

**Amendment to Lake 5 Rule Making Petition
Submitted by Vice Chair Tabor**

I move the Fish and Wildlife Commission take no action at this time on the petition for Lake 5 No Wake Riding, and

I move that the department form a citizens advisory group with the same design features of recently done Church Slough, tasking the group to develop recommendations for potential Administration Rules regarding Lake 5 motorized restrictions.

Background:

Using this process that has proven productive and inclusive for effected citizens in key decisions on similar requests put forth to the commission.
