

**Elk Master List  
December 20, 2021**

**Specific proposed changes for 2022–2023 as adopted by the Fish and Wildlife Commission at their December 14, 2021 meeting identified below. All season components except calendar year rotation are open for public comment but are proposed to remain unchanged from 2021.**

Below are proposed elk season regulation changes for the 2022 and 2023 elk seasons, generally described at the hunting district level. Changes include consolidation of hunting districts and adjustments to hunting district boundaries, changes to licenses and permits, and adjustments to quotas. Some broad changes reflected in the proposals below include:

Unbundle and remove the 900-20 archery-only either-sex permits in HDs 401, 403, 411, 412, 426, 447, 450, 455, 500, 502, 510, 511, 520, 530, 570, 575, 580, 590, 701, 702, 704 & 705 and make those hunting districts or combination of hunting districts either general season or unlimited as follows:

- HD 401: general license
- HD 403: general license
- HDs 411/412: unlimited permits
- HD s 417/426: unlimited permits
- HD 447: unlimited permits
- HD 450: general license
- HD 455: unlimited permits
- New proposed HD 515: general license
- HDs 502/new proposed 535/new proposed 555/590/existing portion of 701: unlimited
- HD 575: general license
- HD 580: general license
- HDs 702/704/705: unlimited

In elk hunting districts 411, 417, 426, 535, 590, 702, 704, 705, maintain the current season structure but increase the either sex elk firearm permits by 50% as follows:

- HD 411/new proposed HD 535: 300 to 450 permits
- HD 417: 225 to 340 permits
- HD 426: 60 to 90 permits
- HD 590: 250 to 380 permits
- HDs 702/704/705: 225 to 340 permits

**Elk Master List  
December 20, 2021**

**Specific proposed changes for 2022–2023 as adopted by the Fish and Wildlife Commission at their December 14, 2021 meeting identified below. All season components except calendar year rotation are open for public comment but are proposed to remain unchanged from 2021.**

Add a new statewide, unlimited antlerless B license valid on private land in elk hunting districts that are greater than 200% above objective. Valid during open seasons for those hunting districts (for example, if there is an early and a late season, they would be valid during those. If there is no early season, this license wouldn't be valid during an early season). For 2022, that would include the following Hunting Districts:

- HD 260
- HD 411/535 (new)
- HD 417
- HD 426
- HD 450
- HD 515 new
- HD 575
- HD 580
- HD 590
- HD 690
- HD 700
- HD 702/704/705

## **Statewide**

### Permits:

Permits for either-sex elk or brow-tined bull-antlerless elk will limit the holder to hunting for antlered elk within only the designated HD for the period identified on the permit. Antlerless elk hunting will not be limited by the permit. A general license may be used to hunt in any open district during dates outside of that identified on the permit.

### Late Season Antlerless Elk Options:

Late antlerless elk hunting as proposed in the master list for individual hunting districts that run as late as February 15 on private and some public lands; add a late season in HDs 702/704/705 through February 15 on private lands. This shall be applied to all HDs that had late antlerless elk hunting opportunities in License Year (LY) 2021 and any additional HDs that might be added by the commission because they are over objective for 2022–2023. This option is incorporated in the specific HD descriptions below where they differ from LY 2021. Where there is no proposed difference from LY 2021 identified in the master list, the late antlerless elk hunting in specific HDs is proposed under this option as no change from LY 2021.
