

HD 361

- Few elk winter in HD 361, so there has not been an explicit population objective for this HD. Is this acceptable? If not, what should it be?
- In HD 361, there is a bull objective to maintain a minimum of 10% bulls in the total elk observed during post-season aerial trend surveys. Should there be a bull objective in this HD? If so, is the current bull objective appropriate? If not, what should it be?
- Are you satisfied with the current elk distribution in this HD? If not, would you suggest any specific objectives to address the distribution?
- What else does the Elk Management Plan need to include for this HD?
