LTA = long term average (previous 10 years)

- The estimates for mule deer populations are based upon population modeling with survey and/or harvest inputs.
- Mule deer estimates are not comprehensively validated with site specific research or enhanced monitoring efforts.
- Mule deer estimates are not framed with confidence intervals and are subject to adjustment.
- The method used to make mule deer population estimates was changed in 2015 - Population estimates on this page should be used in place of previous population estimates.
