Saturday Evening

Goodness Snakes Alive! Learn what makes the prairie rattlesnake rattle, how to avoid being bitten, and what to do if you are ever bitten by a rattlesnake.

Night Skies at Lewis & Clark Caverns
Discover the stories behind the stars that you can see overhead in the dark skies above the park.

Small Wonders Explore the smaller, often unnoticed life of our park like squirrels, lichens and mosses, and rabbits.

Three Dog Night A tribute to three wild canines: wolves, coyotes, and foxes.

Wildlife Skins and Skulls Discover what skulls can teach us about animals and feel the pelts that protect our wildlife friends.

Bat Evolution Special bat week program!

Monday Guided Hikes/Programs

Birds of a Feather Towhees and Magpies and Hawks, oh my! This bird walk through the campground will reveal these and more. Binoculars provided.

Flower Power Bask in the beauty of the wildflowers of the park and discover their secret powers.

Insect Safari Go on a hunt for these six-legged critters. See how many different kinds you can find.

Naturalist's Choice: Greer Gulch/River
These hikes will take us either to the Greer Gulch trailhead or down to the river to explore whatever crosses our path.

Orienteering Learn how to use a compass then navigate your way to the prize at the end.

Treerific Trees Collect leaf, bark, and cone samples on various trees in the park then use this data to see if you can identify the trees.
