HELP PREVENT The Spread of CWD Chronic Wasting Disease

STOP DUMPING CARCASSES.

Once an animal with CWD dies, any part of the carcass can transmit the disease for at least two years. Safely dispose of all animal parts like you would household garbage, and you’ll be helping to keep local herds “clean” of CWD and following the law.

Donation Options

When purchasing your fishing, hunting and recreation licenses you have the option to donate to different programs. Below is a description of each.

Wolf Mitigation
Donations will be used by the Montana Department of Livestock to contract for wolf management with the U.S. Department of Agriculture's Wildlife Services for flight time, collaring and lethal control of wolves.

Warm Water Fisheries Enhancement
This program supports projects that improve Montana's warm water fisheries and habitats.

Hunters Against Hunger
Donations to this program help cover the cost of processing and distributing the meat that hunters donate to feed hungry Montanans. There will be no cost or processing fees to hunters who drop meat off at participating processors. For a list of processors visit mfbn.org/hunters-against-hunger/.

MT-PLAN
This DNRC grant program facilitates collaboration among recreationists, private landowners, and land management agencies to enhance public access throughout the state.

HOW TO HUNT SAFELY IN Bear Country

Tips on how to prepare for safe outings.

• Inquire about recent bear activity in the area.
• Carry and know how to use bear spray.
• Let someone know your plans and time frame.
• Travel in groups of three or more people when possible.
• Stay on trails or rural roads.
• Watch for signs of bears such as bear scat, diggings, torn-up logs and turned over rocks, and partly consumed animal carcasses.
• Make your presence known by making noise - talking, singing, carrying a bell - especially when near streams or in thick forest where visibility is low. This can be the key to avoiding encounters. Most bears will avoid humans when they know humans are present.
• Don't approach a bear; respect its space and move off.

Hunters

Bears have expanded to areas where they previously may not have not been. They can now be found throughout Western and Central Montana.

Be aware that the act of hunting puts you at risk of encountering bears and that elk bugling, game calls and cover scents may attract bears.

When hunting, the golden rule is “get the elk or deer out of the area as quickly as possible.” The longer a carcass remains lying on the ground, hung up in hunting camp, or in the back of a truck, the more likely it will be discovered by a bear. The sooner elk and deer are taken home the better.

If you must leave the carcass, hang it, in pieces if necessary, at least 10’ above the ground. Leave the carcass where you can see it from a distance, and when you return, observe the carcass with binoculars before approaching. If a bear has claimed the carcass, leave the area and report the incident to the proper authorities. It’s not worth risking your safety or the bear’s safety.

Bears are opportunists and change their behavior in order to take advantage of new food sources. So if you are hunting always assume that bears are in the area and make sure your camps, cabins and homes are bear proof, and that bear attractants are unavailable or contained.

In Montana, our working farms and ranches define our landscape. These lands are home to friends and neighbors who value how their land benefits the wildlife it supports as well as the products it produces.

The stewardship of these lands is a testament to the families who live there. The simple understanding that if you take care of the land, it will take care of you is one passed down from generation to generation. At Montana Fish, Wildlife & Parks, it’s an honor to partner with landowners around the state who value the landscapes like we do; who see a river bottom, not just for the crops it can grow, but for the wildlife that live there; and who cherish the role their lands and operations play in keeping the Montana way of life alive and well.

In Montana, we’re all neighbors no matter which side of the fence we’re on.
- Good neighbors watch out for each other.
- So if you observe or suspect violations, contact 1-800-TIP-MONT and help protect our hunting heritage.
