

FISH

Deepwater Sculpin (*Myoxocephalus thompsonii*)

**SGCN
State Rank: S3**

Figure 113. Montana range and observations of the deepwater sculpin

This species lacks a baseline survey and needs to be targeted for survey and inventory.

Pygmy Whitefish (*Prosopium coulteri*)

SGCN
State Rank: S3

Figure 114. Montana range and observations of the pygmy whitefish

This species lacks a baseline survey and needs to be targeted for survey and inventory.

The following fish SGIN is also an SGCN. Information on this species can be found in the previous section, Species of Greatest Conservation Need.

Trout-perch (*Percopsis omiscomaycus*)

SGCN

This species lacks a baseline survey and needs to be targeted for survey and inventory. For more information, see [Trout-perch](#) under Species of Greatest Conservation Need in the previous section.

MAMMALS

Spotted Bat (*Euderma maculatum*)

**SGCN
State Rank: S3**

Figure 115. Montana range and observations of the spotted bat

This species lacks a baseline survey and needs to be targeted for survey and inventory.

Yuma Myotis (*Myotis yumanensis*)

PSOC

Figure 116. Montana range and observations of the Yuma myotis

This species lacks a baseline survey and needs to be targeted for survey and inventory.

Meadow Jumping Mouse (*Zapus hudsonius*)

PSOC

Figure 117. Montana range and observations of the meadow jumping mouse

This species lacks a baseline survey and needs to be targeted for survey and inventory.

Idaho Pocket Gopher (*Thomomys idahoensis*)

PSOC

Figure 118. Montana range and observations of the Idaho pocket gopher

This species lacks a baseline survey and needs to be targeted for survey and inventory.

Great Basin Pocket Mouse (*Perognathus parvus*)

**SGCN
State Rank: S3**

Figure 119. Montana range and observations of the Great Basin pocket mouse

This species lacks a baseline survey and needs to be targeted for survey and inventory.

Hispid Pocket Mouse (*Chaetodipus hispidus*)

PSOC

Figure 120. Montana range and observations of the hispid pocket mouse

This species lacks a baseline survey and needs to be targeted for survey and inventory.

Porcupine (*Erethizon dorsatum*)

PSOC

Figure 121. Montana range and observations of the porcupine

This species lacks a baseline survey and needs to be targeted for survey and inventory.

Black-tailed Jack Rabbit (*Lepus californicus*)

PSOC

Figure 122. Montana range and observations of the black-tailed jack rabbit

This species lacks a baseline survey and needs to be targeted for survey and inventory.

Western Spotted Skunk (*Spilogale gracilis*)

PSOC

Figure 123. Montana range and observations of the western spotted skunk

This species lacks a baseline survey and needs to be targeted for survey and inventory.

Hoary Marmot (*Marmota caligata*)

PSOC

Figure 124. Montana range and observations of the hoary marmot

This species lacks a baseline survey and needs to be targeted for survey and inventory.

Uinta Chipmunk (*Tamias umbrinus*)

PSOC

Figure 125. Montana range and observations of the Uinta chipmunk

This species lacks a baseline survey and needs to be targeted for survey and inventory.

Uinta Ground Squirrel (*Urocitellus armatus*)

PSOC

Figure 126. Montana range and observations of the Uinta ground squirrel

This species lacks a baseline survey and needs to be targeted for survey and inventory.

The following mammal SGIN is also an SGCN. Information on this species can be found in the previous section, Species of Greatest Conservation Need.

Northern Bog Lemming (*Synaptomys borealis*)

SGCN

This species has an outdated survey and needs to be targeted for survey and inventory. For more information, see [Northern Bog Lemming](#) under Species of Greatest Conservation Need in the previous section.

REPTILES

Northern Alligator Lizard (*Elgaria coerulea*)

**SGCN
State Rank: S3**

Figure 127. Montana range and observations of the northern alligator lizard

This species lacks a baseline survey and needs to be targeted for survey and inventory.

Greater Short-horned Lizard (*Phrynosoma hernandesi*)

**SGCN
State Rank: S3**

Figure 128. Montana range and observations of the greater short-horned lizard

This species lacks a baseline survey and needs to be targeted for survey and inventory.

Pygmy Short-horned Lizard (*Phrynosoma douglasii*)

PSOC

This species lacks a baseline survey and needs to be targeted for survey and inventory. There is no range map for this species in Montana.

Western Skink (*Plestiodon skiltonianus*)

**SGCN
State Rank: S3**

Figure 129. Montana range and observations of the western skink

This species lacks a baseline survey and needs to be targeted for survey and inventory.

Snapping Turtle (*Chelydra serpentina*)

**SGCN
State Rank: S3**

Figure 130. Montana range and observations of the snapping turtle

This species lacks a baseline survey and needs to be targeted for survey and inventory.

The following reptile SGIN are also SGCN. Information on these species can be found in the previous section, Species of Greatest Conservation Need.

Smooth Greensnake (*Opheodrys vernalis*)

SGCN

This species lacks a baseline survey and needs to be targeted for survey and inventory. For more information, see [Smooth Greensnake](#) under Species of Greatest Conservation Need in the previous section.

Western Hog-nosed Snake (*Heterodon nasicus*)

SGCN

This species lacks a baseline survey and needs to be targeted for survey and inventory. For more information, see [Western Hog-nosed Snake](#) under Species of Greatest Conservation Need in the previous section.
