The swivel can be attached directly to the base plate at the center, attached to a D-ring centered on the base plate, or can be included in the chain at a point no more than 5 normal chain links from a centered D-ring or base plate attachment point at the center. Conibears or snares may not be used to take wolves.

Roads closed year-round to highway vehicles are not subject to these setbacks, for instance, Kelly-humped roads that are inaccessible to highway vehicles but are accessible by snowmobile.

Procedures to Follow After Harvesting a Wolf

License Validation and Tagging

- A hunter must cut out the proper month and day of the kill from the appropriate license and attach it to the animal before the carcass/hide is removed from the site of the kill or before the hunter leaves the site of the kill.
- To properly validate a license (sometimes referred to as a tag):
  - The triangles denoting the month and day the animal was killed must be completely cut out and removed.

Report Requirements

- All successful wolf hunters and trappers must personally report their wolf kill within 24 hours regardless of their intent to retain possession of the hide and skull by calling the Wolf Reporting Number at 1 877-FWP-WILD (1-877-397-9453) or 406-444-0356 so that FWP can monitor quota levels. Hunters and trappers are required to provide: name, telephone number, ALS number, species, date of harvest, WMU, specific location (legal description), and sex when reporting a wolf harvest. When reporting a wolf harvest, it is unlawful to subscribe to or make any statement that is materially false.

Wolf Quota Status (check the quotas)

24 hours/day

Fish, Wildlife & Parks-owned Wildlife Management Areas (WMAs) are generally open to trapping, although special regulations apply to most WMAs. Contact the local WMA manager or FWP regional office for information on how to obtain permission to trap on WMAs in the state. The following WMAs have special regulations in effect that require wolf trappers to apply for a special permit by September 15 to trap all or a portion of the area.

**Blackfoot-Clearwater Wildlife Management Area**

The Blackfoot-Clearwater has one (1) wolf trapping unit. One trapper will be selected by random drawing each season and permitted to trap up to one limit of wolves. Trapping will be permitted for wolf only; no other furbearing or predatory species may be taken within the wolf trapping unit. Because the trapping unit is within the WMA’s winter closure area, all trapping activity will be limited to nonmotorized travel only. In addition, because the wolf trapping unit includes state school trust land, trappers are reminded to obtain a Special Recreational Use License (application deadline September 30) from the Montana Department of Natural Resources and Conservation (DNRC) prior to trapping on school trust lands. Applicants must possess a valid Trapper License and a valid wolf trapping certification number to apply for this permit. Applicants must submit their name, address, phone number, and ALS number by September 15 to:

Scott Eggeman, Blackfoot-Clearwater WMA  
Montana Fish, Wildlife & Parks  
3201 Spurgin Road,  
Missoula, MT 59801

**Mt. Haggin Wildlife Management Area**

The Mt. Haggin WMA consists of four (4) trapping units where a quota of four (4) licensed trappers shall be permitted to trap a limit of furbearers and wolves each, including ten (10) beaver. Trappers will be selected by a random drawing. Trappers will be able to select an area to trap in the order that names are drawn. The last trapper selected will be assigned the remaining trapping area. Permission to trap wolves on Mt. Haggin WMA is extended only to those trappers that were successful in the drawing. Note: Because Trapping Unit #4 is within the winter closure area of the WMA (closed to all motorized travel December 2 – May 15), trapping activity in this unit will be limited to nonmotorized travel only after December 1. In addition, because Trapping Units #3 and #4 include state school trust land, trappers are reminded to obtain a Special Recreational Use License (application deadline September 30) from the Montana Department of Natural Resources and Conservation (DNRC) prior to trapping on school trust lands. Trappers wishing to take predators must contact Vanna Boccadori for a predator permit. The predator permit is valid for animals classified as predators only (i.e. coyotes)—it does NOT apply to wolves. All applicants must possess a valid Trapper License and, if they wish to trap wolves, a valid wolf trapping certification number to apply for this permit. Applicants must submit their name, address, phone number, and ALS number by September 15 to:

Vanna Boccadori,  
Mt. Haggin WMA  
Montana Fish, Wildlife & Parks  
1820 Meadowlark Lane  
Butte, MT 59701

**Fish Creek Wildlife Management Area**

The Fish Creek Wildlife Management Area is divided into seven (7) trapping units. Permitted trappers will be selected by random drawing. Trappers will be able to select a unit to trap in the order that names are drawn. Each selected trapper shall be permitted to trap one limit of furbearers and wolves, excluding beaver (the entire Fish Creek drainage is closed to beaver trapping). Trappers may also take predatory species within their permitted unit. Note: Because Trapping Unit #6 is within the WMA’s winter closure area, trapping activity within Trapping Unit #5 will be limited to nonmotorized travel only after December 1. In addition, because Trapping Units #1 - #7 include state school trust land, trappers are reminded to obtain a Special Recreational Use License (application deadline September 30) from the Montana Department of Natural Resources and Conservation (DNRC) prior to trapping or snaring on School Trust Lands. All applicants must possess a valid Trapper License and, if they wish to trap wolves, a valid wolf trapping certification number to apply for this permit. Applicants must submit their name, address, phone number, and ALS number by September 15 to:

Liz Bradley, Fish Creek WMA  
Montana Fish, Wildlife & Parks  
3201 Spurgin Road  
Missoula, MT 59804

**Spotted Dog Wildlife Management Area**

The Spotted Dog area has one (1) wolf trapping unit. One trapper will be selected by random drawing each season and permitted to trap up to one limit of wolves. Trapping will be permitted for wolf only; no other furbearing or predatory species may be taken within the wolf trapping unit. Because the trapping unit is within the WMA’s winter closure area, all trapping activity will be limited to nonmotorized travel only (except for access across the groomed snowmobile Route 314, which is open to over-the-snow vehicles). In addition, because the wolf trapping unit includes state school trust land, trappers are reminded to obtain a Special Recreational Use License (application deadline September 30) from the Montana Department of Natural Resources and Conservation (DNRC) prior to trapping on school trust lands. Applicants must possess a valid Trapper License and a valid wolf trapping certification number to apply for this permit. Applicants must submit their name, address, phone number, and ALS number by September 15 to:

Julie Golla, Spotted Dog WMA  
Montana Fish, Wildlife & Parks  
3201 Spurgin Road  
Missoula, MT 59804

**Wolf Behavior: Tips and What to Expect**

- After the shot, follow the wolf to retrieve and tag it as you would any other big game animal. Wolves aren’t known to defend a wounded or harvested wolf pack member. Other wolves may howl, bark, observe, or linger briefly, but will leave the area.
- Wolves are not known to defend their own kills from humans. If you find a wolf-kill, be aware of any bear sign and stay vigilant.
- Though curious, wolves rarely pose a threat to human safety. Risk factors are primarily habituation (loss of fear), food conditioning, or domestic dogs. Keep a clean camp as you would if hunting in bear country by securing all food and game meat from wolves and other scavengers. Pack out all garbage so the area will be safe for you and other recreationists in the future.
Wolf Hunting and Trapping Seasons

Resident and nonresident hunters may harvest any wolf in any open WMU statewide during the archery only, general and trapping seasons. Persons could take up to five wolves via any combination of hunting and trapping (maximum harvest of five wolves per person). For hunting, a separate license is required for each wolf. For trapping, only a Trapping License is required.

Archery Only Season
September 7 - September 14, 2019
The Archery Only Season for wolf will close:
- With the end of the Archery Only Season or,
- When one wolf is taken in a WMU with a harvest quota of less than five (5) wolves (WMUs 110, 313 and 316).

General Season
September 15 - March 15, 2020
In WMUs with a harvest quota (WMUs 110, 313 and 316) when a hunting season quota is reached, the hunting season will close upon a 12-hour notice, but no later than March 15, 2020.

Trapping Season
December 15 - February 29, 2020
