

NEW BLOCK MANAGEMENT ENFORCEMENT NETWORK: KNOW THE RULES BEFORE YOU HUNT

SENATE BILL 441:

Establishing the Montana block management enforcement network

As a result of Senate Bill 441 (2025 session), landowners now have the option to opt-in to the block management enforcement network. Hunters accessing lands enrolled in the enforcement network shall adhere to all rules governing access to the block management property. Any hunter conviction based on a violation of those rules will result in the following: (a) for a first conviction, the individual must be prohibited from accessing all lands participating in the Montana block management enforcement network for the remainder of the current license year; (b) for a second conviction, the individual must be prohibited from accessing all lands participating in the Montana block management enforcement network for up to three consecutive license years; and (c) for a third conviction, the individual must be prohibited from accessing all lands participating in the Montana block management enforcement network for life.

A list of landowners participating in the network can be found below.
