

Dear Applicant:

Montana Fish, Wildlife & Parks (FWP) would like to thank you for your interest in FWP's Shooting Range Development Grant Program. The funds are appropriated by the Legislature authorizing FWP to award to successful Applicants for development of publicly available shooting range facilities. These funds come from hunter license dollars and are one way in which Montana's hunter license dollars are reinvested in Montana's sportsmen and communities.

Please read the application carefully and answer each question completely. In preparing your project overview, you may review the criteria used by FWP to evaluate and rank grant applications.

Please note that FWP defines the **Project Period** as the period of time in which all approved work and related expenditures are to be accomplished by the Applicant. ***Work completed or expenditures incurred outside the approved Project Period will be ineligible for reimbursement.***

Generally, the sequence of events for the grant applications are as follows:

## **February 1 - Grant application submission deadline**

Grants and associated projects are reviewed for completeness and project eligibility

Grants are scored and ranked based on selection criteria

Environmental Assessments (EAs) are conducted

EAs are published and public comment sought on project for a two-week comment period

Responses are made to public comments

Decision Notices are published

Contracts undergo legal review

Contracts are sent to applicants for signatures

Projects are to be completed and bills submitted for reimbursement by the following June 15<sup>th</sup>

\*Projects may be extended to the next June 15<sup>th</sup> following an accrual process and an amended contract being signed.

## Americans with Disabilities Act (ADA) Information

The Department of Justice's revised regulations for Titles II and III of the Americans with Disabilities Act of 1990 (ADA) were published in the Federal Register on September 15, 2010. These regulations adopted revised, enforceable accessibility standards called the 2010 ADA Standards for Accessible Design, "2010 Standards." On March 15, 2012, compliance with the 2010 Standards was required for new construction and alterations under Titles II and III. March 15, 2012, is also the compliance date for using the 2010 Standards for program accessibility and barrier removal.

Public accommodations and commercial facilities must follow the requirements of the 2010 Standards, including both the Title III regulations at 28 CFR part 36, subpart D; and the 2004 ADAAG at 36 CFR part 1191, appendices B and D.

The 2010 ADA Accessibility Standard applies to **newly constructed and altered facilities**. As of March 15, 2012, all newly constructed and altered **shooting facilities** have to comply with the provisions of the ADA.

Depending on how a facility is covered under Title III, they need to do readily achievable barrier removal, which means doing what's easy to accomplish without difficulty or expense.

If your range is owned by a unit of state or local government, the regulations are similar under Title II, and it's called program accessibility.

**15.7.4 Shooting Facilities.** Where fixed firing positions are provided at a site, at least 5 percent, but not less than one, of each type of firing position shall comply with 15.7.4.1. Appendix Note

**15.7.4.1 Fixed Firing Position.** Fixed firing positions shall contain a 60-inch (1525 mm) diameter space and shall have a slope not steeper than 1:48.

**15.7.4 Shooting Facilities.** Examples of different types of firing positions include, but are not limited to: positions having different admission prices, positions with or without weather covering or lighting, and positions supporting different shooting events such as argon, muzzle loading rifle, small bore rifle, high power rifle, bull's eye pistol, action pistol, silhouette, trap, skeet, and archery (bow and crossbow).

*A public accommodation is defined as "a private entity that owns, leases (or leases to), or operates a place of public accommodation."*

*A person with a disability is defined by the ADA as, "a person who has a physical or mental impairment that substantially limits one or more major life activities, a person who has a history or record of such an impairment, or a person who is perceived by others as having such an impairment."*

Technical assistance on the guidelines for sports facilities is available from the Access Board at: (800)-872-2253 (voice), (800)-993-2822 (TTY) or [ta@access-board.gov](mailto:ta@access-board.gov) (e-mail).
