 - i. They will need to enter the names of **ALL** prospective party members. **Party members may not be added or changed after application submission.**
 - ii. They will be issued a "Party Number" upon completion of their transaction (the party number arrives via email as a PDF attachment). It is their responsibility to share this number with the other party participants.
 - iii. The next individual who applies will indicate that they are **NOT** the first to apply and will then enter the party number when prompted.
 - c. **ALL** party members must select the same Bonus Point option. This means, if the party leader selects "yes," to purchase a bonus point, all party members must select "yes" to purchase a bonus point. If the party leader selects "no," all party members must select "no." If you apply for different options, you will be removed from the party.
 - d. If you are a Montana resident and apply in a party with nonresidents, your application will be treated as a nonresident for quota purposes (MCA 87-2-506).
- 15) REFUND OPTIONS FOR UNSUCCESSFUL DRAWING:** You will need to choose one refund option from the list provided when applying online for your license. The option that you select will be implemented in the event that you are unsuccessful in drawing a General Combination License. If you are in a party and you choose a different refund option than other members of your party, this may result in the dismantling of the party for the remaining stages of the drawing. If you desire to keep your party together in the final stages of the drawing, your best option is for all party members to choose the same refund option.

- a. If you are applying for a **Big Game** or an **Elk Combination License**, as well as a **Special Elk Permit**, you will need to choose one of the following options (if you are not applying for a Special Elk Permit, select 'I am not applying for a Special Elk Permit'):
