

HD 212

- Boundary changes have occurred since adoption of the 2005 Elk Management Plan. Current HD 213 subsumes most winter range previously in HD 212.
- There is currently no population objective in HD 212. Is this acceptable? If not, what should it be?
- In HD 212, there are bull objectives to maintain a 2-year average bull:100 cow ratio of 10:100 or at least 7% bulls of total elk observed during post-season surveys and to maintain an annual bull harvest comprised of at least 50% brow-tined bulls, of which at least 10% harvested bulls are ≥ 6 pt. Should there be bull objectives in this HD? If so, are the current bull objectives appropriate? If not, what should they be?
- Are you satisfied with the current elk distribution in this HD? If not, would you suggest any specific objectives to address the distribution?
- What else does the Elk Management Plan need to include for this HD?
