

DECISION NOTICE

Jungbluth Private Fish Pond License

7/13/2023

ACTION

Decision Notice (DN). Montana Fish, Wildlife & Parks (FWP) shall prepare a DN for the proposed action. The DN must identify the agency decision, the reasons for the decision, and any special conditions surrounding the decision or its implementation.

With this action, FWP hereby adopts the Draft Environmental Assessment or Draft EA as final, without modification, and approves Alternative 2, the proposed action.

AUTHORITY: MONTANA ENVIRONMENTAL POLICY ACT

According to the applicable requirements of the Montana Environmental Policy Act or MEPA and its implementing rules and regulations, before a proposed action may be approved, environmental review must be conducted to identify, consider, and disclose any potential impacts of the proposed action on the affected human environment. The level of environmental review will vary with the complexity and seriousness of environmental issues associated with a proposed action. The level of public interest will also vary. The agency is responsible for adjusting public review to match these factors. *Title 75, Chapter 1, Parts 1 through 3, Montana Code Annotated (MCA)*.

Based on these factors, FWP determined a Checklist EA (Draft EA) constitutes the appropriate level of review for the proposed action. Therefore, to assess and disclose potential impacts of the proposed action, FWP prepared a Draft EA for public review and comment. See *Public Participation Process* below.

Further, FWP must consider any substantive comments received in response to an EA and proceed in accordance with one of the following steps: determine the EA did not adequately reflect the issues raised by the proposed action and issue an Environmental Impact Statement or EIS; determine the EA did not adequately reflect the issues raised by the proposed action and issue a supplemental EA; or determine the Draft EA adequately addressed the issues raised by the proposed action and make a final decision, with appropriate modification resulting from the analysis provided in the Draft EA and the analysis of any substantive public comments received. See *Public Comment and FWP Response* below.

PUBLIC PARTICIPATION PROCESS

The Draft EA was made available for public review and comment from June 23, 2023 to July 8, 2023. A legal Notice was published in the Bozeman Daily Chronicle and the Draft EA was posted on FWP's Public Notice

webpage: <https://fwp.mt.gov/news/public-notice>. The Draft EA was also made available for public review on the Environmental Quality Council or EQC website: <https://leg.mt.gov/mepa/search/>, by individual request, and through notice to identified interested parties. FWP did not receive any comments during the public comment period.

DESCRIPTION OF PROPOSED ACTION

The project consists of a private pond constructed with the intent to stock fish for angling.

PURPOSE AND NEED

The project will provide the landowner with the opportunity to stock fish from a state approved hatchery in the constructed pond.

ALTERNATIVES ANALYZED

Alternative 1: No Action

In addition to the proposed action, and as required by MEPA, FWP analyzes the "No-Action" alternative in the EA. Under the No-Action alternative, the proposed action would not occur. Therefore, no additional impacts to the human environment would occur. The No Action alternative forms the baseline from which the potential impacts of the proposed action may be measured.

Under the No Action alternative an angling opportunity would not be available for the landowner in their private pond.

Alternative 2: Proposed Action

Under the Proposed Action, the private pond will provide an angling opportunity for the landowner in their private pond.

PUBLIC COMMENT AND FWP RESPONSE

No public comments were received during the public comment period.

DECISION

Based on the environmental review provided in the Draft EA, and in accordance with all applicable laws, rules, regulations, and policies, FWP determined the proposed action (Alternative 2), will not have significant adverse impacts on the human environment associated with the proposed action and constitutes a reasonable and appropriate strategy to achieve identified objectives. Therefore, preparation of an EIS is unnecessary. FWP hereby adopts the Draft EA as final and approves the Alternative 2, the proposed action.

With this DN, FWP hereby adopts the Final EA, without modifications, and approves the proposed action.

Sincerely,

Marina Yoshioka
Regional Supervisor
Montana Fish, Wildlife & Parks
