

MONTANA FISH AND WILDLIFE COMMISSION AGENDA ITEM COVER SHEET

THE **OUTSIDE** IS IN US ALL.

Meeting Date: February 4, 2022

Agenda Item: 2022–2023 Moose Hunting Regulations, Season Structures, and Hunting District Boundaries

Action Needed: Final

Time Needed on Agenda for this Presentation: 15 Minutes

Background: Season structures and hunting district boundaries are adopted biennially by the commission for public comment in December with final adoption in February for most game species. The department is proposing minor changes to that adopted for public comment in December. The proposed changes from prior moose seasons presented in December are detailed in the attached moose hunting master lists, and hunting boundary changes, although detailed in the boundary change master list, are referenced in individual proposals within the moose master list. These lists are presented for commission action and public review. The commission is also considering all regulations and descriptions of boundaries for the 2022–2023 moose season for adoption at the February meeting, whether a change is proposed or not. All other regulations and descriptions of boundaries will remain unchanged unless addressed by the commission.

Public Involvement Process and Results: Public comment was accepted through Jan. 21, 2022. Based on the substance of public comment received through Jan. 14, The department is recommending no changes to the moose seasons adopted in December based on the substance of public comment received through Jan. 14. The department is recommending minor adjustments and corrections noted in the master lists. Any final adjustments to these recommendations based on final public comment will be made at the commission meeting on Feb. 4.

Alternatives and Analysis: The department presented conceptual changes for each species season structure and hunting district boundaries for public discussion and feedback beginning in August. The proposals being presented to the commission include changes incorporated in response to that feedback. The commission may provide the department with additional amendments on any aspect of season structure, quota, or hunting district for any species and on aspects of the regulations that are not proposed to change.

Agency Recommendation and Rationale: The department recommends the commission approve the proposed 2022 and 2023 hunting regulations and district boundaries as presented by the department and as outlined in the attached master lists. Any aspect unchanged from 2021 seasons will remain in effect for 2022 and 2023, except where affected by routine calendar rotations.

Proposed Motion: I move the Fish and Wildlife Commission vote to approve: 1) changes identified in the moose master list and the moose boundary changes master list as presented by the department; and 2) all other moose regulations contained in the 2020–2021 booklet to be adopted for the 2022 and 2023 moose hunting seasons and hunting districts.
