed proposed projects with applicants in attendance, and provided the opportunity for public comment. No public comment was received at the meeting, except from applicants in attendance. All applications received for the funding cycle were posted on FWP's website, which allowed viewers to submit comments online. No online comments were received. Environmental Assessments (EAs) were prepared for six of the sixteen projects recommended for funding. Of the remaining ten, nine have been or will be assessed under the federal National Environmental Policy Act, and one will have an EA completed by regional FWP staff. The comment period for drafted EAs will end February 4, and no comments have been received to date. An update can be provided at the commission meeting.

Alternatives and Analysis

- A. The commission could approve funding recommendations for active projects submitted by the Citizen Review Panel and prioritized by the ranking committee. This alternative would provide funds to assist in the completion of projects that will improve habitat for wild fish populations.
- B. The commission could disapprove or modify the recommendations of the Citizen Review Panel. Under this alternative, applicants would need to seek other sources of funding or suspend projects that otherwise would have benefited wild fish populations.

Agency Recommendation and Rationale

FWP recommends the commission approve Alternative A and the funding recommendations as submitted by the Citizen Review Panel. Completion of these projects would benefit wild fish populations.

Proposed Motion

I move the Fish and Wildlife Commission approve the Citizen Review Panel funding recommendations for the Winter 2018 funding cycle of the Future Fisheries Improvement Program.
