Estimated elk numbers are not comprehensively validated with site specific research or enhanced monitoring efforts. Estimates are not framed with confidence intervals and are

*Counts are over 5 years old and may or may not be representative of the number of elk currently in the trend area and status of the population relative to objective.

¹In 2012 the total from HD 530 was added into the Region 4 total, however since 2013 the number observed in HD 530 was added to the Region 5 total. Objectives

²Estimate based on surveys conducted over a 15 month period in HDs 704 and 705 in 2012 and 2013.

³In 2013 the objective of 175 elk in HD 361 was removed from this table after a review of the elk plan with Julie Cunningham, biologist in Bozeman.

⁴This is the sum of animals counted in HDs 700 and 701 and is not a total survey.

⁵There is a sub-objective of 3000 elk on public land.

⁶New objective and/or new hunting district boundary in 2015-16.

⁷In areas where a range is given for the objective a midpoint was selected as the numeric objective.

Number Areas Over Objective: Over objective range expressed in Elk Plan.

74

Number Areas At Objective: Within objective range expressed in Elk Plan.

43

Number Areas Below Objective: Below objective range expressed in Elk Plan.

25

NA: No stated objective, no wintering elk or no survey flown.

29
