To whom it may concern,

Big Sky Dallas Safari Club is dedicated to advocating for wildlife conservation in Montana while promoting and enhancing our outdoor lifestyle. We are committed to making significant progress in preserving our hunting traditions and engaging more young people in outdoor activities. We are dedicated to Conservation, Education and Advocacy.

We would like to request the 2027 Shiras Moose Auction License, which will be auctioned at our annual banquet on February 27th, 2027, in Great Falls, Montana. We anticipate over 350 attendees from around the globe at this event.

The event will also feature a live auction and will be broadcast on Online Hunting Auctions, which has over 1.4 million subscribers. Our goal is to raise over $200,000, and securing this license will help us achieve that. Our chapter will retain 95% of the funds raised at the gala, as well as 100% of the funds raised from other fundraisers throughout the year.

Our banquets have always sold out, helping us raise money for conservation programs in the State of Montana. Dallas Safari Club is a leader in granting funds for wildlife conservation for over 40 years.

We plan to allocate up to 10% of the proceeds to cover reasonable auction expenses, and we will provide documentation of the costs associated with the auction of the licenses. We are committed to making positive changes in Montana and are grateful for the opportunity to collaborate with Montana Fish, Wildlife & Parks.

Sincerely,

Erin Throckmorton
