Enhancement Program**

Your opinion matters! See page 3 for details
TURN IN POACHERS: 1-800-TIP-MONT

Protecting Our Hunting Heritage

Hunters must be ethical to ensure good landowner relations and future program success. Help preserve Montana's hunting heritage by abiding by these rules and behaviors:

- ✓ Private lands enrolled in the UGBEP require landowner permission prior to hunting game birds. Some projects are walk-in with no further permission from the landowner or may be administered through Block Management.
- ✓ All projects are walk-in only from established roads, signed access trails, or parking areas unless further permission is received from the landowner.
- ✓ Treat the lands as a guest and act responsibly.
- ✓ Obey the safety zone concept even if there are no signs. Leave a buffer when hunting near any building.
- ✓ Hunting season is harvest season. Park only in areas that do not block gates or roads from passing farm equipment.
- ✓ Leave gates as they are found.
- ✓ Be aware of fire danger. Avoid parking in tall grasses, especially early in the season. No open flame or outdoor grilling.
- ✓ Remember to thank landowners for enhancing habitat and providing hunting access.
- ✗ Never shoot towards buildings, homes, or livestock.
- ✗ Do not leave cleaned game remains near parking areas, roadways, or roadside ditches.
- ✗ No driving off road.
- ✗ No hunting or parking in unharvested grain fields.
- ✗ No littering. Please pick up your spent shot shells. Deposit solid human waste in holes dug 6-8 inches deep and at least 200 feet from water, buildings, or trails.

**UGBEP projects
are only open
during the fall
upland game
bird season.**

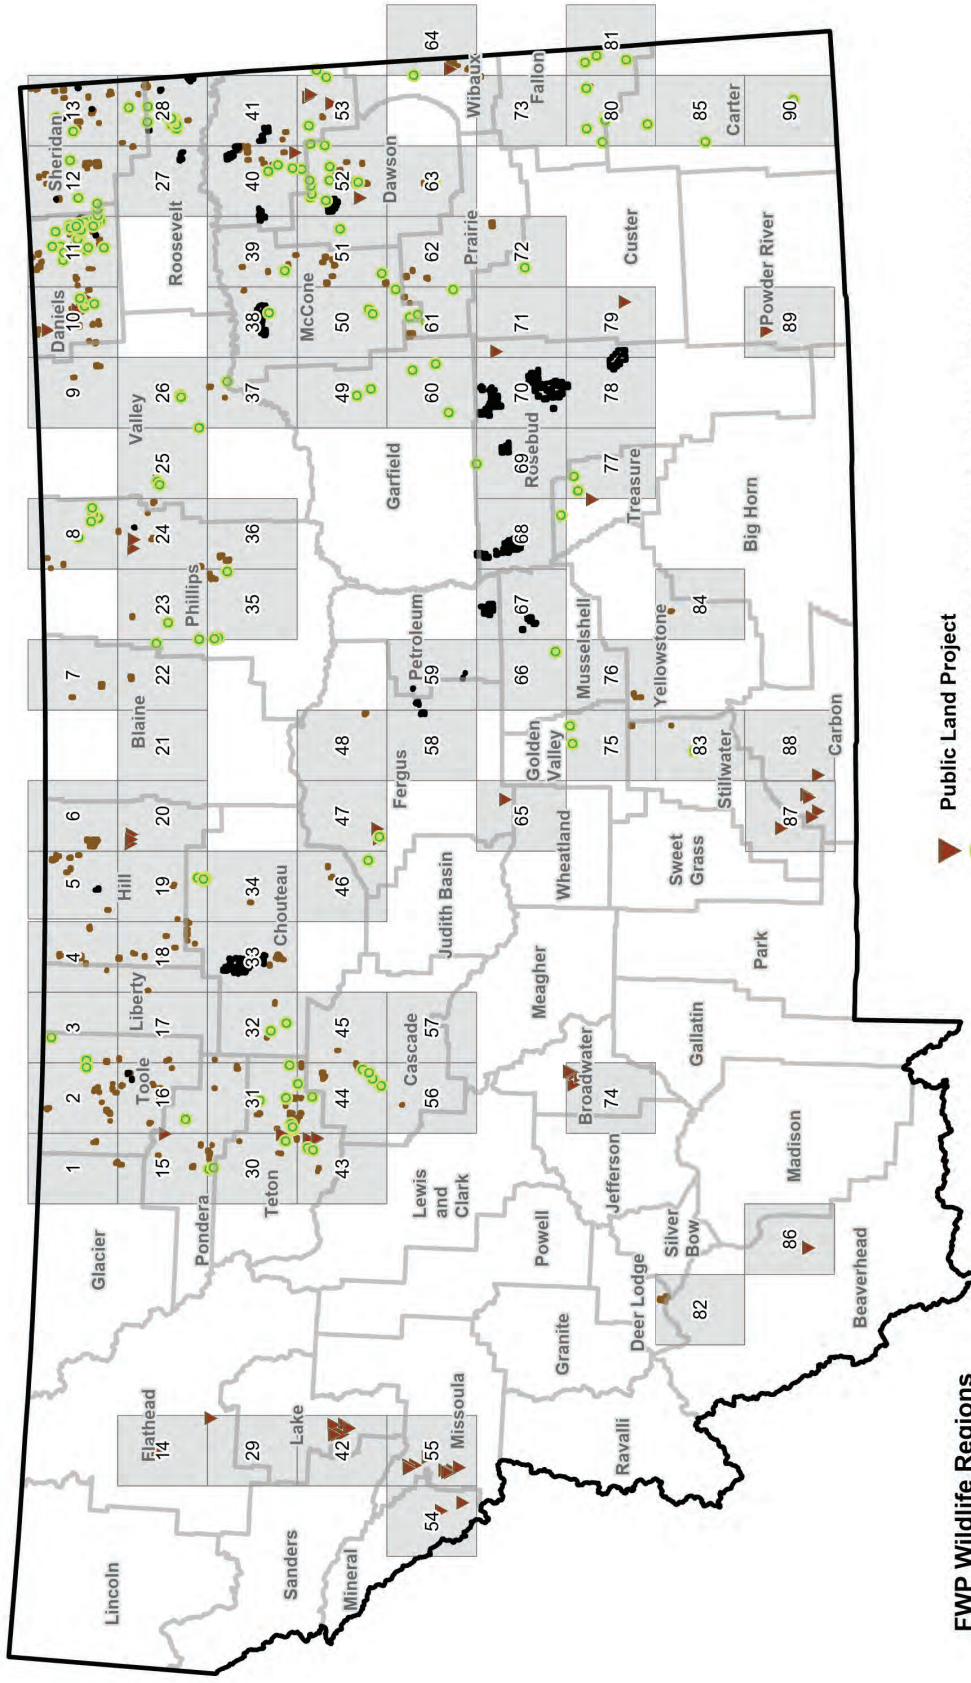

Farmers and Ranchers

On behalf of Montana Fish, Wildlife & Parks, and all Montana hunters we'd like to say "Thanks!" Thanks for providing habitat for Montana's public wildlife resources, and thanks for opening your gates to resident and nonresident hunters.

FWP Wildlife Regions

Welcome Upland Game Bird Hunters!

Welcome to the Montana Fish, Wildlife & Parks (FWP) Upland Game Bird Enhancement Program (UGBEP). The purpose of this program is to enhance upland game bird populations on lands open to free public hunting. FWP partners with private landowners, public land managers, and conservation organizations to improve habitat on private and public lands. With over 600 active habitat projects, UGBEP conserves and enhances over 370,000 acres of upland game bird habitat while providing nearly 740,000 acres for public upland game bird hunting.

FIRE NOTICE

Due to current dry conditions and high fire danger throughout Montana, hunters may encounter UGBEP project closures or restrictions. Some cooperators may be reluctant to make access commitments until weather conditions improve.

Hunters should contact regional FWP staff and/or landowners prior to making final hunting trip plans, to identify any possible land closures, season restrictions, or other actions which might affect their hunting activities. An up to date list of FIRE CLOSURES can be found at <https://fwp.mt.gov/news/current-closures-restrictions>

How to Use this Guide

Obtaining landowners' permission to hunt upland game birds is required prior to hunting or entering any private land project area.

Exception: Some projects allow walk-in game bird hunting only with no further permission needed.

UGBEP Project Maps found in this publication are intended only as a guide. It is every hunter's responsibility to know the land ownership of the area he or she intends to hunt and any land use restrictions that may apply there. Non-FWP information layers used to create the maps are from other agencies and may not be current, comprehensive, or accurate.

The UGBEP Projects Access Guide contains 2 key sections: (1) Regional Information Tables and (2) Maps. Together, these sections will help hunters locate project areas and the method used to obtain permission to hunt, when applicable. Every project found on the maps is labeled with a project number and is symbolized to indicate the type of permission needed prior to accessing the project area. A description of the symbols follow:

Private Lands Symbols

 Black polygon with hatch marks: Landowner permission needed. Hunters can refer to the tables for the method to contact landowner.

 Brown polygon with hatch marks: Walk-in game bird hunting, no further permission needed from the landowner.

 Access Trails may only be used to access active projects. All access trails are signed.

 Green circle: Project is located on land enrolled in Block Management. Refer to tables for Block Management Area information.

Public Lands Symbols

 Brown triangle: Accessible public land, no permission is needed.

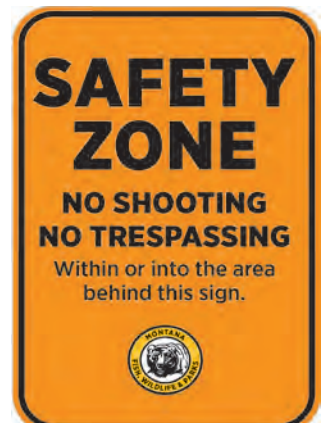

The Map Index, located on page 1, provides hunters with a statewide overview of project locations relative to Montana's counties. Grids containing UGBEP projects are labeled with the Map Page number. This number corresponds to the map page found in the Regional Information Tables. Map Pages also contain greater detail about the project areas, including nearby roads, private land boundaries, projects located on public lands, or projects located on Block Management Areas. All projects are symbolized according to the type of permission needed and labeled with a project number(s) that corresponds to a tabular description in the Regional Information Tables.

Project numbers are located in the Regional Information Tables according to FWP's Wildlife Administrative Region. To locate the project number in the tables, use the Map Index to first determine in which Region the project is located, then refer to the Regional Information Tables that contain detailed project information, including the method to obtain permission to hunt, cooperator name, project termination date, project/enhancement types, access acreage, and associated Map Page. Hunters can also refer to the tables first to select a project they are interested in, then refer to the Map Page number to locate the project on the map.

Watch for these Signs

The following signs are a selection of several signs hunters may find on projects. UGBEP has new signs for habitat projects. Be on the lookout!

No shooting/trespassing into safety areas around houses or buildings.
No hunting in unharvested crops/fields or near livestock.

Project #	Map Page (s)	Cooperator	Method for Obtaining Permission	Access Acres	Project Type(s) (Proj. Acres)

2026 Sunrise-Sunset Table For Determining Hunting Hours

These tables, including adjustments for daylight savings time, are the official sunrise-sunset tables adopted by the Montana Fish & Wildlife Commission for hunting in Montana. Authorized hunting hours for the taking of upland game birds and falconry begin one-half hour before sunrise and end one-half hour after sunset each day of the hunting season.

Do not use other sources.

ZONE 1: INCLUDES: Flathead, Granite, Lake, Lincoln, Mineral, Missoula, Ravalli and Sanders counties
