

ATTENTION CONSULTANTS

The Montana Department of Fish, Wildlife & Parks does not keep lists for either design services or construction services.

For design services, we either directly solicit firms that have the expertise to provide the necessary design and we strive to hire firms that are near the project site. The limit for this method is that the fee cannot be over \$20,000. For design fees over \$20,000, we are required to have design professionals appointed by the Department of Administration. To be eligible, firms must appear on their roster and must have completed Form 114, available on the Department of Administration's website.

If you feel you meet the requirements for our direct solicitation for either design services or construction services, you can let us know by sending an e-mail that includes your contact information (location is important) and general areas of expertise to Paul Valle. We will forward that information to the appropriate project manager. If you have any questions, do not hesitate to ask. Thank you for your interest in working for Montana Fish, Wildlife & Parks.
