We are just fine with available, safe, professional facilities in L&C county. State/Fed tax dollars should not be used to build and maintain shooting facilities that a small percentage of Montanans would actually use. Put that money into more public/lands access related projects to insure our ability to recreate across Montana's landscape. I feel with Montana becoming the playground of the rich and famous , that we are in danger of being closed out.

I have worked with others on locations within a few miles of Missoula that could become multi-sport education facilities that all of the state could utilize. 3-D Targets, Fixed 20 - 100 yard targets, year round indoor shooting lanes, education programs, competitive school competitions, state meets and eventually national meets to draw tourism dollars. Missoula is too big and important for there not to be a year round facility for bow enthusiasts.

Q17
Is there anything else you would like decision-makers to know about shooting access in your area?

Public land around bozeman keeps getting shut down. The state land by logan got shut down last year and it was a great place to shoot except for the constant harassment by the person who leases the land in the spring. Several confrontations with the guy saying he owned the land. He would stop and scream and cuss at us saying it was his land. He would turn us in for using state land during the posted months it was open. Twice with the fish and game once with the sheriff's department. Make it known that state land isn't owned by individuals that lease.

Q17

Is there anything else you would like decision-makers to know about shooting access in your area?

The range near Logan is easily accessible, but it is only open seasonally. The parcel of state land near Gallatin Gateway is difficult to reach—especially during the "mud season." In both cases, the lack of defined shooting lanes makes it impossible to move around safely. If there were too many shooters on-site, we would simply leave. For safely sighting in a firearm—particularly at the start of the hunting season—the only option left for me is the Rod and Gun Club in Livingston. Thank you guys from FWP for all your work.

Q17

Is there anything else you would like decision-makers to know about shooting access in your area?

Kalispell is being intentionally overdeveloped, which is cutting into public lands and public land access. The local politicians here are functionally irresponsible bureaucrats from liberal states and they are snuffing out Montana history, and liberties like shooting sports. It would be great if the state could step in and preserve, and enrich our shooting sports and related activities

Q17

Is there anything else you would like decision-makers to know about shooting access in your area?

Around Bozeman, it's pretty crowded. The Logan range hasn't been an option for years. It's not ideal to travel to Big Sky or Livingston to shoot at a facility, but the land use regulations for shooting are sometimes unclear and make it tough to shoot on public land nearer.

Q17

Is there anything else you would like decision-makers to know about shooting access in your area?

we have tremendous over crowding due to increased interest in shooting (self defense, high volume recreational, long range/prs) and seem to ha e consistently closed access to state lands commonly used in various areas which leads to very high usage / overcrowding and unsafe conditions in the very few places left to shoot

Q17

Is there anything else you would like decision-makers to know about shooting access in your area?

Against having one central shooting facility. We need more local facilities. Gas is \$4 and diesel \$5. Winter roads are a challenge. Invest in local ranges and protect from encroaching neighbors with zoning and easements.

Q17

Is there anything else you would like decision-makers to know about shooting access in your area?

A centralized shooting range in Montana would be a horrible idea. People are not going to drive four or five hours from Missoula to shoot at a facility in Lewistown or Billings, nor would people from Miles City or Billings tend to drive to Missoula or Kalispell to use a state owned facility.

The money considered for such an idea would be far better utilized on local or regional shooting ranges for sportsmen across Montana.

Q17

Is there anything else you would like decision-makers to know about shooting access in your area?

Northwest Montana and the Flathead have sufficient ranges and types minus a top tier sporting clays course. I recommend addressing state wide issues before even considering a single "world class" range where the majority of Montanans would have to travel 100-400 miles.

Page 6

Q17

Is there anything else you would like decision-makers to know about shooting access in your area?

People will find places to shoot one way or the other. Best to have these done at safe, organized ranges rather than trashing public lands or worse, trespassing. New/more ranges can be funded from P/R dollars, and new/more ranges will also encourage and lead to more shooting (ie bringing in more P/R dollars).

#100

COMPLETE

Q17

Is there anything else you would like decision-makers to know about shooting access in your area?

REQUIRING hunters education to get a GED or graduate from High School. Support it and then support follow-up. Compensate the volunteers. This is important.

Q17

Is there anything else you would like decision-makers to know about shooting access in your area?

An elaborate "central" facility would likely be mostly unused in a large state like Montana. Travel time/cost is a killer. My 35 mile drive to Whitticar is about my limit.

Q17

Is there anything else you would like decision-makers to know about shooting access in your area?

MT needs many shooting ranges because it is a large state. Shooters need ranges within easy driving distances. One big complex would only benefit shooters in that area.

Q17

Is there anything else you would like decision-makers to know about shooting access in your area?

Montana should focus on serving the needs of Montanans - which means more, regional, locally accessible (within 50 or less miles, less than an hour's drive) smaller facilities or ranges, not one huge complex that will mostly benefit rich tourists and the relatively few Montanans who might live less than an hour away from it.

Page 6

Q17

Is there anything else you would like decision-makers to know about shooting access in your area?

A single super shooting center doesn't work in a state as big as Missoula, no matter how 'central' it could be situated, some folks would still have to drive 1/2 a day just to get to a shoot, let alone then have time to participate in a shoot and drive home again.

Also, several ranges already host very large regional competitions (as in multi-state). Why would we need a supercenter, when existing ranges already hold MULTI-STATE competitions?

Strengthening existing shooting centers, and building new local facilities to fill holes and make shooting more accessible is a better strategy in the long run.

Q17

Is there anything else you would like decision-makers to know about shooting access in your area?

Building one elaborate facility in a state the size of Montana would limit use by most of the state due to the distance of travel. Additionally, it would reduce funding and access to same, for existing and additional facilities throughout the state. Why is the NSSF concerned about shooting range access in the state of Montana?? The state is doing just fine with what is available, in terms of ability to fund and locate range facilities. Personally, I will not pay to access some elaborate facility 50 mi, 100 mi, 200mi, or 300miles from where I live.

Q17

Is there anything else you would like decision-makers to know about shooting access in your area?

I'm opposed to a state sponsored, owned, regional shooting complex. I do not have the resources to travel 4 to 6 hours to utilize such a facility. A privately owned facility would be more acceptable if feasible.

Q17

Is there anything else you would like decision-makers to know about shooting access in your area?

I do not think that money currently available to individual clubs from FWP should be diverted to construct a giant all encompassing facility in one location. Any range needs volunteers to be run successfully. There are not enough volunteers to run such a facility in some centralized location. The towns that do have enough population to support a facility, already have a range or ranges in place, thanks on part to the existing FWP grant program. To reiterate, where would you get the volunteer help to run such a facility. I believe that continued or increased support for our existing gun clubs and/or a program to encourage creation of new clubs is a better answer. Thank You Mac Clark 406-679-6227

Q17

Is there anything else you would like decision-makers to know about shooting access in your area?

I checked NO, that i don't support a large state funded facility, because I fundamentally see it competing with the existing shooting ranges that we have. Most of those are private clubs, with limited volunteer participation. Those volunteers create most of the opportunities for competition shooting, for training, and for range-improvement activities. I do not see that a state-run facility would add any significant opportunities that we don't already have, and would potentially compete for those same volunteer hours. I don't see a realistic way to have state-paid staff at such a facility, because the shooting community will not pay the type of fees it would take to support that. That's why there are so many volunteers involved. I am happy that the State of Montana supports the firearms industry, shooting ranges, and the Second Amendment, and I even feel like considering a range that the State would support is an idea that further shows support of shooting sports. I just simply don't see how it can not compete and conflict with existing facilities that have labored for many many years to establish those facilities, and the membership and volunteer base that they have.

Q17

Is there anything else you would like decision-makers to know about shooting access in your area?

Billings has plenty of uncrowded shooting opportunities. An expensive single shooting complex would not draw regular usage from enough of Montana no matter where you put it!

Q17

Is there anything else you would like decision-makers to know about shooting access in your area?

The only youth shooting facility we have is for 4H shooting sports, with pellet guns. The class is held in the exhibition hall at the Rosebud County Fairgrounds once a week for about six weeks. The Forsyth Rifle & Pistol Club, Archery Club, and Rosebud County Fair have looked into building a range at the fairgrounds in Forsyth, but have not been able to accomplish it because of cost associated with building.

Q17

Is there anything else you would like decision-makers to know about shooting access in your area?

In my area (Richland County) there is nothing. I've invested thousands of dollars to build a range suitable for practice. We need something public in eastern Montana.

Q17

Is there anything else you would like decision-makers to know about shooting access in your area?

If you do not sort out a plan and give people places to go shoot with more organization, the conflicts will continue to increase, people will find places to shoot where they shouldn't be, and something tragic will happen.

Q17

Is there anything else you would like decision-makers to know about shooting access in your area?

Bozeman needs better access to a shooting facility to support the needs of hunters and recreational shooters. The nearest accessible sites are the state land in Logan where significant landowner conflicts have occurred and a range in Livingston which can be difficult to reach due to time limitations or bad weather in winter. As the Gallatin valley continues to be developed, there will be less opportunity to purchase land which could host a shooting sports facility for the fastest growing city in the state.

Q17

Is there anything else you would like decision-makers to know about shooting access in your area?

Gallatin County is home to dozens of hunting, firearms, and related brands as well as a huge population of hunters/shooters. The need for a public shooting facility in Gallatin County is evidenced by the massive impacts recreational shooting has on our nearby state trust lands. Even when 9/10 shooters pick up their trash, we still face closures on these lands from the sheer volume of users impacting them. Continuing to close state trust lands without building an established shooting facility will only move the pressure around to other public lands without solving the issue: we lack a safe, accessible, public shooting range that meets the needs of Gallatin County residents.

Q17

Is there anything else you would like decision-makers to know about shooting access in your area?

Do not set it the ownership/management model like the Great Falls Sport Shooting Complex. The sport shooting complex is slowly pushing out organizations and limiting involvement of the membership. The board makes too many decisions in private and without membership input. At the monthly board meetings, the decisions are announced but membership does not get to be involved in the discussions that lead up to the decisions made. Definitely looking for a different facility to shoot at without all the old guard drama and egos.

Q17

Is there anything else you would like decision-makers to know about shooting access in your area?

There are a few less than ideal undesignated places to shoot in the Flathead Valley and a legitimate established site would be a huge benefit to the community, and to the land.

Page 6

Q17

Is there anything else you would like decision-makers to know about shooting access in your area?

We have access to state land near Bozeman but, it's often overcrowded and shooters often have intersecting firing lanes and insufficient back stops. Plus parking along the roadside increases risk of accidents to shooters and the public accessing the roadways.

Page 6

Q17

Is there anything else you would like decision-makers to know about shooting access in your area?

Trash on public lands is a big issue at easily accessible shooting locations due to high use and negligence. Trash cans at high frequency locations would be best albeit costly but having an easily accessible range near highly populated areas would help reduce the impact on nearby public lands.

Also shooting clays leave a huge impact on these areas. Places that have been used for skeet in the past should be made designated clay areas while other areas should be closed to new clay shooting.

I also think, in regards to a single massive shooting center, that smaller but more numerous public ranges in highly populated areas would be more beneficial to the public.

Q17

Is there anything else you would like decision-makers to know about shooting access in your area?

It's really sad that Montana, of all states, has ZERO high school and collegiate shooting sports programs. As a Montanan, I find that embarrassing and needs to change. Let's build a multi discipline indoor / outdoor range & start hosting major matches & NCAA competitions

Q17

Is there anything else you would like decision-makers to know about shooting access in your area?

Every time public land is closed to recreational shooting due to land misuse the problem only compounds on to the nearest public land. For example the closing of state land along buffalo jump road in Logan. The same volume of users are concentrated along the section still open to recreational shooting along two dog road. Same volume of use and misuse just concentrated in a smaller area until that too is shutdown and the problem finds a new home.

Q17
Is there anything else you would like decision-makers to know about shooting access in your area?

I'm a member of the Whitticar Rifle and Pistol range (great facility). I'm also a member of the Bitterroot Sporting Club, which has been in existence since 1949 at its current location. It's being forced to relocate (essentially close) because a developer at Stock Farm Club wants to develop the parcel immediately to the north of the club. The development is being supported by the county commissioners and a stipulation is the closing of the Sporting Club. This is a active group that would benefit from a FWP Grant like this is talking about

Q17

Is there anything else you would like decision-makers to know about shooting access in your area?

Most private rifle pistol and shotgun ranges are at capacity. Gallatin sporting clays draws competitors from all over the country to its signature shoot the western challenge and is is near current capacity at 300 shooters when the national championship pulls in over 2500 a year and other regional sporting clays competitions like the one in Idaho in 2025 pull in around a thousand shooters. We are incapable of handling competitive matches like this in any of the three shotgun clays disciplines though people love to come here for the competition and a vacation bringing much needed tourism dollars to the state.

Q17

Is there anything else you would like decision-makers to know about shooting access in your area?

Shooting access is nearly impossible near me for 7months out of the year with most of the state ground closed thanks to nearby landowners. We either need help from the state to fight these folks and reopen our historic hunting/target lands OR need the state to designate lands as "safe shooting areas" and pass some sort of protection for those lands. Pretty soon there will be no public land left to shoot on in the gallatin valley.

Q17

Is there anything else you would like decision-makers to know about shooting access in your area?

The spots adopted by shooters on public land around Bozeman such as the spot by the Logan land fill or north end of the Bridger, trash the land and cause safty issues for other recreational users (and shooters). Having dedicated shooting ranges would help solve this.

Q17

Is there anything else you would like decision-makers to know about shooting access in your area?

The areas open to public are overcrowded, thus creating several safety concerns. The lack of oversight also creates an environmental impact as people choose not to pack out their trash.
In order to promote shooting sports, there needs to be facilities that support youth shooting. This inspire families to take up shooting sports and foster good ethics, and safe fire arm use that will continue into hunting

Q17

Is there anything else you would like decision-makers to know about shooting access in your area?

I have been in shooting sports since I was 13. I am at 100% disabled vet that is currently looking for investors to invest in a premier indoor range facility located in Eureka. It would be nice to have a grant system for vets and others to establish small businesses like this in an area of state interest. It would also be nice for the state to donate to disabled vets state land or facilities that are no longer needed that would be useful to establish a business opportunity such as a range.

Q17 Is there anything else you would like decision-makers to know about shooting access in your area?

The only way these shooting complexes will work is if they are close to major populations and people don't have to travel very far. If its more than 50 miles from a person they will not be utilized to their full potential. My local gun club doesnt approve of FA/FRT and I have to drive out to BLM to train with it. Thats because the old people who run the club don't understand what it is.

Q17

Is there anything else you would like decision-makers to know about shooting access in your area?

Flathead County doesn't need a "premier" facility, but an outdoor facility of some sort would be great. Something to safely sight rifles and do some handgun practice.

Q17
Is there anything else you would like decision-makers to know about shooting access in your area?

Locals WILL USE places on public land established for shooting when they are made available. The gravel pit near Tally Lake is a great example. People just need spaces carved out for shooting so that they don't use other places where people live or camp.

Q17

Is there anything else you would like decision-makers to know about shooting access in your area?

<https://www.carbon.utah.gov/amenity/north-springs-shooting-range/>

Look at how a smaller county in Utah set it up. Only 20,000 residents. Gallatin County has 5x the residents and no shooting range beyond a tiny and difficult to access range south of Big Sky. There are private ranges with wait lists to join.

Q17

Is there anything else you would like decision-makers to know about shooting access in your area?

I really enjoy the WMF&G Deer Creek range. We were HCSA members for a long time and the WMF&G Deer Creek range is more accessible and better managed. I think the Deer Creek range should be the model for existing and future ranges/facilities.

Q17

Is there anything else you would like decision-makers to know about shooting access in your area?

There is only one public shooting range that serves the Bozeman Belgrade area and new membership has been closed for some time. The range has a hard time supporting youth shooting groups. Access is restricted to the majority of the population for shooting sports. Other private range options offer limited number of shooting disciplines and the ranges fees are prohibitive to most working class families.

Q17
Is there anything else you would like decision-makers to know about shooting access in your area?

It's a very commonly spoken opinion in the Bozeman area that we really don't have much of a place to shoot. Logan gun range has had their membership closed for years, and most state lands now have restrictions or closures. I'm sure a vast majority of shooter's in my area would happily pay to frequent a public facility that had the availability for all of us.

Q17
Is there anything else you would like decision-makers to know about shooting access in your area?

We are able to afford a club membership at Rod and Gun club in Billings; there is a re-opened indoor range that will be great in the winter. I know several women who would like to learn how to shoot and opportunities are limited.

Q17

Is there anything else you would like decision-makers to know about shooting access in your area?

Great falls has the Great Falls Shooting Sports Complex but the complex board members are stuck in their ways and do not want to hear any changes proposed.. they vote themselves back into the board every year and allow us to “vote” but they are the only ones who can appoint the candidates (themselves)... it is very corrupt and people are growing tired of it.. a state run facility with more funding and opportunities for competitions and long range steel targets would go a long way in this area.

Q17

Is there anything else you would like decision-makers to know about shooting access in your area?

Even simple berms and covered areas in a location such as the Highwoods or Little Belts would be a huge improvement to the marksmanship scene in my area, with the single range that people can go to here.

Q17

Is there anything else you would like decision-makers to know about shooting access in your area?

There are models for how this could work. Southern Utah Practical Shooting Sports Park is a great example. There are already adequate "flat/square range" facilities in MT where hunters can shoot from a bench to sight in rifles, etc. We don't need more of that.

Q17

Is there anything else you would like decision-makers to know about shooting access in your area?

Great falls is central location in the state which has a higher general population of shooting interested citizens (Malmstrom AFB, Montana Air Guard, Montana National Guard) compared to other possible locations. Great falls has a shooting sports complex that struggles with internal problems, over priced for sub par facilities, limited target sets and sketchy range safety/shooting lanes

Q17

Is there anything else you would like decision-makers to know about shooting access in your area?

There is very limited access to a true shooting range in the Hamilton area that provides covered shooting benches, multiple range distances, targets and is in a safe environment. But is limited in space and becomes very crowded towards the start of hunting season. Other than that it's public land that in my experience has lead to conflicts with other shooters. Another true shooting range would be a welcome addition to Ravalli county.

Q17

Is there anything else you would like decision-makers to know about shooting access in your area?

The GFSSC on Great Falls that is funded by the state and FWP and various grants has a corrupt board of directors that do not allow certain types of shooting, they have not been willing to share financial information with members. The state needs to audit them. Specifically the board of directors that are in charge of the funding that's received.

Q17

Is there anything else you would like decision-makers to know about shooting access in your area?

People using improper back drops causing ricochet, and fire hazards are making it not safe to live in the now more dense populated areas. People shooting on private property in the county where there are literally no rules are giving shooting sports a bad name. Sure build noise reduced ranges, but make some shooting rules in populated places outside city limits. It's getting ridiculous and it won't be long before a fire is started that destroys property or someone gets hurt.

Q17

Is there anything else you would like decision-makers to know about shooting access in your area?

Many cities already have indoor ranges, Whitefish Rifle Club, Yellowstone rifle club, Bozeman has indoor range at fair grounds, Missoula has indoor range in Rocker, Great Falls/ Carter have ranges, Circle I think over that way, Cole Strip, etc, but Helena has lost theirs many years ago and needs one for youth and adults interested in competitive indoor shooting. Outdoor ranges are already available in much of the state. Lots of trap and skeet ranges around already.

Q17

Is there anything else you would like decision-makers to know about shooting access in your area?

Rimfire seems to be neglected when it is the entry point for a lot of shooters. It is also the caliber that is the least expensive to train for long distance, up to 500 yards.

There should be more emphasis on rimfire shooting for introducing folks to shooting and also long range for competition shooters. Look up "Long Gong" and NRL 22. It's very popular.

Q17 Is there anything else you would like decision-makers to know about shooting access in your area?

The public land for shooting is great but without dedicated bays and lanes it can be risky when shooters do no communicate. If shooters could have more places with dedicated lanes for long range shooting, and private bays for pistol shooting it would significantly increase the safety in shooting. Indoor pistol ranges are nice for families and beginners but outdoors bays are better for more experienced shooters allowing them to set up their target and do practical pistol shooting. Indoor ranges are obnoxious for rifle shooting, you can't shoot far and the concussion is too much. It's good for zeroing rifles that's about it. I would focus on outdoor shooting facilities with overhead cover and parking. Indoor would be too expensive and only the old and beginners would really use utilize it

Q17

Is there anything else you would like decision-makers to know about shooting access in your area?

The lack of designated, accessible shooting facilities in the Flathead Valley is contributing to unsafe and unmanaged shooting activity on public lands. A proactive strategy, potentially including partnership with the U.S. Forest Service or local governments to establish a regional public shooting facility, could improve public safety, reduce resource damage, and better serve a growing population of lawful shooters.

Q17
Is there anything else you would like decision-makers to know about shooting access in your area?

We have pretty good shooting access in the Great Falls-Cascade County area: GFSSC and multiple archery ranges. All of these are volunteer-based, and often the tasks for the volunteers can be pretty large. Grant support for the facilities is essential, especially for large maintenance and growth projects. However being a full-scale 503C is often too large a requirement for smaller clubs, and thus they're not in the mix for the typical grants.

Q17

Is there anything else you would like decision-makers to know about shooting access in your area?

Related to question 15, if we are going to pay for range membership I expect the equipment and infrastructure to be usable. The Dillon shooting range has some outdated and unusable infrastructure. The lack of quality target frames is leading to people bringing in sheets of plywood and cardboard because there are no surfaces left to staple a target to. Shooters who bring these cardboard and plywood sheets are not cleaning it up after they use it.

Q17

Is there anything else you would like decision-makers to know about shooting access in your area?

Several years ago, I heard there was a new rule on state lands where you could not hunt within a quarter mile of a building, even if that building was on adjacent private land. I asked the Helena wardens about it at the time and got differing replies. No-one could provide me with a direct MCA or such, just a vague policy that they are using for citations. There seems to be incredible variation on how, where, and if, this rule is being enforced. Some of the concerns are,

1. How can a person know if they are a quarter of a mile (440 yards exactly) away from a building on or adjacent to state lands if there is a hill, mountain, thick brush or trees, or other line of sight barrier? Is DNRC suggesting that everyone must purchase a smartphone and GIS type app, an electric rangefinder, and constantly reference it to see if they are approaching within a quarter mile of someone's building? How would that affect someone's hunting experience?
2. This law does NOT apply to the landowner, so the landowner can be within a quarter mile on their own side of the fence and be discharging firearms at will. I have seen (and have photos) of several situations where a homeowner next to state land has put multiple steel target on the state land, and shoots from their property to the state for target practice. How is the landowner allowed to do this, but the public land user is not allowed to shoot within ¼ mile of the private residence? I know of several situations where state lands abut federal lands which are next to private property, so you can discharge firearms on the BLM and Forest service parcels, which in some cases are closer to buildings than the quarter mile. It is an enforcement nightmare. This law is also void on state lands if someone is below the high-water mark, (duck hunting situation) but within a quarter mile of someone else's building. So, it just adds to the confusion.
3. I have spoken with different wardens. One told me flat out he would not write this ticket. Another told me he has written it only twice, both cases for one extremely insistent and wealthy landowner who is protecting his backyard deer herd and is aware of the law while insisting the warden write the citation. I also have heard secondhand of a situation in R1 where a hunter, who was aware of this regulation, hunted state land, stayed far away from neighboring houses, shot a deer, which unfortunately ran towards the private within the quarter mile. The hunter did the ethical thing and dispatched the deer, safely, well within the state land, but not further than a quarter mile, and was cited, and had his deer confiscated because the landowner insisted the ticket to be written.
4. I have not been able to confirm but suspect that there are both state sanctioned and informal shooting ranges currently in operation that violate this rule unknowingly. A study should have been conducted by DNRC before implementation of this rule to see how many times this situation occurs with other state, local, and federal agency lands.
5. I have personally lost 3 of my best turkey hunting spots because of this regulation! A turkey is hunted with a shotgun, a weapons restriction legal method, that poses almost zero threat to any neighboring properties. I have heard of some landowners who have purposefully moved garden sheds to the corners of their property to keep hunters from hunting within a quarter mile of their property lines.

6. The Montana Constitution gives all Montanans the right to hunt on all public lands of the state. The constitution also gives Montana Fish, Wildlife, and Parks the sole authority to regulate the methods of hunting in the state.

"The Montana Constitution protects the right to hunt and fish under Article IX, Section 7 (Preservation of Harvest Heritage), passed in 2004. This amendment establishes that the opportunity to harvest wild fish and game is a heritage to be preserved, without creating rights to trespass on private property or infringing on private property rights.

Key Aspects of Montana's Right to Hunt and Fish

- Constitutional Protection: The provision states: "The opportunity to harvest wild fish and wild game animals is a heritage that shall forever be preserved to the individual citizens of the state".
- Scope: It protects the right to hunt, fish, and trap, often considered a core part of Montana's cultural heritage.
- Limitations: This right does not grant a right of access to private land. Hunters and fishermen must respect private property rights and laws.
- Management & Regulation: While the right is protected, the state retains the authority to manage fish and wildlife populations and regulate the methods of take.
- Legislative Efforts: In 2022 and 2023, efforts were made to further strengthen these rights through potential amendments (such as HB 372 in 2023), aiming to establish hunting and fishing as the preferred means of managing wild fish and game populations. The provision ensures that the state cannot easily abolish hunting and fishing, while allowing the Montana Fish, Wildlife & Parks (FWP) to continue to regulate seasons, methods, and licenses."

Montana Shooting Access Individual Survey

7. DNRC has no authority to make this decision. This issue needs to be constitutionally addressed, by FWP, and the methods for this are below in the last 2 points of this letter.

8. There is a state section near Townsend, Mt that I and many others have hunted for many years, some for generations. This section is in an area with ZERO other public access. It houses Whitetail and Mule deer, Waterfowl, Turkeys, Pheasants, and Hungarian partridge. My friend's 2 children shot their first deer on this property. A few years ago, someone bought a lot next to this land and proceeded to build a new house, and post threatening messages about not hunting on the fenceposts around the state property. Well, that lead to many arguments with locals who HAVE been hunting here for generations. In 2023 my daughter filled a B tag here, the deer ran close to the road before falling, within sight of the house, but several hundred yards away. When we got to the deer, it was still alive, and she dispatched it safely. Congratulations and high 5's went around and we started field dressing the deer, in a few minutes a car stopped on the road and this man started screaming obscenities at me and my 2 young daughters, threatening to call the wardens and the Sherrif on us, and all other manner of uncivilized talk that should NEVER be spoken in front of children. He said he has had the wardens write 3 people already for hunting "his" state land. He calmed down a bit when I approached him and told him I had kids hunting with me and I did not appreciate his words or attitude, and I was a Hunters Ed instructor, and we had done nothing wrong! I did not allow him to harass us any further, I told him to either call the wardens or move along on his way. He left, but this situation, where a newcomer can build next to public land; and then bully people and block hunting from it is completely backwards! They move in here, so they should be required to live with the land usage that has been happening for generations! This new misguided regulation is making criminals of people who have been taking their families hunting on these state sections for, in some cases, generations!

There are many other fair, equitable, commonsense solutions the DNRC could pursue to keep public land access open for all and still address whatever it is they are trying to address with this misguided regulation.

1. If recreation shooting close to neighboring houses is what is trying to be addressed here, the reg can clearly state that no recreational or target shooting is allowed within a quarter mile of a building, instead of "discharge of firearm" and it should state "except for legal hunting" as well.

2. If hunting safety zones are what is being addressed, the standard of every other state should be followed. 100–150-yard safety zones around buildings are standard around the country. If this is not enough, or a greater concern in specific flat ground situations, weapons restriction regulations should be pursued on those specific spots, not this broad weeping statewide regulation that deprives Montanans of their right to hunt on state lands!

Let me know if you have any further questions,

Thanks.

Q17

Is there anything else you would like decision-makers to know about shooting access in your area?

Very limited with no good public areas, doesn't need to be anything fancy just a safe place to sight in rifles, garbage and restroom.

Q17
Is there anything else you would like decision-makers to know about shooting access in your area?

Many shooting clubs (trap) are too stuck in their ways and won't make changes to attract new members and make themselves more relevant to today's culture. Help modernize them by providing a framework to help make them more relevant. Just because they have been doing it for 50 years doesn't necessarily mean it can't be done better. Also support state organizations (ie MSCA) to get the word out about their respective sports...advertising money, underwrite youth/women participation.

Drive in should be allowed at the state land section used primarily in Madison County, Varney Bridge to expand longer distance, handicap, etc. this is contrary to the posting on the gate for limited land owner use. All shooting is restricted to ability to walk and limited use time when other shooters are present. Porty Potties would also be nice

Ravalli county commission is closing the local trap club to build airplane hangers. The closest range is 70 miles away. Over 50 youth shoot weekly, 3 local schools use the range. Boy scouts count on the range. This is a huge tragedy for our community. Fwp showed interest for a few months, the last year they have been silent. Please get involved!

Q17

Is there anything else you would like decision-makers to know about shooting access in your area?

My son and my grandson use a trap shooting club in Hamilton. It's giving them education on gun, safety, and respect for the environment. They both took Hunters education. This gets them comfortable with knowing how to use a gun correctly when it comes time To hunt. I feel they are getting the best education they can get for growing boys in Montana that plan to hunt. Most of the guys that teach them are retired veterans. And the veterans love teach teaching them. Every kid should have access to this.

Q17

Is there anything else you would like decision-makers to know about shooting access in your area?

Within 30 min of my house I have access to two private, membership ranges, and ample public ground.
But the public ground is not safe or clean. So I pay for the private ranges for my family to use. I rather donate or use public ground.

Q17

Is there anything else you would like decision-makers to know about shooting access in your area?

Greg Chilcot, Jeff Burrows, Brad Mildenberger and the airport board are stealing our shotgun range us.
The club serves several hundred people. We are losing it for a few hangars that could be put on the otherside of the runway.
We have the largest kids shooting team in the state, by far! But some rich pricks who throw money around will throw the kids out and laugh about it.

Q17

Is there anything else you would like decision-makers to know about shooting access in your area?

Although statute "protects" ranges from closure by government agencies, the threats of incorporation by municipalities pose very significant threats to facilities via changes in zoning. For example, converting agricultural/open space to residential and associated taxation/infrastructure (e.g., sewer/water) fees will preclude continued operation of shooting facilities.

Private/club ranges are available. From living elsewhere, the challenge of public ranges is that without some sort of monitoring the garbage cleanup and damage to backstops is a challenge to keep up with unless there is a caretaker or modern video monitoring system that users know will hold them accountable for how they use the range.

Q17

Is there anything else you would like decision-makers to know about shooting access in your area?

Ravalli county is an area super ripe with all aspects of shooting, but lacks any areas of any size that concerns many, longest rifle range is 300yds and other than a private business, theres no public archery range available, you must drive to missoula or further. Also the shotgun sports park in hamilton is facing eviction over the county wanting to terminate their lease to put in more hangers, while the shooting park serves more people that live there and in the area, quit taking opportunity away from many in favor of a very few

Q17

Is there anything else you would like decision-makers to know about shooting access in your area?

Publicly accessible ranges of 1,000 meters or more would be a huge benefit. Private ranges with these options are effectively out of the reach of average shooters. This creates an elitist class rather than encouraging everyone to improve their skills and share their knowledge. A more involved and cohesive shooting community is possible by actually supporting everyone, not just those who can afford to pay for the privileged access.

Q17

Is there anything else you would like decision-makers to know about shooting access in your area?

FWP's needs to fully fund and implement their existing shooting range development program. Target shooters, not hunters, pay millions of dollars in excise taxes each year with their purchases of ammo and guns. Those monies flow back to state F&G agencies and some of it is supposed to be spent on development and maintenance of gun ranges. Yet, FWP hoards their PR funds and refuses to spend more than a paltry amount on shooting ranges in MT! There should and could be more and better local gun shooting ranges if someone forced FWP to spend those PR monies that are available for gun ranges.

Q17

Is there anything else you would like decision-makers to know about shooting access in your area?

I would like decision makers to be aware that my local trap shooting club, the Hamilton Trap club is not under threat, but under a promise of closure from the county.

If this ends up going through, we will have no trap shooting facilities in Ravalli county. We have an active club, with competition leagues, as well as an excellent youth league.
This youth league is the best youth shooting program we have in our valley. If our range closes, that will mean families will have to travel over 1 hour to Missoula in order to shoot. It simply isn't practical. All other shooters at our club would have to do the same.

I would hope that someone with some decision making ability can look into this and see that closing our club is a bad decision for shooting access in our valley.

Q17

Is there anything else you would like decision-makers to know about shooting access in your area?

If a public shooting range can be built anywhere in Montana there should be a membership opportunity and an annual fee associated for that membership. The membership money would help pay for security personnel and safety personnel and janitors to oversee all shooters.

If someone does not want to buy a membership then they cannot shoot at the public facility. A “user fee” membership.

Q17

Is there anything else you would like decision-makers to know about shooting access in your area?

I think building a centrally location "premier" complex is key to participation. equal distance for people to travel to utilize the facility will attract more patrons/members. Look for private donations as well. The public premier range in Rapid City SD is a good example or model and was funded with private and public dollars; and affordable if you choose the premium membership.

Pete Lien and Sons Shooting complex.

Q17

Is there anything else you would like decision-makers to know about shooting access in your area?

Public shooting areas are limited in Flathead county. A cleared area with different range burms or backstops would be a fantastic addition to range shooters. It's just difficult to find a safe place to shoot.

I shoot on state land (A very safe 100 yd range with great backstop) and the garbage left behind by other shooters is appalling. I haul off boxes of hulls and other crap every time I shoot there. But people will drop appliances and other crap that they shoot up and leave. I'm concerned this spot will get shut down because of unethical shooters.

Q17

Is there anything else you would like decision-makers to know about shooting access in your area?

As a resident whose property borders a very popular BLM shooting area, I would like to see more established safe shooting areas for responsible shooters. The amount of fires, garbage, vandalism, and illegal off road use has increased substantially in this area (Helena north hills). A safe shooting zone with clear rules and restrictions and consistent enforcement would improve this area significantly.

Q17
Is there anything else you would like decision-makers to know about shooting access in your area?

Great Falls does have access to shooting facilities, however, they have very limited budgets and most positions are on a volunteer basis. Publicity for shooting events/training is minimal and range maintenance is also relatively minimal.

Q17

Is there anything else you would like decision-makers to know about shooting access in your area?

The access is limited to rod and gun clubs, often friends and family do not have the same membership. Having a public facility outside of Billings would be very beneficial to the community.

Q17

Is there anything else you would like decision-makers to know about shooting access in your area?

No designated shooting range in my county...at all
Closest is glendive, but it's normally crowded and the benches are too far back into the shelter leading to excessive muzzle blast

Q17

Is there anything else you would like decision-makers to know about shooting access in your area?

Access is limited - numbers of volunteers to do work and help with upkeep continue to fall and usage increases. Range fees don't cover costs for upkeep. Smaller ranges are needed in less populated areas to stop some of the shooting areas that aren't designed to be shooting areas.

Q17

Is there anything else you would like decision-makers to know about shooting access in your area?

A more organized shooting range without out being too overly designed would be a huge benefit. With better parking, some kind of bathroom and designated areas and lanes of shooting.

Q17

Is there anything else you would like decision-makers to know about shooting access in your area?

I dont know why, but it seems like Bozeman has a much more involved shooting community. It seems like matches in that area have better attendance than billings. Also, the precision rifle competitions seem to be growing the fastest.

Q17

Is there anything else you would like decision-makers to know about shooting access in your area?

The Dillon Shooting range is great, I just wish there was more options for steel targets on the rifle range, and more flexibility to shoot from other positions and not just off a bench. That said, I use that range a lot and it is very well kept, never see piles of trash, and other shooters are respectful and practice good safety.

Q17

Is there anything else you would like decision-makers to know about shooting access in your area?

Im very happy to hear that this is a conversation we are having and I 100% fully support expanding recreational shooting access in Montana. I grew up in Billings and always went out to 17 mile with my grandpa. When i got older i learned what a luxury it was for us to have a public shooting range as most places don't. From that day forward I decided I would always do everything i can to protect our beloved way of life here in Montana. Thank you all again and I look forward to seeing progress made on this front!

Q17

Is there anything else you would like decision-makers to know about shooting access in your area?

In the Glasgow area, we have some great opportunities for improvement to several unregulated ranges on the edge of town. The city has already worked with local FWP and said they would lease FWP the land to improve both a rifle/pistol range and an archery range.

I have a few pay ranges I can go to and one designated public land area. The public land I'm always cleaning up after people and they're is no bench to shoot from. I use that for hunting/primitive shooting practice but it's only good for 115 yards. We could use places out to 400 yards and have some signage and maybe a fake camera to keep idiots from littering.

Shooting areas we have shot at for over 50 years are being closed down for special interest groups and anti gunners. All are public land and have been used by shooter for MORE than 50 years and now you can hardly shoot anywhere unless it's on private land and even then you always have someone who thinks you shouldn't.

Page 6

Q17

Is there anything else you would like decision-makers to know about shooting access in your area?

The shooting facility questions should be Separate between public and private. I Quit shooting at public shooting areas (Billings area its the 17 Mile shooting area) because it was FULL of trash, and people who had no clue of how to shoot safely. I was out there probably 15 years ago trying to sight in some pistols, and there were some individuals down the way shooting AKs (I am familiar with AK vs AR, etc), and I had several ricochets go over my head. I packed up and left, haven't been back since. I now pay \$300 a year to belong to 2 separate ranges to cover all the disciplines I shoot. I belong to Billings Rod and Gun mainly for the Archery. I belong to Yellowstone Rifle Club for the long range facilities, where they have Steel out to 700 yards. BRGC only has centerfire out to 300 yards. I would love to have ONE facility that covers both, and cut my overall costs.

Lastly, I am a former competitive shooter (Wyoming state champion NRA Silhouette in 2011), and cost is the main reason I got out of the sport. Between ammunition costs, travel, range fees, etc, I chose to narrow down my hobbies. I still belong to the shooting facilities as I reload and work on precision for hunting, and other recreational shooting, and participate in Archery with my children.

Q17

Is there anything else you would like decision-makers to know about shooting access in your area?

We have Libby gin range for most the trap shooting for all of Lincoln county, it would be nice to have options for trap compitions in the area. However Troy or Yaak club would need help with expanding to art least 4 trap fields and it would be nice if we had sporting Clays in the area and some skeet fields, beyond Libby range

Q17

Is there anything else you would like decision-makers to know about shooting access in your area?

I would rather see the State of Montana invest in smaller compact sites in all areas rather than one large facility near a large population center. Once established, focus on youth/new shooters and sportsmen while giving experienced shooters/sportsmen a place to shoot.

Q17 Is there anything else you would like decision-makers to know about shooting access in your area?

Flathead county has few and far between large shooting ranges especially for the public when it comes to fair priced ranges that aren't part of a club that you have to attend meetings for. This is especially true for the Kalispell city area. What public space we do have for shooting is overcrowded and not worthwhile to share due to respect of other shooters

Q17

Is there anything else you would like decision-makers to know about shooting access in your area?

Encourage more accountability of shooters and shooting sports. Stewardship of the sport, of the environment we shoot in, and most importantly, the way in which we regard the tools we use. This change is needed to increase the number of folks interested in participating.

Q17
Is there anything else you would like decision-makers to know about shooting access in your area?

The deep creek range in Missoula has a 1000 yard range, that is frequently used and when used closed the rest of the members ranges and forces you to use the public range. This is undesirable and also causes overcrowding.

Q17

Is there anything else you would like decision-makers to know about shooting access in your area?

Building one big megaplex shooting facility would only benefit people who lived within an hour of that facility. Building smaller facilities or outdoor ranges in a variety of places would be helpful. I would also love to see my kids and their generation have more opportunities so we don't lose these skills.

Q17

Is there anything else you would like decision-makers to know about shooting access in your area?

There are two ranges (private and nonprofit) in the Helena area that I am aware of. They provide different capabilities but also have restrictions and limitations (ie closure days, membership requirements, range distance 25 yards, no prone, age minimums, etc). This makes educating and training youth challenging in the winter months. My family would love to participate together but these varied restrictions and limitations often leave our most avid outdoors-kids on the sideline (9 and 11 yrs old). Please consider the Helena region for a youth centric facility.

Q17

Is there anything else you would like decision-makers to know about shooting access in your area?

Montana is home to some of the best long-range shooters in the world. The fact that we don't have adequate facilities to support the growth of long range competitions is disappointing. The success and rapid growth of: the Western Precision Rifle League (local league that has matches in Montana), NRL Hunter, Sniper series matches and ELR matches are a definitive use-case for the needs for facilities in Montana. Thank you for your consideration.

Q17

Is there anything else you would like decision-makers to know about shooting access in your area?

A website specifically for shooting sports with types of shooting available with interactive maps across our great state. Information and communication is key. Possible expansion of access administered through BMA's.

Q17
Is there anything else you would like decision-makers to know about shooting access in your area?

It would be great if there were more standard facilities as well, especially if it were state run and public like how many other states provide. An easy place to take kids to learn and more convenient to town. This type of location would obviously be much more difficult to provide a 1k yard lane for long range, but it would get more casual shooters outside easier. To me it would still be a bigger priority to have a long range rifle range over another standard out-to-300yd range, simply because there are multiple affordable and free options to shoot at that type of range that already exist.

Q17

Is there anything else you would like decision-makers to know about shooting access in your area?

We have several ranges open to the public but shooters tend invest in their firearms rather than pay low fees to use established ranges. Many of the shooters using public land close to town do not check for rcochets or overshoots that endanger other recreationists. They persist in driving when roads are muddy which causes rutting, damages native vegetation, with leads to erosion of dirt road surfaces. Most leave spent casings and used targets littering the landscape. Live trees are used to post targets untill the trees are so shot up that they fall over. Over the last 10 years there have been at least 3 forest fires one of which endangered nearby homes and cost millions to surpress. Sportsmanship and environmental ethics need to be improved and new single use safe ranges away from other recreationists need to be found.

Q17

Is there anything else you would like decision-makers to know about shooting access in your area?

Bozeman area lacks a good public range that can support the shooters in the area. Logan range is at capacity and does not have room to accommodate long distance targets 1000-2000 yds.

Hidden valley range in three forks has long distance steel available, but no other types of shooting are permitted along with poor access and target maintenance. Expensive annual membership fees make it inaccessible to many.

Bozeman is unique in its need for a good public range. A lot of areas have been shut down due to the immense amount of other recreational activities in the area. Many run of the mill shooters use state land next to the Logan landfill. This area is at capacity due to the south west side being shut down. Overcrowding and trash cleanup has been the big fight in the Bozeman area.

Cody WY has an excellent shooting range available that incorporates many disciplines including long range shooting.

While the discipline may seem foreign to many, long range shooting is growing at a rapid pace. The Precision Rifle Series and NRL Hunter Series matches are selling out in a matter of hours. The advent of bullet and ballistics technology has made 1000 yard targets easily attainable by novice shooters. Range planners should highly consider targets to a mile and beyond as 500-1000 yards just isn't that far of a shot anymore.

As a lifelong resident I highly support a state sponsored shooting facility. Bozeman should be at the top of the list for need. However, I am still in support regardless of the area.

It is extremely limited in Bozeman. The fastest browning and one of the largest places in the state doesn't have a public shooting range. A lot of people live here for the hunting but there is no where near here to go shoot long range and validate your setup.

Q17

Is there anything else you would like decision-makers to know about shooting access in your area?

The Montana University System needs D1 to D3 (etc) shooting teams with scholarships and travel support. Our Montana junior shooters are leaving the state to compete at the collegiate / national / international levels. Shooting is an Olympic event though it is not a revenue producing sport such as football or basketball. Missoula, Belgrade, and Billings have junior clubs that are producing exceptional competitors through the high school years, and out-of-state universities are reaping the benefits.

Q17

Is there anything else you would like decision-makers to know about shooting access in your area?

The youth program in a shooting sports instructor for has extremely limited access to ranges and difficulties finding space to store equipment which extremely limits the number of youth who are able to participate in instruction for shooting sports. There are also very few competitions for youth smallbore (.22) available for them to experience in the state.

Ruby valley gun club should be a model for creating similar clubs throughout Montana. But most importantly, the existing facilities could use support to stay in existence. Our local high school brings the students out to learn gun safety. Are local sheriffs department?Does regular training at our facility. It is getting so difficult for these volunteers to maintain all the infrastructure in addition to their time in running these various programs.

Q17

Is there anything else you would like decision-makers to know about shooting access in your area?

I would love to have a local trap and skeet range in stillwater county. Driving to billings every week for our high school team is a pain.

Q17

Is there anything else you would like decision-makers to know about shooting access in your area?

There are currently two large clubs in my area, both non profit. Limited days for practice but ran by volunteers, witch help keeps shooting costs down. im quit sure both clubs have received multiple grants from fwp and am un certain if a new facility in one location woud benefit montana , or some criteria should be established and help out multiple clubs around the state would benefit all montanas

Q17

Is there anything else you would like decision-makers to know about shooting access in your area?

While I highly doubt any of this funding is going to my rural area and will be spent on a complex in a much larger area I think it is a wonderful idea and has my full support. And maybe I'll get to occasional use the facility if attending a competition there on a rare occasion as the areas listed on the survey are extremely long distances for me and it would be a burden to travel several hours to

Q17

Is there anything else you would like decision-makers to know about shooting access in your area?

We drive 52 miles, one way, to get to the Billings Trap Club so the USA Clay Target team that we started in Columbus can participate in shooting competitions, practice, and leagues. Twenty-eight kids and their families are driving there 1-3 times per week. There are many schools that could join USA Clay Target if closer shooting ranges with trap or skeet options existed.

Q17

Is there anything else you would like decision-makers to know about shooting access in your area?

Helena is nearly equal distance from Missoula, Great Falls and Bozeman. A shooting facility in Billings would leave most of the state too far away to use it.

Q17

Is there anything else you would like decision-makers to know about shooting access in your area?

Billings has a decent amount of ranges, all are paid except one. 17 mile is insane to go out to because people are not educated enough with firearms and it's actually dangerous to go out there. Of course I would like to the see the new complex in Billings but being centrally located in the state in Helena I think would be the best.

Q17
Is there anything else you would like decision-makers to know about shooting access in your area?

I'm in Glasgow MT. We have a non profit trap club that is already established but could some financial help for updates. There is plenty of open land within the gated property that would work for long range shooting and areas for pistol bays. I think it would be better to improve this facility rather than to build another separate rifle range. The club already has volunteer who clean up the area and offers areas for trap shooting, areas for bag archer, and 3d archery targets. Adding a riffle range and a pistol range to this establishment would be great for the community. Membership costs are extremely low and will be easy to afford by local residents.

Q17

Is there anything else you would like decision-makers to know about shooting access in your area?

I don't think one expensive shooting complex in the state is the answer. Just designate and develop long range rifle ranges in most counties on state land. Could be done very economically by clearing some land and putting in some burms, with no buildings needed.

Q17 Is there anything else you would like decision-makers to know about shooting access in your area?

We used to have great support at the University level, both MSU and UM had good shooting teams. Every year we have youth graduating and getting scholarships to schools with rifle programs... every single year. It would be great if our Universities supported this sport again.

Q17

Is there anything else you would like decision-makers to know about shooting access in your area?

You are not the decision makers in matters like this. The government needs to stop create departments to waste money in. That includes shooting related organizations. If people want better opportunities, they will create them for themselves.

Q17

Is there anything else you would like decision-makers to know about shooting access in your area?

In Richland county there has been a push to get a range up for over ten years and nothing has come of it. Would be nice to be able to get funding to actually get started on one.

Q17 Is there anything else you would like decision-makers to know about shooting access in your area?

Woke a state mega complex would be a great addition to the state, the most important topic is the continues support and operation of local shooting ranges. Serious shooters must shoot weekly to hone skills. A mega complex would be a great venue for more events and competitions, but will never take the place of local public ranges and clubs.

Q17

Is there anything else you would like decision-makers to know about shooting access in your area?

Keep all the smaller ranges open opposed to one large centerly locate facility which would require travel .
I shoot weekly 2 to 3 time any distance more than 50 mile would cause me to lose shooting opportunities.
Loosing local facilities would drive shooter into the public lands which can and would cause unsafe areas.

Q17

Is there anything else you would like decision-makers to know about shooting access in your area?

I've owned a small firearms store for 6 years, and from my experience, shooting areas are extremely limited. As stated above, the public club-based facilities near us in Cascade County are less than accommodating and incredibly unwelcoming to guests. For relying so heavily on state funding they really need to be more open to the public. It's a well-known fact in our community that the Great Falls Shooting Sports Complex leadership board has been mismanaging public funding for years.

Q17

Is there anything else you would like decision-makers to know about shooting access in your area?

It would be beneficial to separate shooting disciplines as much as possible with multiple ranges. Pistol bays and rifle range go good together. Trap, skeet, sporting clays and archery go good together. However, they don't mix well due to the personality classes of the individuals.

Q17
Is there anything else you would like decision-makers to know about shooting access in your area?

4H in Flathead county has a phenomenal shooting program but lacks safe facilities to house the program. With access to good facilities and class space we could impact more youth in our community. 4H has a vast volunteer network that can help maintain a public facility and provide trained instruction for youth programs. By educating youth in firearm safety we see entire families embrace the sport and demonstrate safety principles taught to their children.

Q17

Is there anything else you would like decision-makers to know about shooting access in your area?

Here in the Flathead we have the oldest and largest 4H Shooting sports program in the state serving about 200 youth every year. We are limited in what we can do by the lack of dedicated, year round faculties. Sharing space at the Flathead Co. fairgrounds limits our access to only the winter months preventing us from being able to offer opportunities other times of the year.

Page 6

Q17

Is there anything else you would like decision-makers to know about shooting access in your area?

Find some public lands close and create a few berms so people can go shoot. I hate having to pay a fee or drive an hour or more just to shoot, let alone the issues that come with bringing a young person along and trying to get them safely into the sport.

Q17

Is there anything else you would like decision-makers to know about shooting access in your area?

As a firearms instructor and depending on the circumstances, I would be willing to help develop an educational program that would help bring shooters into regular training. And I have many connections to help bring national level instructors to the area on a regular basis. Thank you for polling the public for what's needed. Q17

Is there anything else you would like decision-makers to know about shooting access in your area?

My main concern with the creation of a new facility is the possibility of it being used as an excuse to restrict the ability to shoot recreationally on public lands. Gallatin county recently lost its most popular public shooting range on state land, which has made it difficult to find somewhere reasonably close to go shoot at longer ranges. It has also led to some conflicts with bordering landowners in our new shooting areas, who have been upset with us shooting on public next to them, despite it being done perfectly legally and responsibly.

Q17
Is there anything else you would like decision-makers to know about shooting access in your area?

Need small dumpsters on popular shooting sites with slotted covers to fit only small items. Signs to prohibit shooting and dumping of vehicles, appliances, etc. Law enforcement should visit the sites. Often violators are breaking multiple laws so it's a good honey trap.

Q17

Is there anything else you would like decision-makers to know about shooting access in your area?

Shooting sports popularity changes with time and too many shooting ranges do not want to keep up with the change in event requirements. To many ranges are strictly NRA Shooting Sport events supports and not open to NRL Hunter, Precision rifle sports and other popular shooting sports.

Q17 Is there anything else you would like decision-makers to know about shooting access in your area?

End the corruption and bureaucracy in local gun clubs.. To many older people thinking they can control everything by screwing it up... Create problems to sell solutions... Paying their friends to do jobs at the ranges that never get done... I'm sure this isn't something new...

Q17

Is there anything else you would like decision-makers to know about shooting access in your area?

We need to stop letting landowners claim safety issues are their reason for wanting access shut down. And if safety and cleanliness are legitimate problems , we need to find ways to correct public behavior, not ban shooting at every decades-old public shooting area.

Q17

Is there anything else you would like decision-makers to know about shooting access in your area?

Cascade county has great programs that provide excellent educational opportunities to learn how to use guns safely. Other countys do not offer the same support and I believe a new facility should be established in other areas that mimics the support of the Missouri river shooters

Q17

Is there anything else you would like decision-makers to know about shooting access in your area?

I don't want to pay for another 'premium' facility that I'll never use. I'm all for handing down our hunting shooting fishing culture to the next generation, but I think having more public access to wilderness across the state would be more beneficial than a huge complex 500 miles from anyone that will use it. Missoula and Bozeman are already too far liberal to accept the cost of that facility or its ongoing cost. Buy land across the state instead and keep it wilderness. Thats what preserves our culture in Montana.

Q17

Is there anything else you would like decision-makers to know about shooting access in your area?

It's a mess. Garbage is a big issue. As is common sense safety. Public lands in populated areas are tough. We live next to one and as much as I love public lands, it is frustrating listening to non stop gunfire from first lite until sunset some days. Not often now but I would guess it's only going to get worse as time goes on. Tough situation!

Q17

Is there anything else you would like decision-makers to know about shooting access in your area?

Our range in Townsend is often busy, many people travel from other towns to use. Would be nice if it was less crowded.

Q17
Is there anything else you would like decision-makers to know about shooting access in your area?

There is Limited access to public land, and private ranges do not allow tactical training, drawing from the holster, setting up training scenarios, etc
