### Q2

Please comment on Johnson Reservoir FAS Land Use License

On behalf of the Montana Wildlife Federation (MWF), who for 90 years has worked to protect Montana's fish and wildlife, public lands, clean waters, and fair-chase hunting and fishing heritage, please accept these comments supporting FWP's continued management of the Johnson Reservoir Fishing Access Site near Glendive.

In a part of the state with limited lake-fishing access opportunities, each FAS is critically important to our outdoor heritage. While MWF supports the proposed 2-year extension of this land use license, we are even more excited about the potential of a perpetual agreement where FWP would commit to permanent management authority of the FAS, adding security to this access site and likely generating more meaningful funds into the school trust.

MWF asks the Commission to approve the proposed land use license with encouragement to find a perpetual solution so we're not having to rehash this conversation every other year or risk losing a developed fishing access site in eastern Montana.

Thank you for the opportunity to comment,

-Kevin Farron, Conservation Director
Montana Wildlife Federation
