

Wolf Trapping Season Status

MONTANA FWP

Status as of December 24, 2022

- Wolf Region/Management Unit
- Closed to Hunting
- Closed to Hunting for Game Animals
- Wolf Trapping Started Nov. 28
- Floating Trapping Start Date Areas:**
- Wolf Trapping has Started

Trapping start date varies in areas in or near occupied grizzly bear habitat, shown by the floating trapping start date area on the map. For these areas, the trapping season will start on Dec. 31 unless otherwise determined by FWP due to the evidence the majority of bears in these areas have begun hibernation. Floating start date trapping areas are dependent on the district being open per the harvest quota.
