

# MONTANA FISH AND WILDLIFE COMMISSION AGENDA ITEM COVER SHEET

THE **OUTSIDE** IS IN US ALL.

**Meeting Date:** February 4, 2022

**Agenda Item:** 2022–2023 Bighorn Sheep Hunting Regulations, Season Structures, and Hunting District Boundaries

**Action Needed:** Proposed

**Time Needed on Agenda for this Presentation:** 15 Minutes

---

**Background:** Season structures and hunting district boundaries are adopted biennially by the commission for public comment in December with final adoption in February for most game species. The department is proposing minor changes to that adopted for public comment in December. The proposed changes to bighorn sheep seasons are detailed in the attached bighorn sheep hunting master lists, and hunting boundary changes are referenced in individual proposals. The proposed changes to boundaries are detailed on the attached bighorn sheep boundary change master list. These lists are presented for commission action and public review. The commission is also considering all regulations and descriptions of boundaries for the 2022–2023 antelope season for adoption at the February meeting, whether a change is proposed or not. All other regulations and descriptions of boundaries will remain unchanged unless addressed by the commission.

**Public Involvement Process and Results:** Public comment was accepted through Jan. 21, 2022. Based on the substance of public comment received through Jan. 14, the department is recommending no changes to the bighorn sheep seasons adopted in December, however minor adjustments and corrections are noted in the master lists. Any final adjustments to these recommendations based on final public comment will be made at the commission meeting on Feb. 4.

**Alternatives and Analysis:** The department presented conceptual changes for each species season structure and hunting district boundaries for public discussion and feedback beginning in August. The proposals being presented to the commission include changes incorporated in response to that feedback. The commission may provide the department with additional amendments on any aspect of season structure, quota, or hunting district for any species and on aspects of the regulations that are not proposed to change.

**Agency Recommendation and Rationale:** The department recommends the commission approve the proposed 2022 and 2023 hunting regulations and district boundaries as presented by the department and as outlined in the attached master lists. Any aspect unchanged from 2021 seasons will remain in effect for 2022 and 2023, except where affected by routine calendar rotations.

**Proposed Motion:** I move the Fish and Wildlife Commission vote to approve: 1) changes identified in the bighorn sheep master list and the bighorn sheep boundary changes master list as presented by the department; and 2) all other bighorn sheep regulations contained in the 2020–2021 booklet to be adopted for the 2022 and 2023 bighorn sheep hunting seasons and hunting districts.
