## Q2

Please comment on Hilleman FAS

More access to the Yellowstone River would be fantastic. I moved from Miles City 15 years ago and would have felt much more confident floating or using the river if there had been more public access. I managed an access program in Idaho where our goal was access every 5 miles and it really improved boater confidence in using the river and does not limit it to motorized use where you can return upstream. I strongly support this proposal. Great work.

Please comment on Hilleman FAS

Please accept the perpetual recreation easement. Increasing public access to Montanas rivers is beneficial to all Montanans and gives more opportunities to get people involved in the outdoors.

## Q2

Please comment on Hilleman FAS

On behalf of the Montana Wildlife Federation (MWF), Montana’s oldest and largest hunter and angler-based conservation group, please accept these comments in full support of the Hilleman Fishing Access Site Recreation Easement from the City of Miles City to FWP.

The proposed FAS recreation site easement near Miles City represents a rare opportunity to increase fishing and river access in one of Montana’s largest population hubs east of Billings. The nature of river recreation often requires multiple access sites to allow for suitable options depending on watercraft and duration of activity. Land ownership, shifting river beds, and other logistical challenges along the Lower Yellowstone River make FAS site locations few and far between in this area. Therefore, we fully support the proposed project that would include a boat ramp, parking lot, and day-use area that would increase both river recreation and shoreline fishing opportunities, thereby helping to satisfy priorities established by FWP and the LYR Corridor Advisory Committee in 2021.

We thank FWP, the City of Miles City, and Walleyes Unlimited for their generosity and collaborative work here and ask the Commission to approve the Proposed Action to accept a perpetual recreation easement on 1.2 acres of land from Miles City for the purpose of building and operating the Hilleman FAS.

Thank you for the opportunity to comment.

-Kevin Farron, Conservation Director, Montana Wildlife Federation
