

# 1. Fish & Wildlife Information Checklist

## Purpose and Use

This form is intended to help the subdivision applicant identify important fish and wildlife species and their habitats on or near the property of interest. FWP encourages the subdivider to complete the form at the earliest stage of project planning, before making any site location and design decisions. Consultation with local FWP biologists is strongly advised at this early stage. Other professionally trained biologists may, of course, also be consulted. FWP biologists are encouraged to review the completed *Checklist* for accuracy. Subdividers should not expect FWP to complete the form for them.

The local government may wish to utilize this form in its subdivision process. The form can be modified to reflect locally important fish and wildlife resources.

Additional sheets may be attached as necessary to provide more complete information.

Habitat Factors	Yes	No	Maybe	If Yes or Maybe, Describe Habitat	Identify Source(s) of Information
Project is within 300 feet of a water body and/or its associated riparian area.					
Project is in one or more big game winter ranges.					
Project could impact FWP's ability to use public hunting as a wildlife management tool on the site and/or within a one-mile radius.					

Habitat Factors	Yes	No	Maybe	If Yes or Maybe, Describe Habitat	Identify Source(s) of Information
Project is in an area with a high or potentially high level of human/bear conflict (black or grizzly bear).					
Project is in one or more native grassland or native shrub habitat patches (patch size > 25 acres).					
Project is within 500 feet of Common Loon nesting site.					

<b>Habitat Factors</b>	<b>Yes</b>	<b>No</b>	<b>Maybe</b>	<b>If Yes or Maybe, Describe Habitat</b>	<b>Identify Source(s) of Information</b>
Project is within 800 feet of Great Blue Heron colonial nesting site.					
Project is within 1,000 feet of Trumpeter Swan nesting or over-wintering site.					
Project is within 1,000 feet of Long-billed Curlew nesting site.					
Project is within 1,000 feet of Burrowing Owl nesting site.					

<b>Habitat Factors</b>	<b>Yes</b>	<b>No</b>	<b>Maybe</b>	<b>If Yes or Maybe, Describe Habitat</b>	<b>Identify Source(s) of Information</b>
<b>Project is within ½ mile of Bald Eagle nesting site.</b>					
<b>Project is within ½ mile of Golden Eagle nesting site.</b>					
<b>Project is within ½ mile of Ferruginous Hawk nesting site.</b>					
<b>Project is within ½ mile of Peregrine Falcon nesting site.</b>					
<b>Project is within 5 miles of Greater Sage-Grouse lek.</b>					

<b>Habitat Factors</b>	<b>Yes</b>	<b>No</b>	<b>Maybe</b>	<b>If Yes or Maybe, Describe Habitat</b>	<b>Identify Source(s) of Information</b>
Project is within 2 miles of Sharp-tailed Grouse lek.					
Project is within the range of other Species of Concern.					
Project is in other important habitat (e.g., upland game bird habitat, or agricultural lands that are seasonally used by migratory waterfowl).
